Vehicle loading - Every effort has been made to provide the greatest number of options for the recreational vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreational vehicle. **Dry weights** based on standard features - Some optional equipment not included. Net carrying capacity (NCC) is determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximations only. **Warning** - This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing and towing instructions. *Fresh water capacities include capacity of water heater.
 Product information and specifications in this brochure were as accurate as possible at time of printing. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features shown are optional and may be different or unavailable in Canada. Vehicles are designed for recreational use only and not intended for use as a primary residence.
