Where Ultra-Lite Meets Luxury
Kodiak is the leader in ultra-lite technology. With units light enough to be towed by most SUV’s, minivans, crossovers and light trucks, we’re sure to have the model that best fits your family’s needs.

But, just because Kodiak is an ultra-lite doesn’t mean it’s light on storage or features. With spacious countertops, well-designed cabinets and oversized pass-thru exterior storage compartments, it’s easy to take everything along on your next adventure.
You’ll appreciate Kodiak’s large hanging wardrobe space, dual reading lights, and upgraded Evergreen super-comfortable mattress with designer bedding package.

Kodiak’s all-new custom cabinetry design increases storage space by over 40%! Overhead cabinets are wider, taller and deeper. Plus, our exclusive countertops offer more usable space.

Solid surface countertop with stainless steel sink and pullout faucet, extra deep storage drawers, dedicated pots and pans storage, plus full-extension steel roller ball bearing drawer guides are standard on all Kodiaks.
Kids really enjoy the 299BHSL’s convertible bunk/sofa. Opposite, there’s an overhead bunk with ladder, as well as ample storage for toys and clothes.
AERODYNAMIC PROFILE

Kodiak’s enclosed and heated underbelly prevents water tanks from freezing, and protects the tanks and floor from road damage.

ULTRA-LITE DESIGN MEANS BETTER FUEL ECONOMY

Kodiak is specifically designed to be towed by most light trucks and sport utility vehicles. The aerodynamic profile pushes air up the front wall and over the roof, improving towing ease and fuel economy.

ENCLOSED AND HEATED UNDERBELLY

Kodiak’s enclosed and heated underbelly prevents water tanks from freezing, and protects the tanks and floor from road damage.

BEAR CAVE STORAGE

Kodiak’s Bear Cave pass-thru V-shaped cargo compartment is the largest offered by any ultra-lite. Our unique design increases storage volume by 30%.

With Kodiak, you can take it with you!
