• Distinctive Style • First Class Elegance • Unsurpassed Value
Step into Grand Junction and experience the ultimate in sophistication and luxury, featuring solid hardwood cabinet doors and frames, solid surface countertops and residential furnishings. Grand Junction is the new standard in style, features and function.
Luxurious slide rooms are a staple of the Grand Junction product line. The stained hardwood slide room fascia is trimmed with dental and crown molding. The oversized windows are adorned with day/night shades and designer coordinated valances. Grand Junction features residential style furnishings with a free standing dinette and four stylish chairs. Little touches like the designer lighting and overhead cabinets with glass inserts add to the beauty of the Grand Junction interior.
Kitchens with incomparable design.

Gourmet galleys with premium appliances, cavernous countertop and storage space sets Grand Junction in a class by itself. With one piece solid surface countertops, the galley has been painstakingly designed to provide superior ergonomics for the family chef. The massive countertop space gives you the room necessary to prepare multiple dishes for the entire family.
Grand Junction is available in two wood colors oak & Cherry.

Solid Hardwood Throughout

All Grand Junction models feature solid hardwood doors and cabinet stiles (frames)*.

*See Competitive Advantages for details.
Kitchen & Dining

Above - solid surface countertops, water filter and sprayer faucet.

(Right) - 22" sealed burner range with cover. Overhead microwave with convection element and exterior exhaust.

Grand Junction's galleys include many premium features as standard equipment. Premium lighting package that includes recessed halogen lamps, florescent light in galley and pendant lighting in the living area. An 8 cubic foot double door refrigerator with raised panel door inserts, a sliding kitchen pantry with travel lock, solid surface countertops, residential faucet with pull-out sprayer, water filter, convection microwave and a 22" oven with sealed burner range make Grand Junction your best value.
Luxurious Bedroom Suites

Grand Junction's magnificent master bedroom suite was meticulously designed for comfort and versatility. The bedroom features a designer ensemble including a standard pillow top mattress, quilted bedspread with matching pillow shams and curtains. Reading lights above the raised panel hardwood headboard and the solid wood fascia add to the splendor of the bedroom set. The storage below the lift-up bed is perfect for blankets, sheets and spare pillows while the large front wall closet and shirt ward hold plenty of clothing.

Grand Junction’s master bed storage ensemble that includes mirrored closet, washer dryer prep (with closet rod) cabinet, plentiful drawer space and numerous folding options. Finally, the bed base is fully accessible for the largest storage capacity in its class.
Refreshing Spacious Bathrooms

Grand Junction's bathroom is designed for comfort and versatility. The bathroom features a 36" wide one-piece fiberglass neo-angle shower with an integrated seat. A glass shower door and a brushed nickel hand held showerhead are also included. The standard skylight above the shower increases headroom and lets in natural daylight to brighten your day. The porcelain toilet with foot flush lever is standard in Grand Junction.

Side aside bath shown

one piece fiberglass is superior to the competition's 2 piece ABS plastic shower enclosures. The brushed nickel hardware and shower head add that special design touch. The Neo-Angle skylight fills the room with natural light.
Exterior Innovations

Grand Junction features an easily accessible utility center with tank valve controls, fresh water fill, black tank rinse nozzle, hot and cold water exterior wash station, cable/phone jack, satellite prep and utility light. Also included in every Grand Junction are rear electric stabilizing jacks that require a simple push of a button to provide stability and minimize rocking. No more hand cranking like our competitors.

All these items fit in Grand Junctions under body “MaxxGarage”

MAXXGarage

Storage has never been so plentiful - Grand Junction’s MAXXGarage storage system provides up to an amazing 125 cubic feet of storage below the body (based on model). Grand Junction’s drop-frame stacked rail chassis design creates one of the largest storage spaces available in fifth wheels.
**MOR/Ryde Suspension System**

Grand Junction is the first fifth wheel in the industry to include the MOR/Ryde Equalizer Suspension System and Rubber Shear-Spring Pin Box as standard features. Both systems work in unison to create the smoothest ride possible in a fifth wheel.

The MOR/Ryde system will lower the spring rate providing for almost double the axle travel of traditional systems. Increased axle travel translates into a smoother ride which protects your RV from jarring caused by rough roads.

