

2006 GRAND JUNCTION

Distinctive Style. First Class Elegance. Unsurpassed Value.

HIGH PROFILE FIFTH WHEELS

GRAND JUNCTION PREMIUM CONSTRUCTION

Grand Junction - Distinctive Style, First Class Elegance, Unsurpassed Value.

Step into Grand Junction and experience the ultimate in sophistication, luxury and value.

You will be inspired by the beauty of Grand Junction. The premium residential decor with K.C.M.A. approved hardwood cabinets, solid surface countertops, chenille and micro-fiber fabrics, and residential furnishings embody the graceful beauty of Grand Junction.

Grand Junction's interior ergonomics optimize space and maximize livability. Featuring multiple slides, spacious galleys, enormous countertops, massive master bedroom suites and bathrooms, and the largest living areas in its class. Grand Junction delivers the ultimate in features and function.

Plus, Grand Junction is the only fifth wheel in its class to include both the *Mor/ryde* rubber vibration-absorption suspension and

rubber cushioned fifth wheel hitch systems. These premium travel-enhancing features work in unison to create the smoothest ride and handling possible in fifth wheels, and protect your investment from potential damage caused by hazards of the road.

For the best RV value and the ultimate in style, features and function; choose Grand Junction, *the new standard in luxury recreational vehicles.*

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in Canada. Vehicles are designed for recreational use only and not intended for use as a primary residence.

Vehicle loading - Every effort has been made to provide the greatest number of options for the recreational vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices that they remain within the manufacturers specified chassis weight limits. Do not overload the recreational vehicle. Dry weights based on standard features - Some optional equipment included in base weights. Net carrying capacity (NCC) is determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximates only. Warning - This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing and towing instructions.

See Web Site for Weights, Dimensions and Decor Choices.
