Kodiak, the leading innovator in ultra-lite RV technology, and Therm-a-Rest®, inventor of the self-inflating camping mattress and manufacturer of premium outdoor equipment, have teamed up to develop the innovative new FastAsleep “Auto-pop” tent. Kodiak chose Therm-a-Rest® to design this ground-breaking product because of the company’s 30-plus years of experience enhancing the comfort of outdoor enthusiasts. The result is an RV tent that features easier setup, more livable comfort, and greater protection than anything that’s come before.

**Key-Locking Bunk End Doors**

Key-locking “Easy Latch” tent doors eliminate the use of unsecured, crank-style door hardware. Simply unlock the tent door, push the release button, open the cam arm and drop the door into the open position.

**Self-Supporting Bunk Ends**

Kodiak Expandable’s revolutionary bunk ends are self-supporting, suspending the 60” x 80” queen bed from the wall of the trailer. Kodiak does not require exterior tent poles to support the bunk ends. Plus, each bed has a 1200 lb. capacity, the highest in the industry!

**E. Aluminum Rims**
Upgrade your Kodiak Expandable with 5-spoke aluminum rims.

**SMART RV**
Thule, the industry leader in cargo management systems for cars and trucks, has partnered with Kodiak to create the Smart RV System. This patented system allows Kodiak owners to create a functional outdoor living area that’s easy to set up and enjoy. The Smart RV system uses a number of factory-installed anchor pods mounted on the exterior of the trailer. Did you know that every Kodiak is weighed at the factory as it leaves the production line? Our certified weight includes options! Most competitors publish only a base weight that does not include options. Make sure that you know what the “real” weight of the unit is before you buy your next ultra-lite trailer.

Kodiak Expandables feature aluminum-framed dinette, bed, bunks and pass-through storage frames. Aluminum frames are more durable than wood-framed structures and save weight.