The MOR/Ryde Rubber Shear-Spring Pin Box incorporates a rubber shear spring that works both longitudinally and laterally to diminish the back and forth ‘chucking’ motion that occurs between the tow vehicle and RV. This means a more comfortable ride for the driver and passengers. Plus, it reduces stress on the fifth wheel frame and helps prevent damage that can occur from rough towing.

**The Competition**

Most competitors still use a steel pivoting equalizer and standard pin box which does not provide the level of shock absorption and damage protection of the MOR/Ryde system.

Protect your investment and enjoy the ride to your destination the with MOR/Ryde system.

---

**R14, 5-Layer Roof Construction**

EPDM one-piece rubber roof with 12 year manufacturer warranty
3/8” decking, 4’x8’ sheets
Optional Poly Air bubble/foil insulation sheet option (increases roof value to R21) (optional)
5” Arched aluminum roof rafters, 16” on center
Aluminum foil-wrapped foam air conditioning ducts - foil taped at seams
R14 Fiberglass insulation
1/8” Luan wood ceiling liner
Soft touch vinyl ceiling liner

**Premium Vacuum-Bonded Laminated Wall Construction**

High gloss “Gelcoat” exterior finish
1/4” wood substrate
80% Dark tint, safety glass windows
Tubular aluminum, welded box frame structure
Polystyrene “block foam” insulation
Vinyl-wrapped 1/8” Luan decorative wallboard

---

**Laminated Floor Construction**

Premium residential carpet
1/2” Rebond carpet padding
Residential vinyl flooring in galley
5/8” One-piece Structurewood floor
Aluminum heat ducts - seams foil taped
Polystyrene block foam insulation
1 1/2” x 1 1/2” Welded Aluminum box framed infrastructure
1/4” Luan backer board
Poly-flex 2000 vinyl vapor barrier

---

**Heated/Enclosed & Insulated Underbelly**

I-Beam chassis
Reflective aluminum bubble wrap insulation
1/4” Luan backer
Poly-flex 2000 exterior vapor barrier

Plus, heated and enclosed underbelly is standard!
Competitive Advantages

Grand Junction's Stacked Rail Chassis Design

Grand Junction prides itself on having the best storage system possible in fifth wheels. That's why we use a stacked rail chassis design. This chassis design uses double I-beam frame rails to increase the amount of storage space under the bath/bedroom deck. Many models feature an amazing 125 cubic feet of storage - almost 60% more than the competition!

Plus the design of the frame includes a wide stance front jack system. The jacks are placed almost 9” further apart than the competition which increases stability and prevents unwanted body movement when parked.

The Competition

The competition still uses the traditional straight rail fifth wheel chassis that restricts storage space. Their jacks are mounted closer to the center of the chassis making it less stable.

Solid Hardwood Doors & Cabinets

Grand Junction features solid ash, cabinet stiles/frame, hardwood cabinet doors, drawers and slide room fascias. The wood is stained to match the solid hardwood cabinet stiles. Many competitors use less expensive, vinyl wrapped MDF fiberboard or lumbercore stiles and slide room fascias. Additionally, many add veneer inserts to their doors and vinyl wrap their stiles to reduce cost.

Hardwood doors, stiles and fascias will retain their factory new appearance for years. The competition's less expensive construction may swell and delaminate over time.

Grand Junction - which would you rather own, real or made to look real?

Entry Steps

Grand Junction's entry steps are a full 10" deep and include two anti-slip strips per step. Plus the corners are rounded for added security. Most competitors use only 8" deep, square corner steps. Your safety is important to Grand Junction.

Grand Junction - designed for safety.

6'7" Bedroom Height at Front Cabinet

More space in the bedroom includes more headroom too! Grand Junction’s front wall and roof line allows for added headroom in the bedroom - a full 6' 7" tall at the front storage cabinet!

Most competitors' headroom decreases from the center of the bedroom to the front wall. Some are as low as 5' 8" tall.

Grand Junction - more storage, more height, more comfort

Soft Touch Ceiling Liner

Attention to detail makes all the difference when you are choosing your next recreational vehicle. On top of all of the other features that make Grand Junction special, we have even looked at ways to improve the ceiling liner.

Grand Junction includes a soft-touch ceiling liner. Usually only found in high end motor homes, Grand Junction includes this feature as a standard item.

