You'll love the great towing and handling characteristics of the Silverback GII. The aerodynamic, futuristic front cap achieves a 90-degree plus turning radius even when towed by short bed trucks. No more cumbersome sliding hitches to contend with. Plus the attractive pin box cover adds a touch of style.
The large entertainment center contains a 32-inch LCD television.

Living room and kitchen slides are detailed with a beautiful double arched fascia.

Dramatic radiused cabinets and counters create a roomy, high-end residential look and feel.

The large entertainment center contains a 32-inch LCD television.

The hide-a-bed sofa with air mattress and La-Z-Boy™ recliners provide plush seating.
AN INTERIOR WITH YOU IN MIND.

The Silverback GII’s 102-inch wide body gives you more square footage of quality living space along with outstanding features and furnishings. All interior windows have beautiful solid wood trim, residential hardwood mini-blinds, and arch-styled valances. Floorplan choices include a kid-friendly model that features a separate bunk room with flip-up bunks and sleeps four comfortably.
AN EXTERIOR WORTH BRAGGING ABOUT.

The cavernous front storage area can be accessed from the front as well as both sides of the unit for easy access. The floor is covered with durable, easy-care diamond plate designed rubber that protects and makes it easier to clean, unlike the dirt-grabbing truck felt used in other RVs. The storage compartment also houses the extensive water filtration system and a handy pull-out exterior shower.

The wide-body gives you more elbow room in the bathroom area. Wider, larger bathrooms, along with residential fixtures, are a defining feature of the new Silverback GII.
