### SUPERIOR VISIBILITY

Negotiating a tricky curve in the campground or on a major city street there will be no reason to worry while you're in the Chevrolet Kodiak. ## SOLID HARDWOOD CABINETRY

### PREDRILLED HARDWOOD CONSTRUCTION

OPTIONAL HARD  
ROCK MAPLE

Our residential style cabinets are constructed of solid hardwood doors and fronts that are predrilled and screwed then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.

## COMPETITOR'S CABINETRY

## GALVANIZED STEEL STORAGE COMPARTMENTS

Seamless, carpeted, galvanized steel storage compartments safely cradle your valuables. Rust protective paint and foam sealed for extended life and a quiet ride.

Dual metal H-Ducted air conditioning system with foil bubble wrapped insulation for improved climate control.

Unlike traditional plywood and foam seating Comfort Plus Seating features the strength of steel and the comfort of a sprung dinette cushion.

## FLUSH FLOOR Slide out

Gulf Stream Class C's offer flush floor slides for a residential look and feel with 6 foot ceilings in the slideroom.

## SUPER STRENGTH TRUSS SYSTEM

6" & 8" C CHANNEL EXTENSION

The super strength truss system is unmatched in the class C industry. The structural subfloor foundation begins by welding a network of integrated steel trusses to the chassis rail. Specifically designed to distribute and transfer the tremendous forces from the coach to the chassis rail these trusses are individually tested to withstand 6,000 pounds each.

When the chassis is stretched, Gulf Stream stands alone in the industry by using a full (6" on LE) or (8" on Super C) C channel extension versus the traditional 4" or less. This practice adds to the strength of the foundation and offers peace of mind that towing is safe on an extension that is true to the chassis.

OR  
rooms

The Gulf Stream Class C's have nearly 7' interior ceilings for a residential look and feel with 6 foot ceilings in the slidroom.
