- Heated Holding Tanks
- Black Water Tank Flush
- Water Heater Bypass Kit
- Drinking Water Faucet w/Purifier
- Sink Spray Head, (Galley)
- Lockable Water Fill
- Water Pressure Regulator
- Exterior Water Service Center

Since Airstream constantly strives to improve its product, all specifications are subject to change without notice.

Vehicle Loading—Every effort has been made to provide the greatest number of options for the fifth wheel owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer’s specified chassis weight limits. Do not overload the fifth wheel.

**NOTE:** Vehicles with overall body width greater than 96" are known as "wide bodies." Wide body vehicles are restricted to use on main highways in certain states. A vast majority of states allow 102" body width on all highways, but wide body width is now allowed on all federal highways in the United States. Your dealer may be able to furnish more specific information. If you are concerned about vehicle width, we invite you to consider other fine Thor vehicles offered in the standard 96" width.
