LEXINGTON CONSTRUCTION

1. Decorative interior wall board
2. 1.5” Tubular aluminum framing
3. Electro-galvanized backers
4. 1.5 Block foam insulation
5. All sidewall openings framed in aluminum
6. Luan
7. Lexington: Exterior fiberglass
   Lexington GTS: Smooth Gelcoat fiberglass exterior
A. RADIO. Our AM/FM/WB Stereo with CD Player features large, easy to use buttons, SD card slot, USB input and an auxiliary input that lets you listen to music from your iPod or other MP3 player.

B. BACK-UP CAMERA. Our new integrated backup camera/rear-view mirror with a compass and temperature feature offer the ultimate convenience in both maneuvering your coach and keeping an eye on things behind you.
A. AUTOMATIC LEVELING JACKS.
The automatic hydraulic leveling jacks (optional) take the stress out of finding that “perfect” spot.

B. 15,000 BTU A/C WITH HEAT PUMP
With the option of a 15,000 BTU Air Conditioner, you get more cooling power for those really hot summer days. And, with a built in heat pump, you’ll help keep warm on those cool fall days.

C. BUBBLE TESTING. Every Sunseeker is pressurized and soap tested at every seam and opening to ensure a water tight seal.

D. PDI BUILDING. Forest River has a 20,000 sq. ft. PDI facility demonstrating our commitment to quality. We double check the electrical system, plumbing system and re-inspect your RV inside and out. Our rain booth has 184 spray heads that produces the equivalent of 24 inches of rain per hour!

E. ROTOCAST. Seamless rotocast storage compartments are not only impact & corrosion resistant but they are also much easier to clean than cheaper carpeted, galvanized compartments.

F. DRAWER GUIDES. Our full extension ball bearing drawer guides provide smooth, reliable operation as well as full access to the drawers contents.
(Below) Our unique “fold-flat” dinette means there is no need to sleep curled up in a ball. Without fixed backs, the dinette allows you to stretch out while sleeping.
