By Coachmen

There's no time like now to get out there and live the dream. Leprechaun makes the experience a memorable reality with style and all the comforts of home built right in.

Automotive styling surrounds you in the cockpit of a Leprechaun, from the durable plastic molded headliner and multiple drink holders, to the ergonomic dash and luxurious two-tone captains chairs. Travel in comfort with power windows and locks, cruise control, power steering, dual side airbags and upgraded dash stereo system.

This multifunctional dash CD stereo features a built-in weatherband and is Sirius satellite radio ready. With the touch of a button the integrated backup monitor automatically flips out for a safer rear view.

The optional overhead entertainment center enhances the comforts of home with a 26" LCD television, DVD player, and Bose® Wave radio. There is even a pull-out bunk that provides plenty of room for a full size adult to relax. (Calypso Khaki decor and Lakeside Maple cabinetry shown)

† Estimated

\*Includes clearance for roof A/C

\*\*One sleeping position is eliminated w/optional front entertainment center

**GVWR (Gross Vehicle Weight Rating):**

The maximum permissible weight of the unit, including the UVW plus all fluids, cargo, optional equipment and accessories. For safety and product performance, do not exceed the GVWR.

**GAWR (Gross Axle Weight Rating):**

The total weight each front/rear axle, suspension and tire system is designed to carry. When loading the unit, care should be taken to balance cargo weight in consideration of the GAWRs.

**GCWR (Gross Combined Weight Rating):**

The maximum total weight of the loaded unit, plus a tow vehicle. This includes the weight of both the unit and tow vehicle, fuel for each, all other fluids, cargo, occupants, optional equipment and accessories.

**IMPORTANT NOTE:**

All capacities are approximate, and all dimensions are nominal. Coachmen motorhomes are designed to allow for a wide variety of uses, extended trips with two people or short trips with multiple people. Accordingly, each unit allows ample room for sleeping, seating, fluids and cargo. While the customer is the beneficiary of this design, the customer also bears the responsibility to select the proper combination of passengers, cargo, load, and tow vehicle without exceeding the chassis weight capabilities. Consumer may need additional breaking capacity to tow loads greater than 1000 lbs.

Seat belts should always be worn for passenger safety. Seat belts are provided at most locations to allow convenience in selecting which seat to occupy. However, it is not intended that all seating positions equipped with a seat belt may be occupied while the vehicle is in motion, without regard to other weight factors.

All Coachmen motorhomes are designed to ensure that the number of passengers allowed while the vehicle is in motion will always at least equal the stated sleeping capacity. Though extra seat belts may be provided, for your safety and the proper operation of your vehicle, limit your passengers to the number allowed by the Net Carrying Capacity of your vehicle.