The soft-touch ceiling liner is stylish vinyl layer that is laminated to 1/2” foam and a 1/8” wood backer. The ceiling liner has a great look, plus it reduces sound levels and adds another layer of insulation to your fifth wheel.

The competition uses a white panel board with nailed batten strips at the seams - every 4’. Ceiling paneling make work loose over time and does not provide the look or insulation value Grand Junction's soft touch ceiling provides.

Grand Junction - you can see, feel and hear the difference!

Steel Ball Bearing Drawer Glides

Grand Junction's stainless steel ball bearing drawer hardware is designed for years of rigorous use. The drawer glides are designed to open easily under a full load and include a drawer stop feature to prevent drawers from opening during travel. The hardware is mounted on the sides of the drawers and is screwed to solid wood drawer sides.

Many competitors use single plastic or combination plastic and metal drawer glides mounted on the bottom of the drawer. Check out the competitions drawer sides. - Are they real wood?

Grand Junction - premium quality features.
Heating: Grand Junction will keep you warm on those chilly evenings with a standard 40,000 BTU forced air furnace. Most competitors only offer a 35,000 BTU furnace.

Cooling: Grand Junction features a standard 15,000 BTU roof air conditioner with a quick cool feature. It's easy to use and cools your RV more efficiently than the competitors 13,500 BTU roof air.

**Grand Junction - warmer, cooler - better!**

### Sealed Burner Oven & Half-Time Convection Microwave

Grand Junction is designed for enhanced livability by providing you the industry's most advanced products as standard features.

Our 22" Amana range is larger than most competitors' 19" range, plus the three burner cook top features a sealed burner with wire pan rack and range cover. It's large enough to cook the family meal and it's easy to clean.

Grand Junction also features a Half-Time convection microwave. The Half-Time oven operates like a standard microwave or convection oven. Both features can be used together to greatly reduce cooking times. More importantly the convection/microwave is a residential style 'over the range' appliance with integrated exhaust fan that is vented to the exterior.

### The Competition

Many competitors use a 19" oven with open burner cook top. These conventional cook tops have openings that allows food and crumbs to fall between the top and oven. They are difficult to clean. Plus, the competition uses a 1 cubic foot microwave that is built into the overhead cabinets and requires separate exhaust fan which robs your galley of usable space and lifts the appliance to a height that is uncomfortable and dangerous for most users. This construction method reduces overhead storage.

### Solid Surface Residential Countertops

Nothing says class and elegance in a kitchen like solid surface countertops. Grand Junction's solid surface countertops are the ultimate in style and function. Each countertop is 1/2" thick and is hand made to fit your vehicle to assure many years of durable use and classic beauty.

Many of our competitors are using laminate countertops that are glued to 1/4" particle board backers or a fiberglass base with 1/16" of sprayed acrylic. Try running your fingers along the edge, be careful!

Which type of countertop would you rather have?

### Large Fresh Water & Waste Water Tanks

Anyone who has owned RV's in the past knows that large tank sizes are critical. That's why Grand Junction uses a 98 gallon fresh water tank, 42 gallon black water tank and dual 48 gallon grey water tanks - some models even feature a third 48 gallon grey water tank! Add Grand Junction's standard 12 gallon hot water heater to the equation and you will find that the Grand Junction has one of the largest water storage systems available in the market today. (See model information for specific tanks sizes)

40% more Fresh Water capacity - 20% more Black Water capacity and 20% more Grey Water Capacity - The Grand Junction Advantage

### Premium Residential Lighting

Grand Junction features premium residential lighting as a standard feature. From the brushed nickel dual pendant dinette light to the standard reading lamps and fluorescent lighting in the galley, Grand Junction provides the stylish lighting you need after dark. Plus, Grand Junction features the all new "Puck Style" recessed halogen lights. This new innovation spreads even amounts of natural day-light style lighting throughout your coach. You will love the glow these lights provide.

Don't settle for the competition's old fashioned pancake lights!

---

**Grand Junction Decors**

- Barcelona Rust
- Fresco Chocolate
- Midnight Sun*
- Vintage Moss

All decors are available with Mesa Oak or Canyon Cherry wood colors.

*Available Fall of 2006

After Sept. 2006 see website for the most current decor options.
