FLEETWOOD...TIMELESS QUALITY
FOR YOUR QUALITY TIMES

Fleetwood Folding Camping Trailers – Continuing the Legacy of Quality, Value, and Camping Fun.

REPUTATION

In **1967**, as families in large numbers discovered traveling with recreation vehicles, The Coleman Company began building folding camping trailers in scenic Somerset, Pennsylvania, in a state-of-the-art factory designed to produce the highest quality camping trailers available anywhere.

By **1979**, Coleman camping trailers, through innovative thinking, skillful engineering, meticulous manufacturing, and caring customer service from the Somerset facility, along with the industry's best dealer network, became North America's #1 selling brand...a position solidly maintained ever since.

In **1989**, Fleetwood Enterprises, the leader in the RV industry with its popular travel trailer and motor home brands, purchased Coleman Recreation Vehicles, Inc. to become a full-line manufacturer of top selling recreation vehicles of all sizes. With Fleetwood's dedicated focus on recreation vehicles and the reputation of the Somerset facility and people, our sales and market share leadership grew to new heights.

In **2003** Fleetwood ceased using the Coleman brand, instead letting the well-known Fleetwood brand represent the ongoing accomplishments of the Somerset facility and workforce. Our facility's average employee seniority is 17 years!

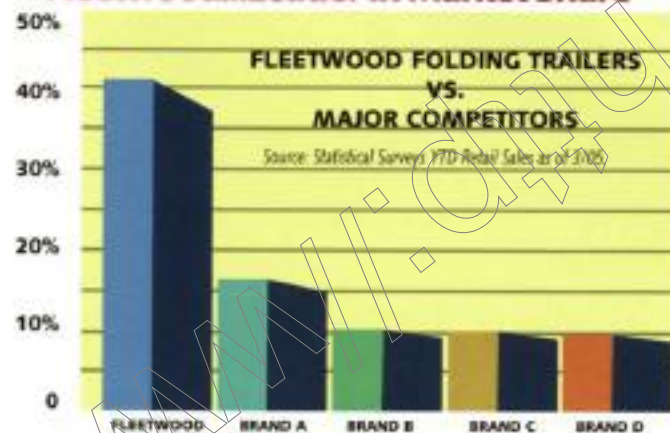

TODAY the Somerset facility, measuring a sprawling 11 acres under one roof, is capable of producing over 100 trailers a day, and continues to invest in cutting-edge technologies to augment the hundreds of dedicated and highly skilled craftspeople. We still sew our tents, engineer our lift systems, fabricate our frames, build our furniture, and focus on continued innovation, quality, value, and especially customer service – like no one else in our industry. We are very excited about our **2006** product lines, and are confident we have the folding camping trailer to suit your lifestyle. We also believe that an informed and satisfied customer is our best advertisement.

We hope you'll find this brochure informative, and that you'll agree...

Fleetwood is the best value and investment you'll find in a folding camping trailer.

Fleetwood...Leader in Market Share

Fleetwood...Leader in Innovation

- 1968 Camping Trailer Design Patent
- 1970 Camping Trailer Step and Door, Tent channels, Lift system Patents
- 1980 Camping Trailer Air Conditioner Mount Patent
- 1985 Camping Trailer Galley Patent
- 1987 Camping Trailer Tent Retainer Patent
- 1989 Camping Trailer Expandable Bed Patent
- 1993 Camping Trailer Mini-blinds Patent
- 1996 Camping Trailer Hydraulic Lift Patent
- 1999 Camping Trailer Cargo Deck, Slide Out Patents
- 2000 Camping Trailer Step and Storage Patent
- 2001 Camping Trailer Expandable Bed, Bed Support System Patents

Other Patents Applied For

Fleetwood has been recognized for other innovations including: Cassette Potti, Sunbrella tent material, Yakima roof rack, front storage compartment, electric brakes as standard equipment, folding bath walls and camping trailer commode with sewage system hook-up to name a few.

Fleetwood...Leader in Customer Satisfaction

Fleetwood's CSI (Customer Satisfaction Index) gathered each year by Fleetwood from actual customers is a "report card" for each manufacturing facility. Somerset, PA, sole manufacturing facility for Fleetwood Folding Trailers, has consistently won the top CSI award yearly since its inception in 1991, with an average CSI rating of 96%. During that period of time Fleetwood's Somerset facility has produced over 240,000 trailers! NO competitor has even come close!

Folding Trailers vs. Travel Trailers

Crank Up the Fun Without Paying At the Pump!

