Cruise the Country in Style
**Galley Convenience...**

Our wide-open galley offers all the comforts of your kitchen at home. 3-burner high performance range; 2-door, 2-way refrigerator and large convection microwave, you will be able to prepare any of your family's favorite meals.

**Bedroom...**

Enormous wardrobe, abundant drawer storage, flat screen TV and beautiful decor create an inviting area for rest and relaxation.

**Spacious Living...**

Open living areas that incorporate large slide rooms and residential style furniture make home away from home very comfortable.

Now available on the 5250, Gulf Stream's exclusive sun room slideout. This industry first innovative sun room gives you a wide range of sight from the curb side of the coach and opens up the coach to eliminate that boxed in feeling other minihomes give you.

**Comfortable Cockpit...**

Make driving your BT Cruiser effortless with the addition of the driver convenience package. This option will give even the most timid driver confidence while backing up with reverse obstacle sensing and backup monitor. Keyless entry also included in this package facilitates easy entry and secured exit of your new motor home.

*Driver Convenience Package Available on Ford Chassis Only*
Upgrade your already feature packed B Touring cruiser with the all new XL Package. The XL Package gives you more high end features that are generally only found in high dollar Class A Motorhomes.

Not available on Model 5211. Electric sofa N/A 5250 & 5291.
Gulf Stream Exclusive Features & Benefits

Excellent Weathering - Maintaining the vehicle's quality appearance enhances its resale value.

Tear Resistance - Unlike rubber roofing, Flexroofs hard abuse resistant finish resists tearing, a condition that can cause leaks and lead to expensive repair.

Low Maintenance - Road grime can easily be removed with normal cleaning maintenance. Rubber chalking due to solar breakdown of the roof surface is eliminated, preserving the original appearance and resale value of the vehicle.

Stain Resistance - Fiberglass Flexroof is designed to resist staining and maintain its quality appearance.

Structural Integrity - Unlike conventional EPDM rubber roof membranes, Flexroof is a structural component of the roof system.

Textured Fiberglass - Helps dissipate heat and is slip resistant. In addition, it helps prevent tree limbs from tearing or scratching your roof.

Our residential style cabinets are constructed of solid hardwood doors and fronts that are predrilled and screws then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.

Seamless, carpeted, galvanized steel storage compartments safely crate your valuables. Rust protected and foam sealed for extended life and a quiet ride.

Dual metal H-Ducted air conditioning system with foil bubble wrapped insulation for improved climate control.

Unique self storing privacy divider featuring quick and simple setup.

Super Strength Truss System

Tuff-Truss 6000 lbs
Unlike traditional plywood and foam seating, Comfort Plus Seating features the strength of steel and the comfort of a sprung dinette cushion.

6" C Channel Extension

The super strength truss system is unmatched in the class C industry. The structural subfloor foundation begins by welding a network of integrated steel trusses to the chassis rail. Specifically designed to distribute and transfer the tremendous forces from the coach to the chassis rail, these trusses are individually tested to withstand 6,000 pounds each.

When the chassis is stretched, Gulf Stream stands alone in the industry by using a full 6" C channel extension versus the traditional 4" or less. This practice adds to the strength of the foundation and offers peace of mind that towing is safe on an extension that is integral to the chassis.
