

NITRO CIRCUS APPROVED

Nitro Circus is an "action sport collective" conceived by Travis Pastrana. If you follow motocross or extreme sports, you may have been amazed by Travis and the crew. They have been featured on TV shows, on tour and in an upcoming 3D film.

Our toy hauler has been with Nitro Circus for skydiving, base jumping, rally car racing and the X Games. Travis and gang know they can haul more gear and toys, even with a 3/4 ton pickup truck. You can follow them at nitrocircus.com

MADE WITH AN ATTITUDE

Our New Generation Vehicles are built with an attitude of doing things differently. Every other RV company says and does pretty much the same thing. Those guys are boring. We're here to change everything—for the better!

So what's NGV? It's seeing beyond the status quo and designing and building a new generation of user-friendly products for a new generation of RVers. We know that there is a need for a fresher product for the retail market. You don't want your Grandpa's RV. You want what we're offering—NGV by CrossRoads.
