Driving Your Passion

Integrity. Reputation. Commitment. At American Coach, these are more than just words. They’re the principles upon which we build every motorcoach, every day.

We believe that every luxury motorcoach owner deserves an extraordinary journey, which is why the American Coach story begins long before you step inside or get behind the wheel. It begins with innovative engineering, cutting-edge construction techniques and a meticulous attention to detail. But a beautiful, distinctive design is only the beginning. Through our expert service team and dedicated nationwide dealer network, we’ve earned an unsurpassed level of customer loyalty.

We’re with you at every turn, every time, year after year. Your dreams are limitless, and so is our commitment to every American Coach owner. We’re more than a luxury motorcoach manufacturer. We’re a partner in the pursuit of your passion.

The 2015 American Tradition

In the 2015 American Tradition, your memories become your most cherished keepsakes. Plush furnishings, spacious surroundings, and name-brand appliances and electronics offer all the comforts of home. Luxurious flourishes stimulate your senses. Intimate elegance and subtle opulence embrace you and touch your soul.

**Notes:**

1. GVWR Gross Vehicle Weight Rating is the maximum permissible weight of the fully loaded vehicle. The GVWR is equal to or greater than the sum of the uVW unloaded vehicle weight plus the occupant cargo-carrying capacity.
2. GAWR Gross Axle Weight Rating is the maximum permissible loaded weight a specific axle is designed to carry.
3. GcWr Gross Combined Weight Rating is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to American Coach and chassis manufacturer's manuals for complete information.
4. Length measured from front bumper to rear bumper (excludes accessories).
5. Excludes safety equipment and awnings.
6. Motor homes feature a body width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.

**In/Not Applicable**

n/A = Not Applicable

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the towed vehicle. This is especially important when you are towing a vehicle that is heavier than the maximum tongue weight allowed in the tag axle GAWR. Consult with the chassis manufacturer for further information.

†† The minimum towable load of this vehicle is the available weight capacity, up to GcWr, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight capacity can be added to your towable load. For example, if your coach is loaded to 1,000 lbs less than maximum GVWR, your towable load increases accordingly. Do not exceed the hitch rating weight, GVWR or GcWr.

**Contact Us:**

To locate a dealer near you, visit our website at www.americanCoach.com or call 1-800-322-8216.

**Important — Please Read:**

Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and pricing, please visit our website at www.americanCoach.com or contact your local American Coach Dealer. Prices, materials, design and specifications are subject to change without notice. Please consult your American Coach Dealer for complete details and the proper combination of loads (i.e., occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle’s capacities are not exceeded.