Looking for deluxe comforts and conveniences in an easy to own RV? Think you need a large travel trailer type RV to find these amenities? Think again! Fleetwood folding camping trailers offer comparable comforts and conveniences in an RV that is far easier to own than a travel trailer.

Facts You May Not Have Considered...

Many communities ban residential parking of large RVs, unless they are garage-able. Unlike travel trailers, many Fleetwood folding camping trailers are garage-able – likely saving you hundreds of dollars each year in storage fees, maintenance costs, and lost resale value.

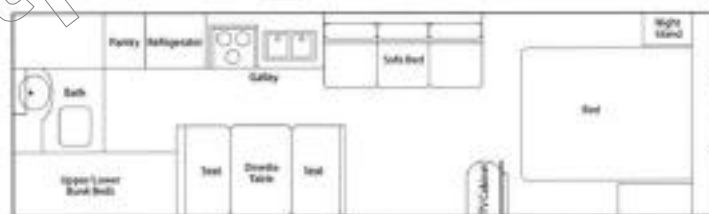

Travel trailers require larger tow vehicles with poor fuel efficiency – an expense you'll be paying even when not towing a trailer. Fleetwood folding camping trailers can be towed by smaller, more fuel efficient vehicles.

Large tow vehicle and travel trailer combinations can be difficult and time consuming to maneuver into many campsites – especially secluded or more natural sites. Fleetwood folding camping trailers are far easier to maneuver – that means less time spent setting up camp and more time taking it easy.

From large comfortable sleeping areas to private bathrooms and complete kitchens, from inside entertainment to outside cooking, chances are you'll find just what you're looking for in an easy to tow and fun-to-own Fleetwood folding camping trailer.

Compare Living Space...

CONSTRUCTION AND FEATURES – THE FLEETWOOD ADVANTAGE

Thoughtfully Designed...Carefully Engineered

No Matter Which Fleetwood You Choose...You Get The Same Rugged, Quality Construction

STANDARD ON ALL MODELS:

- Air Conditioner Prepped Roof (Installation Kits Required)
- Electric Brakes
- Four Crank-Down Stabilizer Jacks (Sand Pads Included on Slide-Out Models)
- Galvanized Steel Side Body Panels
- Tubular Steel Frame
- Heavy Duty Slipper Leaf Spring Suspension
- One-Piece Structurwood® Floor and Beds
- Full Perimeter Thick-Walled Aluminum Body and Bed Rails
- Posi-Lock Stainless Steel Lift System
- One-Piece Aluminum Framed Screen Door
- Positive Locking Safety Chains
- Sectionalized Sunbrella 302 Tenting – Including Window Flaps
- Spare Tire, Mount, Lug Wrench

- Clear Window Vinyl
- Vinyl Spare Tire Cover
- Vinyl LP Tank Cover
- 20lb LP Tank
- Power Converter with Charger
- 12V Electric Water Pump
- Exterior Patio Light
- Exterior 110V Outlet
- Lined Window Curtains
- Lined Bed Privacy Curtains
- Decorative Full-Perimeter Valance
- Bumper
- Exterior Hook Up For Outdoor Cooking
- 3-Way Operation Refrigerator

1 WINDOWS

- Clear vinyl windows allow more natural light inside on overcast days.
- Fine mesh screening keeps even the tiniest insects out.

2 FRONT & REAR PANELS

- Americana Series features front and rear TPO panels that are chip resistant and provide protection against stones, road debris or unexpected objects when backing up.
- Destiny & Highlander Series feature rigid panels with "Rock Guard" Diamond Plate on front panel.
- Panels can easily and inexpensively be replaced if damaged.

3 WALL CONSTRUCTION

- All models feature galvanized and painted steel body panels that are riveted to the trailer framework for flexibility and durability, and permit easy and inexpensive replacement if ever damaged.

4 LIFT SYSTEM

- Stainless steel lift posts will not corrode, or bind, and do not need to be protected from rain behind tent flaps.
- Posts are bolted directly to the trailer's frame, not screwed to the floor, and are designed to channel rain water harmlessly to the ground – not into the trailer.
- Lift system does not require you to monitor an over-crank warning cable – ours can not be overcranked, and our system doesn't require you to install additional support posts to support the weight of the trailer roof once it's up. Many competitors do.
- The crank mechanism features a "Posi-Lock," allowing the operator to stop and release the crank handle without fear of kick-back or free-fall.
- Our time tested lift system, in use for almost 40 years, doesn't rely upon "direct drive" components with plastic threads that only halfway engage the drive shaft, or unplated "flexible push rods" (springs actually) to raise the roof. Competitors do.
- Limited lifetime warranty.

