

SUPER-LITE TRAVEL TRAILERS

# TUNDRA<sup>®</sup>

Never Stop Exploring

Designed to be towed by most half-ton trucks, Tundra is the new standard in "Super-Lite" recreational vehicle technology. Our "Super-Lite" construction starts with a six-way welded aluminum framed superstructure. The walls, roof, and floor are insulated with high density foam and are laminated to the superstructure. This "Super-Lite" construction process is designed to maximize living space and storage without adding the weight you will find in most recreational vehicles.

But, there is more to Tundra than its Super-Lite construction. Tundra's interiors are as impressive as its revolutionary design. Tundra features unique floorplans with large living areas, kitchens, baths and bedrooms. Stunning high-end designer décors, residential-style furnishings, and brand name appliances are a few of the many features that define Tundra. Compare our features to the competition and we are sure you will agree that Tundra is your best value when it comes to "Super-Lite" travel trailers.

Never Stop Exploring

Sizable bedrooms with queen beds and generous storage areas are staples of the Tundra product line. Plus, a designer headboard with bedspread, pillows and matching valances are standard!

Tundra floorplans feature spacious galleys with ample countertop and storage space. A large double door refrigerator, oven with cooktop, large microwave oven and a range hood with light and fan are standard features on all Tundra models. Plus, many floorplans include a storage pantry and an oversized pots and pans drawer.

### SMART RV

Thule, the industry leader in cargo management systems for cars and trucks, has partnered with Tundra to create the Smart RV System. This patented system allows Tundra owners to create a functional outdoor living area that's easy to set up and enjoy. The Smart RV system uses a number of factory-installed anchor pods mounted on the exterior of the trailer. The accessories mount to the pods in seconds using Thule's innovative quick-release latch system.

Vehicle loading – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreational vehicle. Net carrying capacity (NCC) is determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximations only. Warning – This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing and towing instructions.

\*Axle weight, UVW and Dry Hitch Weight are base weights of units without options. Each unit includes a weight label which lists specific weight information for that unit.

# Tundra's SUPER-LITE CONSTRUCTION means larger floorplans that weigh 1000-1500 lbs. less than traditionally built RV's!

**Did you know** that every Tundra is weighed at the factory as it leaves the production line? Our certified weight includes options!

Most competitors publish only a base weight that does not include options. Make sure that you know what the "real" weight of the unit is before you buy your next ultra-lite trailer.

## CHASSIS

Durable, lightweight *Power-V* chassis

1. Folding entry step
2. Ultra-lube hubs. Grease Zerk makes wheel bearings easy to lube. Extends life of bearings
3. Rubber torsion "independent suspension" axles - the smoothest ride in the industry!
4. All tanks mounted in frame. Lowers the center of gravity, and saves valuable interior storage space
5. 46 Gallon fresh water tank. Tank design prevents water from standing in tanks during storage. One of the largest fresh water tanks in the industry!
6. Enclosed underbelly protects tanks and floor from the hazards of the road
7. *Power-V* lightweight chassis with durable powder-coat over E-coat paint finish
8. Twin 30 lb. LP tanks with ABS cover
9. Integrated heavy duty safety chains

## LAMINATED WALLS

5-Ply construction. Fully laminated, aluminum-framed construction.

10. Tubular aluminum welded frame reinforced around door
11. Dark tint, safety glass, radius corner windows
12. Insulated baggage doors with key locks and finger pulls
13. ABS fender skirts
14. Decorative wall board
15. Luan wood backer
16. High density structural foam insulation
17. Luan wood backer
18. Smooth fiberglass with premium graphics package
19. Pass-through storage compartment (where available)
20. Aerodynamic front profile

## LAMINATED ROOF

5-Ply construction. Fully laminated, aluminum-framed construction.

21. Tubular aluminum- framed, radius roof reinforced at A/C
22. One-piece EPDM rubber roof with 12 year manufacturer's material warranty
23. Luan wood backer
24. High density structural foam insulation
25. Luan wood backer
26. Decorative ceiling board

## LAMINATED FLOOR

5-Ply construction. Fully laminated, aluminum-framed floor structure.

27. One-piece composite wheel wells
28. Residential vinyl flooring
29. Residential carpet with pad
30. Two layers of floor decking over aluminum frame and foam
31. High density structural foam
32. Plywood base with polypropylene, waterproof vapor barrier
33. Tubular aluminum framed floor, reinforced at tanks

Tundra's dinette seat, bunk beds, queen beds and pass-through storage compartments are aluminum framed. They are lighter and more durable than the competitors' wood frame structures.
