Travel Trailers & Fifth Wheels

*Where will Four Winds take you?*

# Four Winds

From one ocean to another, North America's abundant natural resources offer travelers a world of wonders. Explore our land from the Louisiana bayou to Arizona's desert. Pass through the central Canadian prairies and westward to the Rocky Mountains.

Customers looking for innovative products that are loaded with standard equipment and unique features choose Four Winds. Our products offer more value for your dollar than any other recreational vehicle. Plus, Four Winds' attention to detail in design and construction is why our customers return when it is time for their next recreational vehicle. Take a closer look. We know you'll agree that Four Winds is your best vacation value.

## Four Winds Comfort Package

Enhance your camping experience with the Four Winds Comfort Package. Available on all Four Winds floorplans, the Comfort Package bundles popular options in one affordable package.

## Small Slide and Non-Slide Travel Trailers for Half-Ton Trucks

Aerodynamic and easy to tow, Four Winds Express Lite features non-slide and small slide floorplans ranging from 18' to 31'. Base weights start at 4,200 pounds! Unlike the competitions stripped-down models, Four Winds Express Lite is loaded with all the standard features and equipment you will find in the rest of the Four Winds product line. With many great floorplans available in a variety of sizes to meet your family's needs, Four Winds Express Lite is your best choice for affordable lightweight and easy to tow travel trailers.

## Fiberglass Sidewall Package

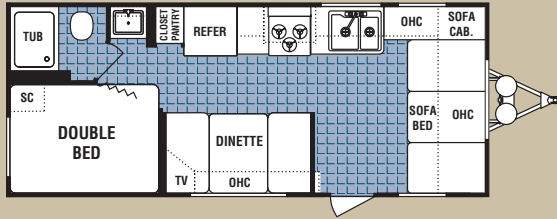

A new fiberglass sidewall upgrade package is now available on all Four Winds travel trailers and fifth wheels.

The fiberglass package option enhances the appearance of the trailer and protects it from hazards of the road. The option replaces the standard corrugated aluminum exterior siding.

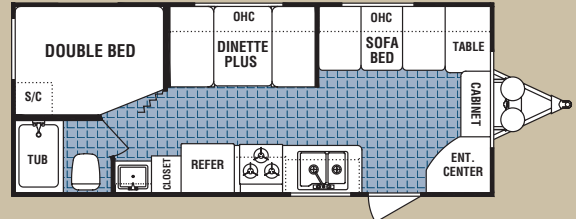

The new package creates a durable fiberglass sidewall option on entry-level price point units, offering a cost effective alternative to aluminum-framed, laminated sidewall products.

\*See vehicle owner's manual for towing capacity

Vehicle loading - Every effort has been made to provide the greatest number of options for the recreational vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreational vehicle. Dry weight is the weight of the unit with standard run features. Some optional equipment not included. Net carrying capacity (NCC) is determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximations only. Warning - This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing and towing instructions.

## Large Slide Travel Trailers

Shown with standard aluminum exterior

Four Winds large slide travel trailers are your best choice for features, value and luxury.

Built with pride, Four Winds travel trailers are loaded with features and amenities that make your time on the road as enjoyable as your time at home. All Four Winds large slide travel trailers feature large, flush floor slide rooms and are available in floorplans ranging from 28 to 39 feet.

## Comfortable Sleeping Areas

The sleeping spaces in your next travel trailer or fifth wheel are as important as the living area. That's why Four Winds offers multiple bedroom configurations with comfortable appointments and plenty of storage space for those extended vacations away from home. Whether you are looking for a bunk house, king bedroom slide suite or queen bed, Four Winds has the floorplan that's right for you.

\*Look for our King Bed Slide Suite on several Four Winds floorplans!

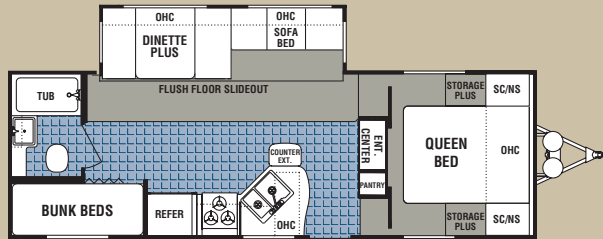

## More headroom, increased storage and more living space - A FOUR WINDS ADVANTAGE!

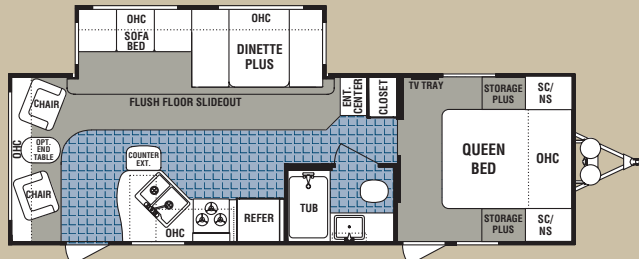

Four Winds Large Slide Travel Trailers (DSL models) feature an impressive 82" interior height! The added four inches of headroom makes Four Winds one of the most spacious units in the industry.

Plus, our slide rooms are a full 6' tall! That is 4" taller than most competitors.
