Our Commitment to Customer Satisfaction

Corsair’s full two-year limited warranty is reinforced by a limited six-year structural integrity warranty and a two-year component warranty. Quality assurance you can depend on! This added warranty is unique to the recreational vehicle industry and should be one of your very serious considerations when choosing your next R.V.

Corsair is backed by a national dealer and service network that is some 100 strong and stretches from coast-to-coast as well as affiliates in the U.S.A for North American worry free travel. These dealers and dealer service technicians will gladly attest to the excellence of Corsair’s construction and quality.

Join thousands of General Coach customers in North America and take command of the road with your Corsair. A buying decision you’ll never regret. We are very proud of our highly skilled people who exercise extreme care in the manufacture of every Corsair. We invite you to visit us at General Coach, see the quality process yourself. We know you’ll be impressed and we know you’ll love the Okanagan Valley.

Polar-Pak

North America’s Best

FIFTH WHEEL & TRAVEL TRAILERS
Excellence You Deserve!
Excella Livability

Experience the “At Home” comfort and livability that only Corsair Excella quality provides. Residential style, “All Season” features are endless! “Stormtite” double glazed thermopane windows, “Dayliter” dual-pane residential skylights, energy saving 2-stage furnaces and exclusive attic ventilation system keeps you warm and condensation free.

What you “can’t see” is where Corsair excels with surprising features like Nev-R-Lube axles, “Whisper King” water pumps, XT 16 gal. water heaters and pillowtop “Ultimate” mattresses.

New for 2007 is the expansive 34.5 CKTS Platinum with a large island kitchen and a living area that is a comfortable 352 sq.ft. Solid surface counters, Norcold 10 cu ft. fridge, recessed stovetop and sink, slide-out garbage can, can racks and halogen lighting highlight the kitchen. A handy fold down desk, standard 32” LCD HD TV on a swivel arm with a DVD theatre surround sound system and optional fireplace accent the Entertainment Center area. Hydraulic disc brakes w/lube shackles and Mor-Ryde pin box provide towing safety and a utility compartment houses exterior conveniences such as pop-out hose reel, dump valves and exterior shower. Our unmatched features, quality construction and wide body design provide year round comfort, exclusive livability and worry-free travel.

Excellence You Deserve!
We are General Coach, a division of Thor Industries Inc., a western Canadian company that manufactures the well known Corsair brand of quality recreational vehicles. For over 55 years we have been consumer established as builders of high value, superior quality RV’s with proven high resale value.

Because we are a limited capacity production company we do not mass produce our products allowing us to ensure strict quality control standards which, in turn, ensures your comfort and satisfaction. Residential quality components and residential style construction techniques are utilized by skilled, conscientious, long term employees dedicated to quality workmanship.

Corsair by General Coach is designed for recreational use in western Canadian climate and conditions with “Polar Pak” features second to none. Your peace of mind with your purchase decision is reinforced by Corsair’s Six Year Limited Structural Integrity Warranty.

Why a Thor Product Is Your Best RV Value.

Thor industries, Inc., proudly traces its history back nearly seventy years to the pioneering days of the RV industry with the founding of Airstream, the industry’s oldest and most renowned brand. Our total commitment to quality and our philosophy of putting our customers first has led to our continuous growth; today Thor is the largest manufacturer of travel trailers and fifth wheels, a major manufacturer of motorhomes and the largest builder of small and mid-size buses in North America. Thor's strong financial condition and years of solid growth are your assurance that we will be here to serve you for years to come. We think this extra peace of mind is important when you are making a significant investment. Our customers are always #1 with us.

General Coach makes a top-line product. We just purchased our fifth General Coach 5th Wheel and are proud of the 34RLTS model - the quality is exceptional, the layout very functional and the decor warm and inviting. Needless to say, we would highly recommend a General Coach product over and above anything else on the market as you receive true value for your dollar. We go to the Calgary RV show every February and no other manufacturer, in our opinion, manufactures a product as good! Warranty and follow-up service at the dealer has always been excellent.

Corsair Excella,
Excellence You Deserve!

Production information, specifications, photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. All products meet or exceed CSA or RVIA standards.

