The wide open living space of the Open Range 3X is unrivaled among the industry. All floor plans have 7'0” slide-out heights and many of those offer opposing 42” deep slides giving 15’ of interior width when opened. We use the 3X term to emphasize the 3 inch wall thickness with Thermal Barrier. This not only gives 50% to 100% more insulation than competitors but also prevents the aluminum studs from transferring heat or cold from the exterior to the interior of the coach. The 3X Open Range product line provides all the residential features of a luxury fifth wheel including stainless steel appliances, wood framed windows, stackable washer and dryer capability, arched ceiling, 7’0” slide-out height, and much more. Take a look at this revolutionary fifth wheel that is not only luxury, but also lighter weight, easier to tow, and at a very competitive introductory price!
» 3” Thick Sidewall with Thermal Barrier
» Dual Pane Windows
» Newly Designed Front Cap with LED Lights
» 7’0” Slide-Out Height
» 6’4” x 36” Full View Vented Entrance Door with Remote Lock
» Stainless Steel Appliances

- 4-Step Entry
- Battery Disconnect in Pass-Thru Storage Area
- Keyless Entry
- Exterior Entertainment
- Exterior Convenience Center
Open Range 3X fifth wheels have a unique and incredible heating system. We start with a 4 inch heat duct from the furnace down the the underbelly in place of the 2 inch some of the competitors use. All of our tanks are suspended between the I beams in the underbelly allowing us to have forced air heat blowing from the 4 inch heat duct surrounding the tanks with warm air flow.

How do we get the air flow? Simply by having a return at the end of the tanks going back into the coach. The secret is that simple. We put a return in their underbelly to allow air flow over the tanks instead of a pressurizing system that occurs in other brands.
**Seal-Tite Water Shield**
Seal-Tite – a semi-robotic system that makes the placement of window sealants more precise and error-free – thus eliminating the hand application of such sealants which can often result in inconsistency.

**Accu-Slide**
Accu-Slide is so ingeniously designed, yet so amazingly simple, you’re likely to say it works like magic. A revolutionary, lightweight, heavy-duty system, Accu-Slide increases the quality and customer appeal of RV’s through superior performance and increased design flexibility.