5 FRONT STORAGE TRUNK

- Impact and water-resistant rotational molded front storage trunk (See cargo capacities on page 11).
- Easy access from top and side.
- Inside can be washed out and drained with a removable floor plug.
- No gimmicky sliding mechanisms or two-piece lids to add weight and complexity.

6 FRAME & SUSPENSION

- Full perimeter tubular steel frame offers greater strength and durability.
- Tongue (select models) and bumper are stone finish powder coat painted to prevent rusting.
- Trailer wiring is protected inside the frame members to prevent damage from stones and other road debris.
- Soft riding yet rugged automotive style steel leaf spring suspensions.
- E-Z Lube axles permit simplified maintenance.
- Five-bolt hubs and standard brakes provide peace of mind.
- Limited lifetime warranty (frame only).

7 ROOF

- All roofs feature durable aluminum exterior skins, folded along all four sides to provide greater side wall strength without additional seams. Competitor's brittle fiberglass skinned roofs require separate sidewalls and additional seams potentially prone to failure due to top latch forces.
- Destiny and Highlander roofs feature single seam construction - with approximately half the visible seaming of competitive roofs.
- Americana Series feature standard roof rack tracks, stylish impact resistant TPO end caps, and the same dependable roof technology of our Destiny and Highlander roofs.
- Limited 5 year warranty

8 STEPPER™ DOOR

- Exclusive Stepper Door with deadbolt lock on the Americana Series provides an extra-wide and sturdy entry step into the trailer.
- FlexTread™ "non-slip" step.
- The Stepper Door features a convenient, lockable storage compartment.
- Highlander & Destiny Series offer a self-storing slide-out step.

9 OUTDOOR COOKING

- Americana and Highlander models come standard with your choice of 2 burner stove OR RVQ grille.
- See page 9 for items and descriptions.
- Destiny models offer 2 burner stove or RVQ grille as an optional accessory.

10 SCREEN DOOR

- One-piece screen door requires no assembly and easily sets into place.
- It's self-contained in a single frame so the trailer does not need to be perfectly level for installation.
- The extra-wide door is a full 24 1/2 inches wide to allow easy access into the trailer.
- The door handle is located at waist-level for easy use without stooping or bending to reach.
- The automatic spring-loaded door return provides automatic closing.

11 GALLEY

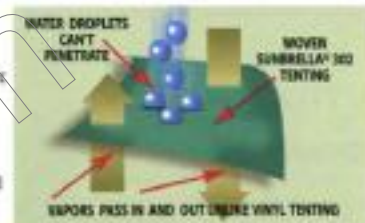

- The Swing-Level® (Americana Series) and Fold-Over (Destiny Series) galleys set up quickly and easily and provide plenty of upper and lower storage.
- Items don't need to be removed when traveling and the Swing-Level galley design provides a no-spill feature so items remain in place when positioning the galley.
- Highlander Series feature a fixed residential height galley for spacious storage and no set-up.

12 DINETTE TABLE

- All models offer a portable dinette table that can be used inside or out.
- Americana & Highlander Series provide a thermoformed moisture-resistant table top.

13 TENTING

- Sunbrella® 302 tenting is used exclusively on all models. Made of breathable woven acrylic material that's hypoallergenic and water resistant.
- Sunbrella 302 resists mildew, dry rot, fading, or cracking.
- Because of Sunbrella 302's special breathable design, moisture and odors escape while minimizing condensation - eliminating the need of a roof vent.
- Tenting meets or exceeds the Federal Government's FMVSS 302 code standards for flammability.
- Tenting is attached at bed ends to prevent mattresses from getting wet during set-up and take-down.
- Sectional design provides a less expensive way to replace damaged or torn tenting.
- Continuous, double-needle stitching and double lap fold seams prevent unraveling and provide strong water-tight seals from the very first time it gets wet.
- Limited 5-year warranty.

14 FLOOR & BED PLATFORM

- One-piece Weyerhaeuser Structurwood™ eliminates seams, warping, buckling and delaminating.
- 100% quality control provides consistent panels with no soft spots, knotholes or core voids.
- Our use of Structurwood™ is so dependable that Weyerhaeuser agrees with our practice of not coating the exposed bottom surfaces. (See page 11).
- Limited 25-year warranty.