Check with your local dealer for a complete list of options and features on the model you are considering.
The cozy rear living room of the Model 34RLTS shown with the optional leather fabric recliner chairs and electric fireplace. A 27" flatscreen TV and DVD home theatre surround sound are standard amenities. A computer desk and chair provide a practical workstation while skylights and large solar reflective windows supply extra lighting and spaciousness to the interior. A Rainsensor Fantastic Fan controlled by a convenient wall switch intakes or exhausts with superb airflow. Roofs are 6" thick with R11 insulation. Only General Coach provides a unique "Attic Ventilation System" which consists of a covered vent that allows fresh air into the roof cavity at the rear and a two speed fan that exchanges the air in the roof cavity. This controls condensation in winter and keeps your coach cooler in summer. Just a part of North America's Best *Polar Pak!

Our low volume production levels allow extra attention to detail and the pride of quality workmanship is evident in all General Coach products.

The popular Model 34RLTS is shown above in the rich Woodhaven interior. The beautiful cabinetry is adorned with rich, solid beech cabinet doors and modern brushed nickel hardware. Drawers are made with steel guides and rollers for smooth operation. "Taymor" residential single lever faucets with pull-out spray have a lifetime warranty - just part of our commitment to using top quality components. The modern polymer sink is scratch and dent resistant to ensure lasting appeal. All triple slide models have quality "Karadon" solid surface countertops and extra space is provided by a flip-up counter extension. Strategically placed durable linoleum and high quality plush carpets accent this practical, attractive layout.

**VEHICLE LOADING:** Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer’s specified chassis weight limits. Do not overload the recreation vehicle.

**NET CARRYING CAPACITY** is calculated with standard features only and all tanks empty. Any options, fluids, or dealer added options must be subtracted from the Net Carrying Capacity to determine the remaining cargo allowance.

**WARNING:** This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner’s manual for complete loading, weighing, and towing instructions.

POLAR PAK FEATURES

*NORTH AMERICA’S BEST POLAR PAK! - YOUR SUB ZERO SOLUTION*

General Coach has developed the best all season product available today. The exclusive Polar Pak Features are a combination of Canadian residential components and proven all season residential construction techniques. Our full wood frame Vacuum laminated walls are 2" thick, residential style truss roof and framed floor with 5/8" plywood will not sweat or conduct heat and cold as aluminum framing.

The "Dayliter" skylights from Richmond, BC are the best residential skylight on the market today. Only "Dayliter" skylights control interior moisture build up by catching the moisture in a drip rail and weeping the moisture to the exterior not back into the unit or into the roof cavity. Integral venting allows air to flow between the dual aircraft acrylic panes to prevent frost or moisture forming.

Made in Canada "Stormite" thermopane windows are proven to be the best all season windows with an extra heavy duty frame and the only framed sliding section that locks in the closed position for a positive seal against dust and moisture. The solar reflective glass also provides daytime privacy and reduces heat build up by 10 to 15%.

The exclusive "Attic" ventilation system allows fresh air to be circulated through the ceiling cavity to reduce heat in the summer and condensation in the winter. The system consists of a fresh air intake at the rear of the unit and a 12 volt marine extraction fan on the roof above the bedroom. The fan is controlled by a 2 speed switch in the roadside cabinet.

"Excalibur XT" Two Stage furnaces conserve fuel and reduce noise for quieter nights. Set the digital thermostat and let the furnace take over. During cold start-ups the furnace operates on the high BTU and high fan for quick quiet warm up. Then, when the temperature is reached the furnace automatically switches to low BTU and low fan to maintain the set temperature. The Models 32.5TKS and larger have 2 separate furnace systems for the best control of temperature through out the unit.

All models have the "Fantastic" Rain Sensor vent fans in the living area. The rain sensor is controlled from a wall thermostat that can be set according to temperature and humidity. Larger models also have a "Fantastic" vent fan above the vanity to control the bathroom humidity.

Holding Tanks are enclosed within a steel compartment that is insulated and heated with a direct duct from the furnace. Most models have the dump valve handles located above in a heated storage compartment, easy access and protected from road hazards. Compartment doors have 1" of High Density Foam Insulation.

North America’s Best Polar Pak!

