TIRE SIZE (All Models): ST235/85R16

Vehicle loading - Every effort has been made to provide the greatest number of options for the recreational vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreational vehicle. Some optional equipment not included.

Net carrying capacity (NCC) is determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximations only. Warning - This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing and towing instructions. *UVW and Hitch Dry Weight are base weights of units without options. Each unit includes a weight label which lists specific weight information for that unit.
Grand Junction provides the MOR/ryde 4000 Equalizer Suspension System standard. The MOR/ryde suspension system uses rubber shear springs that work in concert with steel leaf springs. The MOR/ryde system provides almost double the axle travel of traditional systems. Increased axle travel translates into a smoother ride for your RV.

Grand Junction will keep you warm on chilly evenings with a 40,000 BTU forced air furnace. It also features a standard 15,000 BTU air conditioner with quick cool feature.

Nothing says class and elegance in a kitchen like Corian® countertops. Each countertop is handmade to fit your vehicle to assure many years of durable use and classic beauty. Grand Junction is also available with optional granite countertops for added elegance.

Grand Junction uses a stacked rail chassis design. This chassis design uses double I-beam frame rails to increase the amount of storage space under the bath/bedroom deck. Many models feature an amazing 125 cubic feet of storage!

Grand Junction features solid ash cabinet stiles/frame, hardwood cabinet doors, drawers and slide room fascias. The wood is stained to match the solid hardwood cabinet stiles.

Heated, insulated & enclosed tanks, valves & underbelly are all standard on Grand Junction.
Grand Junction GCR has taken luxury and value to the next level. Incorporating premium features, elegant interior design and premium amenities, Grand Junction GCR is sure to become the industry standard in luxury fifth wheels.

**INTRODUCING GRAND JUNCTION GCR**

Grand Junction GCR includes the same great features that make Grand Junction a best-selling high profile fifth wheel in addition to these GCR features:

- Two-tone wood cabinets with glazed finish - Tuscan Walnut
- Upgraded Corian® Signature Series countertops throughout with Corian® Signature Series sink covers
- 1.3 Cubic foot over-the-range Half Time® convection oven/microwave
- Sealed burner range top with glass front
- Ultra Leather swivel rocker recliners
- Rounded one-piece fiberglass shower surround with seat and glass shower doors
- Fantastic fans in galley and bedroom
- Central vacuum
- Premium Gel-Coat fiberglass exterior walls
- MOR/Ryde shear spring king pin hitch system
- Awning toppers over the standard power electric awning
- Recessed halogen puck lighting

Grand Junction GCR 37TRL with Cappuccino décor featuring an entertainment center with Pop-Up TV & six 5” x 7” picture frames.
