best price-leading camper EVER  
to hit the market.

# Flipper

Some manufacturers have taken their 8' units and removed items to lower the cost. Others have lowered their quality to save dollars. We have taken a totally different and radical approach. Utilizing superior engineering, the Flipper's dramatic cost savings are accomplished through its design and simplicity rather than cheapening the product. What this gives you is a truly stand alone product that perfectly accompanies the 810D and the 17B. This small fact is just a bonus.

### What the Flipper will allow you to accomplish is this:

You will be able to deliver a quality product with a numerous amount of options to your customers and make a better gross.  
You will have the lowest priced entry level camping trailer on the market.
