

FOUR WINDS

FOUR WINDS LS

With all of the quality and value that have made

Four Winds travel trailers and fifth wheels such a favorite with RVers, the LS carries Four Winds excellence to a new level. Thermo-compression fully-laminated gloss fiberglass sidewalls and end caps make the LS strong, durable and easy to maintain, while aluminum framing gives even more strength without adding excess weight. And the LS's beautiful exterior is enhanced even further by its smooth-finished entry door and matching white window frames and trim. Of course, the LS is loaded with the standard features that make Four Winds RV's such great value.

Whether a one bedroom or a bunk-house model — Four Winds IS has it all in a variety of floor plans.

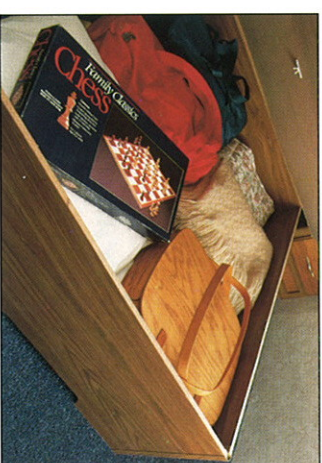

With rich luxurious fabrics and attractive paneling, a Four Winds IS has the feel of home in a surprisingly affordable trailer.

Inside a Four Winds IS you'll find spacious, well-planned floorplans with the features you want most, including double-door refrigerator, large microwave oven, 3-burner range with a high-output burner and oven, and awning — all standard.

YOUR LOCAL DEALER

Innovative ideas throughout the Four Winds IS including a vented dinette and bed base...

Plenty of interior storage for all your camping needs.
