THE SENSATIONAL NEW AIRSTREAM TRAVEL TRAILER

30-ft. SOVEREIGN OF THE ROAD

A MONARCH AMONG TRAILERS

Here it is at last—luxurious, spacious living and the lightest trailer of its size in the world combined. Airstream's sensational new 30-ft. "Sovereign of the Road" is a true monarch in every way. It is a big, roomy, beautifully designed 4-wheeled tandem, yet it can be towed with ease by any car. Only recently an important national automobile magazine road-tested andclocked this trailer at over 50 mph, towed by an ordinary medium-priced car—proof that the Sovereign tows like a dream at any speed.

Yes, Airstream's new Sovereign responds to the slightest touch of the gas pedal—or the brake. Yet it has the most comfortable, most luxurious interior you've ever seen—the latest in home design. There's a big living room, plenty of closet, drawer and shelf storage space. And the galley—it's out of this world. Lots of elbow room, fancy taps, deluxe 4-burner stove, oven and broiler, power fan, double sink, hot water, a spacious combination refrigerator. Wait till you see the bedroom—60" Airbase mattresses to give you rested sleep such as you've never enjoyed!

And a dream of a bathroom—big tub with shower, big wash basin, medicine cabinet, toilet—and like the bedroom, it all sits off from the rest of the trailer with specially-designed curtains.

The all-new Sovereign embodies all the genius of Airstream design, all the experience of building and road-testing travel trailers since 1932! Without a doubt, this is the line of trailers, the true "Sovereign of the Road." Wherever you go, you'll enjoy living in it—whenever you take it, you'll be the talk of the road.
