MODERN COCKPIT...
The cockpit of the Crescendo luxury diesel pusher is spacious and designed to give you total control over all systems on your motorhome. You will be impressed with the comfort and ergonomic layout.

GALLEY CONVENIENCE...
Our wide-open galley offers all the comforts of your kitchen at home. 3-burner high performance range; 2-door, 2-way refrigerator and large convection microwave and an optional dishwasher you will be able to prepare any of your family's favorite meals.

COMFORTABLE DINING...
Gulf Stream delivers in the pullout design and construction of the dinette table and seating. Allowing 4 to sit comfortably. Enhanced by large panoramic windows to take in the view while dining in your luxury motorhome.

TECHNOLOGY...
Traveling is easy and enjoyable with our optional GPS Navigation system and our Low-Profile Satellite system. Now millions of destination are within your grasp! Make the most of your time on the road with the satellite service. With the entertainment package you are always going to have the best seat in the house!
Open living areas that incorporate full slide rooms and residential style furnishings make this home away from home very spacious living quarters.
Large bedroom windows open up the bedroom letting in natural light and fresh air and the bunk option (40UL) gives you the extra sleeping space and privacy when you need it. The bedroom delivers plenty of storage for both his and her clothing. All floorplans include deep dresser drawers and large wardrobe storage to hang attire.

BATHROOM...

The bathroom in the Crescendo makes it easy to prepare for the day ahead. The mirrored medicine cabinet and under-sink storage give you room to hide away personal products, and the skylight in the shower stall provides natural light and additional headroom for tall travelers.
**Exclusive Features & Benefits**

**SOLID HARDWOOD CABINERY**

Our residential style cabinets are constructed of solid hardwood doors and fronts that are predrilled and screwed then they are stained and top coated with a furniture grade finish that provides long lasting beauty and durability as well as adding strength and quietness to your motorhome.

Other companies use wrapped cabinet fronts prone to peeling, fading and tearing. The softer composite wood used does not hold screws as well as hardwood resulting in loss of strength and squeaking. Discoloration will degrade the beauty and lower the value of the motorhome.

**Seamless FIBERGLASS ROOF**

Excellent Weathering - Maintaining the vehicle's quality appearance enhances its resale value.

Tear Resistance - Flexroofs hard abuse resistant finish resists tearing, a condition that can cause leaks and lead to expensive repair.

Low Maintenance - Road grime can easily be removed with normal cleaning maintenance. Rubber chalking due to solar breakdown of the roof surface is eliminated, preserving the original appearance and resale value of the vehicle.

Stain Resistance - Fiberglass Flexroof is designed to resist staining and maintain its quality appearance.

Structural Integrity - Unlike conventional EPDM rubber roof membranes, Flexroof is a structural component of the roof system.

Textured Fiberglass - Helps dissipate heat and prevents tree limbs from tearing or scratching your roof.

**GALVANIZED STEEL STORAGE COMPARTMENTS**

Seamless, carpeted, galvanized steel storage compartments safely cradle your valuables. Rust protective paint and foam sealed for extended life and a quiet ride.

**FLUSH FLOOR Slide out rooms**

Gulf Stream offers true flush floor slide out rooms to give you more headroom in the slide and eliminates the step up into the slide room that you will experience in many of our competitors motorhomes.

**24 MONTH 24,000 MILE WARRANTY ON STRUCTURAL COMPONENTS**

Dual metal H-Ducted air conditioning system with foil bubble wrapped insulation for superior climate control.

**Gulf Stream VS. Brand A Cool Down Comparison**

- At 15 minutes, Gulf Stream cooled 7 degrees cooler.
- At 30 minutes, Gulf Stream cooled 9 degrees cooler.
- At 1 hour, Gulf Stream cooled 9 degrees cooler.

Finally, empirical data demonstrating the efficiency and performance of a roof air conditioning system versus a floor air conditioning system. Winner: Roof air conditioning by Gulf Stream.

**FRED FACTS**
The real advantages of FRed Engine Diesel.

**PERFORMANCE** • Front Engine configuration uses natural motion and ram air to cool the engine allowing the valuable horsepower to concentrate on powering the coach, not cooling the engine.

**EFFICIENCY** • The Front Engine Diesel chassis touts a fuel economy of an estimated 12-13 MPG * *actual mileage per gallon may vary due to road conditions, terrain, driver habits, cargo weight, or towing.

**STABILITY** • By moving the Engine to the front of the unit and by increasing the wheelbase by 20" we create a more comfortable ride. This also eliminates porpoising (the forward and aft rocking caused by the engine being placed in the rear of a unit with a smaller wheelbase) A more stable ride means less wear on the unit and on the driver.
