Bedroom Slides now available in Adirondack Lite-Weight Trailers.

Adirondack is the first to offer bedroom slides in Lite-Weight travel trailers.
Vehicle loading – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle. Net carrying capacity (NCC) is determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximations only.

Warning – This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing and towing instructions.

**Axle weight, UVW and Dry Hitch Weight** are base weights of units without options. Each unit includes a weight label which lists specific weight information for that unit.