15 BEDS

- Americana & Highlander Series offers exclusive BackSaver™ support system for easy set-up without bending or stooping (Destiny Series features self-storing bed supports).
- The beds glide out with minimal effort and feature full-perimeter aluminum frames to prevent warping and binding.
- Bed supports are easy to position and are self-storing so they can't be misplaced.
- All beds tested to 1,100 lbs. capacity.

Metal Seat Frames provide stronger support and lasting durability on Americana and Highlander Series.

Exclusive Self-storing Dolly Jack & Safety Lock Chains

Dolly jack features a permanently attached wheel and will not interfere with tow vehicle's tailgate or rear mounted spare tire. (Highlander Series features center mount jack.) Safety lock chains provide a positive locking connection between the trailer and tow vehicle.

HIGHLANDER SERIES

SEQUOIA | NIAGARA *Featured Model: NIAGARA*

ULTIMATE OUTDOOR COMFORT

The Highlander Series sets the standard in folding trailer comfort and convenience. Full-featured like a travel trailer but lightweight and easy to tow like a folding trailer.

| Convertible Dinette/Bed Size | 43"x71" |
| Water Storage Capacity (*Incl. Std. 6 gal water heater cap) | 26 Gal.* |
| Main Water Tank Location (not including water heater) | Under Floor |
| Converter/Charger (Amperage) | 25 |

¹ Does not include temporary storage space in open areas of each floor plan.

- GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this trailer when fully loaded. It includes all weight at the trailer axle(s) and tongue or pin.
- All dry weights are based on the standard model and do not include optional features or equipment.
- Maximum Carrying Capacity is determined by subtracting Gross Dry Weight from the GVWR. The Maximum Carry Capacity does NOT include the weight of fresh water, propane, or water in the water heater.
- Trailer open width includes slide-out step and/or slide-out.
- Water weight equals 8.3 lbs per gallon. LP Gas weight equals 4.2 lbs. per gallon.
- Hitch weights are dependent upon how the trailer is equipped with options, on board cargo and tank fluid levels. Actual hitch weights may be higher or lower than shown. It is recommended that the tow vehicle and hitch for your trailer have sufficient capacity to Accommodate actual usage.
- Some accessories and options may be dealer installed.
- Installed option weights will decrease the cargo carrying capacity. Consult Owner's Manual for accessory weights.
- Storage trunk models equipped with hot water have reduced cargo capacity because of hot water heater location.
- Refrigerator, furnace, cassette toilet, hot water and outside shower are factory installed options.

¹ Does not include temporary storage space in open areas of each floor plan.

- GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this trailer when fully loaded. It includes all weight at the trailer axle(s) and tongue or pin.
- All dry weights are based on the standard model and do not include optional features or equipment.
- Maximum Carrying Capacity is determined by subtracting Gross Dry Weight from the GVWR. The Maximum Carry Capacity does NOT include the weight of fresh water, propane, or water in the water heater.
- Trailer open width includes slide-out step and/or slide-out.
- Water weight equals 8.3 lbs. per gallon. LP Gas weight equals 4.2 lbs. per gallon.
- Hitch weights are dependent upon how the trailer is equipped with options, on board cargo and tank fluid levels. Actual hitch weights may be higher or lower than shown. It is recommended that the tow vehicle and hitch for your trailer have sufficient capacity to accommodate actual usage.
- Some accessories and options may be dealer installed.
- Installed option weights will decrease the cargo carrying capacity. Consult Owner's Manual for accessory weights.
- Storage trunk models equipped with hot water have reduced cargo capacity because of hot water heater location.
- Refrigerator, furnace, cassette toilet, hot water and outside shower are factory installed options.

"Weyerhaeuser agrees with Fleetwood's practice of not coating the exposed bottom surface of the Structurwood panels used in their trailers. In our opinion, moisture from occupancy load, or from other internal or external sources may become trapped in the Structurwood substrate if it is coated on the underside with a system that impairs the ability of the substrate to dry thoroughly. Trapped moisture, over time may cause premature decay or rot." Weyerhaeuser

What Drives You?

Maybe it's feeling like you're the only one on Earth. Perhaps it's the unique sense of closeness with the great outdoors. Or, it might be the joy that comes from spending quality time with family and friends. Whatever the reason, we know that you have a strong drive to experience everything that comes with spending time on the road. And for more than 50 years, we've shared that passion with you. Because we're RV enthusiasts ourselves, you can see our passion in the vehicles we design and build. Own a Fleetwood, and you'll feel like you're not just traveling, but embarking on an experience unlike any other. Set your own course for adventure and get out there and explore the world around you. Once you do, you'll see what it is that drives us - it's you.
