The Royal Fifth Wheel – the Ultimate Dutchmen Trailer

Dutchmen Royal fifth wheels are now available with power slide-outs for more interior room than you thought possible. Shown here is the 30' model with a 14' slide-out.

With the same basic construction as the Classic, the Royal has a wood frame with mesa-aluminum skin, and a one-piece aluminum roof with foil Thermo-Board underlayment. But the Royal exterior has radius corners, and aerodynamically-efficient fiberglass front and rear caps. The Royal is framed and wired for a second roof air, has black jalousie windows, and solid oak framed cabinet doors.
