ROOF CONSTRUCTION -R16

STEEL ROOF TRUSSES 16" ON CENTER, WITH A 5" CAVITY AND A 3" CROWN

FEATURE: Household construction with household fiberglass insulation.

BENEFIT: 16" centers and 1/2" decking allow for a walkable roof, while the insulation maximizes the AC efficiency.

BENEFIT: Lighter weight than wood trusses with no chance of wood rot. Also has efficient cooling, with no condensation buildup.

CARRIAGE "H-SEAL"

FEATURE: Two seals double the chance at sweeping away moisture and debris while sealing off the elements twice as much as our competitors.

BENEFIT: Two seals are better than one. Our seals are also made of a denser material that will seal tighter than the competition.

NORCO STEEL CHASSIS

FEATURE: Stamped chassis with punched outriggers.

BENEFIT: Using the latest aerospace technology we bring a chassis that is extremely durable yet lightweight. Isn't technology wonderful?

OPTIONAL HIGH PERFORMANCE WHEELS

FEATURE: GOODYEAR FORTERA 285/520 performance tires.

BENEFIT: 50% bigger tires provide better stopping, easier towing and less sway.

ENCLOSED LP TANKS WITH POWER LIFT

FEATURE: Power tank cover.

BENEFIT: Aerodynamic design for better fuel economy and better LP tank protection.

Domani Fifth Wheel (no paint) and Travel Trailer shown in optional full-body Silverstone paint.

TORFLEX RUBBER TORSION SUSPENSION AXLES

FEATURE: The wheel/hub spindle is attached to a lever, called the torsion arm, which is fastened to the rubber encased bar. As load is applied, the bar rotates causing a rolling/compressive resistance in the rubber cords. This action provides the same functions as conventional sprung axles with several operating advantages including independent suspension.

ALUMINUM STUDS WELDED ON 16" CENTERS

FEATURE: We design and build our walls to have a superior strength and durability. Every aluminum stud is welded on 16" centers.

BENEFIT: This construction technique provides improved support for interior overhead cabinets, reduces the damaging flex that may occur in walls built with studs randomly placed and minimizes the possibility of cracks in the sidewall material.

OWENS CORNING FIBERGLASS INSULATION

FEATURE: Spun fiberglass insulation is recognized as the premium insulating material in both the residential and RV industries.

BENEFIT: Fiberglass insulation traps dead air more efficiently than styrofoam insulation and breathes easier than styrofoam, increasing insulation capabilities.

CARRIAGE EXCLUSIVE WARRANTY. THE BEST WARRANTY AVAILABLE PERIOD.

FEATURE: 2yr/5yr Warranty. This is the best warranty in the RV industry.

BENEFIT: No exclusions for full timers. Unlike our competition, we want you to enjoy our coaches year-round.

SIDEWALL CONSTRUCTION - R-8

FLOOR CONSTRUCTION -R-16

MAIN FLOOR:

Mor/Ryde PIN BOX

FEATURE: Rubber equalizer built into the king pin.

BENEFIT: Eases the front-to-back chatter and "porpoise" motion typically found pulling a fifth wheel.

ELECTRIC TONGUE JACK (TT ONLY)

FEATURE: Electric tongue jack with level.

BENEFIT: Push button leveling and easy hook-up to your tow vehicle.

WE DIDN'T PATENT IT, WE PIONEERED 40 YEARS OF 80°+ DEGREE TURNING

FEATURE: Domani R-Value in front cap is R-16, unlike the competition we don't reduce the R value.

BENEFIT: Tight turns when necessary but without sacrificing insulation in the R-16 front cap
