STABIL-RIDE® suspension System

The best just got better. The optional Stabil-Ride™ suspension system integrates parabolic leaf springs, auxiliary springs, stabilizer bar and tuned shocks, designed to provide a low maintenance, stable ride comparable to the ride of a diesel pusher. Enjoy unsurpassed handling with reduced body sway particularly while cornering and superior straight-line stability.

Up-Level Headlights
with chrome treated
front bumper and grill

126-square inch-surface
mirror including a 6x7
inch convex section on
both mirrors.

Breakaway mirrors folded 90 degrees inward or
outward to manage tight spaces reducing
the risk of damage.

SUPERIOR VISIBILITY

Negotiating a tricky curve in the campground or on a major city street there will be no reason to worry while you're in the Chevrolet Kodiak. With a 54 degree turning radius, giant mirrors, large windshield and sloped hood this vehicle drives more like a light duty truck. Sloped hood allows the driver to see just a mere 13 feet in front of them, doubling their field of vision versus the traditional 26 feet.

Gulf Stream Motorhomes & Buses

GULF STREAM
MOTORHOME
MANUFACTURERS

Our residential style cabinets are constructed of solid hardwood doors and fronts that are predrilled and screwed then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

PREDRILLED HARDWOOD CONSTRUCTION

© 1986

COMPETITOR'S CABINETRY

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.

Comfort Plus
Furniture

Unlike traditional plywood and foam seating Comfort Plus Seating features the strength of steel and the comfort of a sprung dinette cushion.

FLUSH C CHANNEL Slide Out

Gulf Stream Class C's offer flush floor slides for a residential look and feel with 6 foot ceilings in the slideroom.

SUPER STRENGTH TRUSS SYSTEM

6" & 8" C CHANNEL EXTENSION

The super strength truss system is unmatched in the class C industry. The structural subfloor foundation begins by welding a network of integrated steel trusses to the chassis rail. Specifically designed to distribute and transfer the tremendous forces from the coach to the chassis rail these trusses are individually tested to withstand 6,000 pounds each.

When the chassis is stretched, Gulf Stream stands alone in the industry by using a full (6" on LE) or (8" on Super C) C channel extension versus the traditional 4" or less. This practice adds to the strength of the foundation and offers peace of mind that towing is safe on an extension that is true to the chassis.

GALVANIZED STEEL STORAGE COMPARTMENTS

Dual metal H-Ducted air conditioning system with foil bubble wrapped insulation for improved climate control.

Seamless, carpeted, galvanized steel storage compartments safely cradle your valuable. Rust protective paint and foam sealed for extended life and a quiet ride.

Chariot of Strength

The Gulf Stream Class C's have nearly 7' interior ceilings for a residential look and feel with 6' foot ceilings in the slideroom.

1. Seamless Rubber Roof For Greater Energy Efficiency and Dependability.

2. Luan Decking for Additional Strength.

3. Molded, High Density EPS (Expanded Polystyrene) Roof Brick Insulation - Provides Consistent Insulation Value as well as Superior Dimensional Rigidity.

4. One-Piece Formed Aluminum Air Conditioning Duct, Completely Surrounded By EPS Insulation.

5. Bubble-Wrapped Foil Insulation Provides Superior Insulation and Helps Prevent Condensation.

6. Rugged Welded Tubular Aluminum Roof Framing.

7. Rugged Heavy-Gauge Tubular Aluminum Fixture Welded to Form the Sidewall Framing.

8. High-Density EPS Insulation Provides Superior Lamination and Bonding Characteristics and Insures Greater Energy Efficiency.

9. Interior Wall Panels Securely Laminated to Sidewall Framing.

10. "Super Slick" Fiberglass Exterior Vacuum-bond Laminated to Sidewall Framing for Lasting Beauty

11. High-Quality Stain-Resistant Carpeting Available in Designer Coordinated Colors.

12. Extra-Thick Padding Under Carpet Provides Extra Comfort and Increases Carpet Durability.

13. Floor Decking Laminated to Steel Floor Structure Assures a Quiet, Long-Lasting Rigid Floor and comes with a 10-Year Warranty.

14. Heavy-Gauge Tubular Steel Framing, Fixture Welded for Extra Strength and Stability.

15. Heavy-gauge Tubular Steel Framed Fixture Welded Floor Truss System Provides the Strongest Class C Foundation in the Industry.

16. Seamless Layer of Galvanized Steel Securely Laminated to the Steel Floor Framing.

17. Galvanized Steel Used to Form Each Storage & Holding Compartment.

18. Durable All-Weather Carpeting Completes Each Accessible Storage Compartment, Providing Extra Protection for Luggage and Valuables.

19. Rust-Prohibitive Paint Coating Applied to All Steel Framing Assures Corrosion and Rust Protection.

20. The Industry's Strongest, Most Spacious Exterior Storage Compartments.
