

Minuets—our smallest, most compact the industry's biggest value.

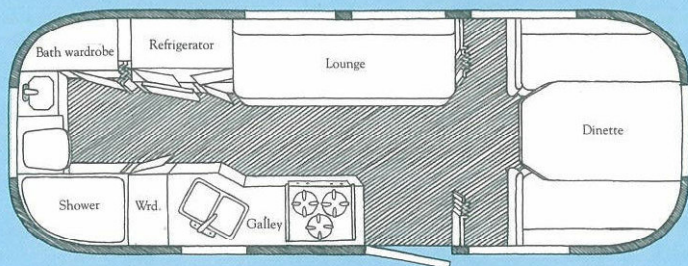

When you compare the Minuet in size and content to other small-sized trailers, you'll find that the others just can't measure up. Because Minuets were engineered by Airstream to hold more and weigh less. Not to mention their outstanding performance on the road.

Minuets sleep four adults comfortably, and each has a full kitchen including counter space. They provide a bath complete with shower. And to top it off, these extra lightweight beauties can be towed by intermediate sized cars like the Granada, Nova, or Volare.* Drive one today and drive away smiling.
