*the standard of excellence
in lightweight travel trailers*

The 22 foot Falcon is especially designed to sleep two. The trailering couple, young at heart, who require sleeping accommodations for themselves only will marvel at the flexibility of the decorator styled interior which actually provides more roominess, comfort and convenience than is found in any other 22 ft. trailer on the market today. In the spacious living room are twin beds, one of which flicks out and folds back into a wall with a minimum of effort. A hide-a-bed type, double bed model is available at slight extra cost. The oversize bathroom contains a toilet, large lavanette with drawers and even a bath tub and shower. An ultra-modern floor to ceiling chest of drawers complements the interior, providing much storage space. Everything that two people need for comfortable trailering is included and of course the famous Wally Byam developed off-the-road optional equipment is available to make your Falcon completely independent.
