Remember that feeling of wanting to go somewhere, anywhere?
So do we.

You used to imagine all the wonderful things that lay farther down the road. It’s time to find out – behind the powerful wheel of American Tradition, a proud member of the elite American Coach family. Life’s greatest adventure is about to unfold at your feet.
American Tradition 42R shown in Toasted Almond décor with Regency Cherry wood cabinetry.

Home entertainment center includes Sony® 26” LCD TV and Sony® Dream Home Theater system.
Surrounded by your friends in the old tree-house, you'd dream big dreams and laugh together for hours. Nothing much has changed, except that today you've achieved your dreams. So now you can entertain your friends in more lavish style in your spectacular American Tradition. (You'll probably find you're going to make a lot of new friends, too.)

When you were little, you used to think big. Why stop now?
American Tradition is brimming with whiz-bang electronics. It has two complete stand-alone Sony® home theater systems, both with high-def LCD TVs and the best entertainment components.

You and your friends can enjoy it lounging on the comfy, custom-designed furniture. We know… the child inside you is jumping for joy.

Have the coolest toys on the block.
Even a peanut butter and jelly sandwich would taste gourmet here.

The sheer beauty of the galley makes any meal more memorable. Yet it’s also equipped with the finest appliances, Corian® countertops and magnificent hardwood cabinetry. If you’re a serious chef, it’s like being a kid in a candy store.
A nickel says we’ve got the smoothest ride.

With the engine running, we placed a nickel on end, on one of the frame rails of American Tradition. And the nickel didn’t fall over on its side — that’s how little vibration was created.

The secret is our exclusive Liberty Chassis that makes American Coach the best riding luxury coach.

The Liberty Chassis provides a strong, rigid frame that strengthens the integrity of the driving platform. Complemented by a high-performance diesel engine, it creates an extremely smooth driving experience. A nickel proves it.

Electro-Coated Structure protects against corrosion — in fact, it passed a rigorous 1,000-hour salt spray test.

All Steel Structure minimizes flex and contributes to a lower center of gravity that enhances the driving experience.
Laminated Storage Liners are made of a durable, fiberglass-reinforced plastic to stay clean and neat.

55-Degree Turning Angle allows you to turn more sharply.

Independent Front Suspension handles those uneven road surfaces smoothly.

Huge 15,000 lbs. Towing Capacity easily tows your favorite vehicle.

Automatic Traction Control (ATC) improves traction if the coach is on a slippery surface.

The Driver's Area surrounds you with a cockpit full of high-tech wizardry, including a Visteon® six-CD player and AM/FM radio, and an available Garmin® Navigation System.
After a busy morning, who could resist
the posh charms of the bedroom suite
for a decadent afternoon nap? Even if

A nap used to be required.
Here, it’s a reward.

you wait until the stars appear, you’ll
appreciate the high-def entertainment
center, heavenly mattress and extravagant
décor. For as long as you can keep your
eyes open, that is.
Soap up in style.

Start your day surrounded by every amenity, from the top-of-the-line showerhead to the porcelain sink. In fact, if you look up “luxury” in the dictionary, it should rightly show a picture of this bathroom.

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (CCC) cargo carrying capacity*.
2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
3. Base Weight is the estimated weight of the motor home without fuel, options, water, cargo or passengers.
4. GCWR (Gross Combined Weight Rating) is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to American Coach and chassis manufacturer’s manuals for complete information.
5. Length taken from front bumper to rear bumper (excludes accessories).
6. Excludes safety equipment and awnings.
7. Motor homes feature a body-width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
8. Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

*UVW and CCC are found on the cargo carrying capacity label in each RV.
† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependant on the weight of the towed load. Consult with hitch receiver manufacturer for further information.

IMPORTANT — PLEASE READ: Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.AmericanCoach.com or contact your local American Coach dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. American Coach has designed its recreational vehicles to provide a variety of uses for its customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e. occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle’s capacities are not exceeded.