The Model 32.5TKS rear lounge triple slide boasts an exceptionally open floor plan and a generous kitchen area due to General Coach’s exclusive 100” wide body design. Comfortable, residential hide-a-beds are available with several options including footrests, air mattress and leather fabric.

When we purchased our previous General Coach 5th Wheel we were sent a survey form. There were 3 things that we felt could have been improved upon. You actually listen to customers! When we chose our new General Coach 5th Wheel (Model 30RLDS) those suggestions were made. We’re really pleased to deal with a company who does listen to and care about their customers. Also, the workmanship and comfort of our unit are tops. The people who are on the assembly line truly take pride in their work and it shows, when you look at how well these units are built inside and out.

Lloyd & Jan Harvey
Cranbrook, British Columbia

The Model 30RLDS kitchen features a large double pull out can rack, deluxe "Atwood" high output range, numerous large full depth drawers, deep, scratch resistant polymer fiberglass sink and a top quality "Taymor" faucet with spray. The optional "Norcold" 10 cubic foot refrigerator maximizes usable storage space.

Our unique slide out construction features a 2 3/8” thick full frame insulated floor, a solid beech and fabric fascia and is double sealed in the open or closed position. The slide system combines a rack and pinion drive with steel rollers and a built in travel locking system. No cables or hydraulics to worry about.

Specifications are subject to change without notice or obligation.
Hand-cranked stabilizing becomes a backache of the past with the optional Quick Draw Electric Stabilizer Jacks. Both jacks operate together and ensure equal pressure is on both legs. A touch of the switch results in a level and stable unit. The maximum support is 3200 lbs. A 3 Year warranty provides peace of mind.

Optional “Carefree” Awnings over the Bedroom Slide Out provides extra protection from the elements. The Bedroom slide outs are optional in the Models 29CKS, 29.5RLS, 30RLDS and standard in Model 29RKDS, 31.5RLS and larger.

The ever popular Model 26RKS is shown above in the vibrant Savannah interior. The length of this model makes it easily towable yet this unit is very versatile with an abundance of cupboards and numerous drawers. Appointments including the appliances are in a modern platinum finish. the Hide-A-Bed has an optional flip-out footrest and reversible color pillows.
The top selling rear kitchen Model 29RKDS shown in the rich Autumn Fern decor combines exceptional residential livability in a very towable 30'. Abundant storage with the full width kitchen cabinetry and superb lighting from the large residential skylight and numerous windows ensures your comfort. The optional “Norcold” 10 cubic foot refrigerator is a great addition for the full timer. The “Atwood” XT Water heater that provides the equivalent hot water to a 16 gallon tank with only a 10 gallon tank.

“We’ve only used our 29RKDS one season, but so far we love it!”
Lorne & Jean W., Duncan, BC

Excellence You Deserve!

Shown above is the Model 33RLTS in the plush Savannah interior with a superb view of the exterior from the spacious dining table and chairs. All triple slide models have a convection microwave oven and range top standard. 50 Amp Service is a standard feature in Models 29 and up to ensure adequate power for all your needs. Additionally, all triple slide models incorporate 2 “Two Stage” furnaces - part of General Coach’s Polar Pak - The Best in North America!
**Excella Construction**

**Crowned Roof**
1. “Dicor” vinyl roof, seamless, overlaps the sidewall, 12 year warranty
2. 3/8” plywood deck, screwed to truss
3. Fiberglass insulation R-11 full width
4. Engineered residential crowned truss, 5/8” thick in centre sloped to 3½” on the ends
5. Insulated rigid air conditioning duct - 2”
6. Drip rail with down spouts
7. Interior ceiling panel - plywood

**Vacuum Bonded Wall**
8. “Medallion Filon” gelcoat panels
9. Plywood substrate
10. Kiln dried studs - 2x2, 2x4, 2x6
11. Ultra high density rigid polystyrene insulation
12. Interior panel - plywood

Walls on all models are framed utilizing 2” x 2”, 2” x 3” and 2” x 6” kiln dried studs, steel reinforced and mounted directly on top of the foundation floor.

