Zoom can be towed by most midsize SUV's and minivans. The aerodynamic design and narrow body reduce wind drag to increase fuel economy.

Zoom may be light in weight, but it's not on features and value. All floorplans feature multiple sleeping locations and a full bathroom. Plus, Zoom features all the appliances found in larger RV's including a 2-burner cooktop, refrigerator, microwave, AM/FM/CD stereo, furnace and water heater.

Zoom - The smart choice!

Comfortable and Spacious Sleeping Areas

Zoom's multiple sleeping locations are designed to be spacious and comfortable. The dinette folds into a bed. Zoom's floorplans sleep up to 4 people. Choose the model that's right for your family!

Vehicle Loading – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle. Net carrying capacity (NCC) determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximations only. Warning: This information is intended as a guide only. Weights of individual vehicles may vary.
