It's when two paths meet that the adventure truly begins.
Out on the road, the thrill of freedom runs through your veins. You eagerly anticipate the unfolding of each day. And nothing can make your spirit soar like American Eagle, the coach that takes luxury to its ultimate level.

Your romance with travel is about to heat up.
Proof that elegance and adventure are highly compatible.
Your journeys are even more unforgettable when you travel in high style. Opulent in every detail, American Eagle turns heads all along your trail. It’s understandable – after all, you’re the proud owner of many people’s wildest dreams.
Stoke your passion for life.
And satisfy your love of comfort.

American Eagle lets you follow your passions and pursue your hobbies, wherever they may lead. At the end of the day, you can come home to your own private Shangri-la where everything is just the way you like it.
From truffles to toast, everything’s a sensory delight.

In a sumptuous galley like this, all your senses are rewarded. Relish the smell of freshly brewing coffee. The sparkle from the glossy porcelain tile floor. The smooth feel of the stone-look countertops. And of course, the taste of your home-made cooking. But what wouldn't taste good in this incredible setting?
Smooth Operator.

Thanks to our exclusive Liberty Chassis, American Coach is the best riding luxury coach family, hands-down. In fact, we placed a nickel, on end, on one of the frame rails while the engine was running – and the nickel did not fall over on its side. That’s how little vibration was created. The secret is the strong, rigid frame that strengthens the integrity of the driving platform. Complemented by a high-performance diesel engine, it creates an extremely smooth driving experience. It’s been confirmed by President Jefferson himself.

Electro-Coated Structure protects against corrosion – in fact, it passed a rigorous 1,000-hour salt spray test.

All Steel Structure minimizes flex and contributes to a lower center of gravity that enhances the driving experience.
Huge 15,000 lbs. Towing Capacity

easily tows your favorite vehicle.

Automatic Traction Control (ATC)

improves traction if the coach is on a slippery surface.

Laminated Storage Liners

are made of a durable, fiberglass-reinforced plastic to stay clean and neat.

The Driver’s Area surrounds you with a cockpit full of high-tech wizardry including a Visteon® six-CD player and AM/FM radio, and a Garmin Navigation System is available.

55-Degree Turning Angle

allows you to turn more sharply.

Independent Front Suspension

handles those uneven road surfaces smoothly.
The stuff dreams are made of.
Think of the bedroom suite as your private hideaway, a nest feathered in luxury. Surrounded by sophisticated beauty and fabulous amenities, you'll look forward to spending eight hours here. Or more.

American Eagle 42V shown below in Spicy Nutmeg décor with Windsor Birch wood cabinetry.
The romance of a hotel bathroom.

The bathroom suite offers the decadent feel of a five-star hotel, from the high-gloss countertops to the etched glass shower. And you don’t have to check out at noon.

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the (UWW) unloaded vehicle weight plus the (CCC) cargo carrying capacity*.
2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
3. Base Weight is the estimated weight of the motor home without fuel, options, water, cargo or passengers.
4. GCWR (Gross Combined Weight Rating) is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to American Coach and chassis manufacturer’s manuals for complete information.
5. Length taken from front bumper to rear bumper (excludes accessories).
6. Excludes safety equipment and awnings.
7. Motor homes feature a body-width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
8. Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.