The sidewalls are individually laminated, cured under vacuum pressure and tear tested for a perfect bond prior to installation. Laminated to plywood, the Filon gelcoat panels are warranted for 2 years materials and labor and guarantees a high resale value as it retains colour and lustre and won’t rust, corrode, ding or dent.

**Foundation Floor**
13. 3/8” plywood tongue & groove deck - glued and screwed to studs
14. Vinyl flooring residential installation
15. Kiln dried studs
16. Fiberglass insulation
17. Galvanized steel heat ducting (not all models)
18. Galvanized steel flashing

Seamless polypropylene undersiding complete wrap up sides, front and rear Fiberglass radius skirt, double sealed at marriage

Floor is bolted to steel chassis. Steel is fully undercoated with automotive undercoat. Holding tanks are enclosed, insulated and protected within the 12 gauge steel chassis members and heated directly from the furnace.

12 gauge steel outriggers support full width of floor.
Most models with the Garden Tub can be ordered with the optional garden shower designed for ease of access. The optional pocket door improves bedroom privacy and is available in most walk thru bath models.

Excellence You Deserve!

Optional Pocket Door to Bedroom & Optional Shower in lieu of Garden Tub.
Corsair Excella - Excellence You Deserve!

General Coach is proud of our 99% customer satisfaction record. But don't take our word for it, ask our owners for their opinions.

As we have had this unit 2 years now I believe this survey is now very complete. I am impressed with the warranty schedule offered by General Coach and appreciative of your warranty manager who has assisted us throughout. Thank you for a great coach.

Rex & Hazel B.
Saskatoon, Saskatchewan

Overall very satisfied, would like to see unit a little lighter but accept weight for solid construction. The quality is excellent both inside and out. I have recommended you to family and friends. Just love our fifth wheel.

Ray E.
Kelowna, British Columbia

Having had considerable experience trailering with 6 different manufacturers’ products, we are happy to say we are pleased with every aspect of our General Coach 5th Wheel. Perhaps the best comment is to simply state that the built-in quality of this product speaks to our comfort, enjoyment and the sense of pride we realize from our home away from home.

Don & Marg C.
Kamloops, British Columbia

We believe that the General Coach line is one of the top lines in North America. We have owned 7 General Coach products.

Heinz & Marlene L
150 Mile House, British Columbia

Just letting you know that we made our yearly trip to Jasper this year and we stayed in the same cold weather as we did in the 28.5. We had no problems with sewer valves freezing and everything worked fine.

Rae S.
Prince George, British Columbia

We have been extremely pleased with the performance of our General Coach. We looked at many different brands of 5th wheel over the last few years and talked to many Rvers. Your product certainly stood out in many ways and General Coach's reputation is very good in the RV community. There are many, many features that make our travels extremely comfortable and enjoyable.

Alan & Shirley N.
Surrey, British Columbia

We have found after buying two new units from the same dealer and manufacturer that the service and quality is outstanding and we would have no problem recommending both.

Dave R.
Oliver, British Columbia

Every trailer has its pluses and minuses. One gets used to them in time, so there aren’t any major “dislikes”. That’s why I bought 4 in 10 years.

Gerhard K.
Kelowna, British Columbia

The Model 33RLTS is an outstanding unit, with few if any features left out. Please thank all the engineers, designers and staff for a job well done.

Elaine & John P.
Fort McMurray, Alberta

In 1989, we took five factory tours in BC and Alberta, including General Coach in Oliver. General Coach was the best quality and had the most attractive appearance. Although the price was slightly more than the others, we bought our first General Coach in 1991 and have never been sorry. In October of 2000, we bought our second General Coach Fifth Wheel. The quality is still excellent and with more features, we really enjoy our trailer. We get lots of compliments in campgrounds. We certainly appreciate the value for our dollars. Thanks for building a great fifth wheel.

Cleave & Diane B.
Maple Ridge, British Columbia

The following is an excerpt from the “RV Times” magazine:

We really do enjoy your publication. Our last trip was of three months duration: 16,200 miles, most of them in Canada. We would like to sing the praise of our new trailer built by General Coach in B.C.

Our travel is always off-season and we looked for something that would be comfortable on the Alaska Highway in winter. More Canadians should know about this product.

Eva B.
Skagway, Alaska
