2013 | TRUCK CAMPERS

ANYTHING

No matter where you want to go, your Lance Truck Camper will take you there.

Imagine total freedom. In a truck camper that meets your needs – fitting you like your favorite pair of jeans.

“The beauty and charm of the wilderness are his for the asking, for the edges of the wilderness lie close beside the beaten roads of the present travel.” — Theodore Roosevelt

“Keep close to Nature’s heart... and break clear away, once in a while, and climb a mountain or spend a week in the woods. Wash your spirit clean.” — John Muir

GOES

Let Your Imagination Roam

Get on the road. Get off the road. Haul your toys.
Launch your boat. Then set up camp and go
further than you have ever gone before.

Lance. Get Away.

The Lance Difference

Since 1965 Lance has been building America's most popular truck campers. And today, many of them are still on the road – a true testament to the company's philosophy that Quality Comes First.

Based in California – the nation's most demanding state for building safe products – Lance manufactures from a State-of-the-Art Production Facility – a 141,000 square foot, 22 acre campus – campus because Lance continues to learn from its dealers and from every single customer who provides ongoing feedback for improvement and new product design.

Ideas born from this process include LanceLock™, the use of Azdel™, Lite-Ply™ and the removal of all mercury from the campers making for an eco-friendly, toxin-free RV.

These are just a few of the examples of our advanced computer assisted engineering processes that contributes to a quality product.

That's why for the last decade, Lance has won the prestigious DSI Award (Dealer Satisfaction Index) for quality almost every year. We're also rated Best in Owner Satisfaction by our customers who are often repeat buyers and a source of referrals for new customers. And recently, Consumers Digest awarded the entire Lance line their highest rating.

It doesn't stop there. To be a Lance truck camper dealer requires commitment. Every dealer goes through extensive training giving us a Comprehensive Authorized Dealership Network across the United States and Canada. Whether a first-time or repeat customer, in need of service or camper education – our network is always there for you.

Dare to Compare. **Discover the Lance Difference.**

Flagship Defined.

When Lance introduces a new model the camping world expects something special. Well, be prepared to be impressed.

This is no ordinary Lance camper. It's our new flagship double-slide version of luxury in the wilderness.

But what makes it a Lance? We were determined to build a no-compromise double slide while saving as much weight as possible. And that's ... the 1172.

The new 1172 features giant windows and skylights that bathe the interior making it light and airy. There's the "Super Slide" dinette opposite the dry bath and a galley with flip-up counter extensions at both ends.

The big news comes as the rear wall slides out with a sofa recliner that converts into a bed for 2. With both slides open the space is cavernous. The 1172 is the definition of the ultimate flagship truck camper. The wait is over.

FLOOR LENGTH	11'11"

Coming Late 2012
(Artist Renderings)

Small Wonder.

It's no wonder that the 825 is one of our most popular truck campers. Now you can live the dream in a genuine Lance camper with your short bed Toyota Tundra, Nissan Titan or F-150/1500 series truck*.

The thoughtfully designed interior features a practical galley, residential cab over queen-size bed, convertible dinette and spacious wet bath. Just add yourself and a few friends and hit the road.

FLOOR LENGTH	8'6"

To Slide or Not to Slide...

The 855 and 855S give you both options. Now you have a choice for your short bed truck*. Both feature LED lighting, the all-new aerodynamic nose cap and more.

The slideout allows for a dinette almost a foot wider than in the 855. The facing bench seats easily accommodate 4 adults while converting into a bed that sleeps 2.

* Match your truck and camper correctly. See the "Truck Camper Compatibility Guide" on page 19 and legal disclaimer on page 20.

855 &

Upscale Downsized.

With a layout similar to its larger siblings — you'll enjoy the spacious feel of this Lance truck camper while carrying it around on your short bed Toyota Tundra, Nissan Titan or F-150/1500 series truck*.

With a spacious wet bath, generous galley countertop, "U-shaped" dinette and residential queen-size bed, the 865 brings upscale amenities to this practical package.

Now You're Going Places.

Our smallest long bed truck camper isn't short on comfort. In fact, for 2013 it offers all of the features of our larger models including LED lighting and aerodynamic front nose-cap.

Suitable for your F-250/2500 or larger long bed truck*, the 850 is big on features including a new one-piece fiberglass wet bath, expansive storage in the cab over area and more. Add your gear and you're on your way to anywhere.

FLOOR LENGTH	8'11"

Roomy. Off-Road Worthy.

The 950S is not too big nor too small. Designed for most F-250/2500 series long bed trucks*, it's big on room, yet small enough to go exploring.

The 950S features a slideout with dinette for 4, LED lighting, designer interior finishes and for 2013, Lance's new aerodynamic nose cap. The road is calling. The answer is the 950S.

FLOOR LENGTH	9'11"
OVERALL LENGTH	18'8"
DRY WEIGHT	2820 Lbs.

The Ultimate 2 Slide Wet Bath.

The 992 is one of our most popular models for good reason. With its 2 slides, the interior of the 992 is immense. One features Lance's "Super Slide" dinette that seats 4 and sleeps 2 with ease. And the kitchen slide is so deep it has double the counter space you would expect. Add to that a spacious one piece fiberglass wet bath, and you'll understand why this truck camper is "the" total package.

Making it more appealing for 2013 are new interiors, LED lighting and an all-new aerodynamic nose cap.

FLOOR LENGTH	9'11"
OVERALL LENGTH	18'6"
DRY WEIGHT	3290 Lbs.
CENTER OF GRAVITY	44"
SLEEPING CAPACITY	Up to 5 Adults

992

* Match your truck and camper correctly. See the "Truck Camper Compatibility Guide" on page 19 and legal disclaimer on page 20.

It's Just Right.

It's easy to put all the features you want into a big truck camper. But when you manage to fit them all, and then some, into an efficient package – you've got the 1050S.

The slideout features a dinette that seats 4 and sleeps 2. The galley offers plenty of room and is new for 2013 with a dual sink molded into the counter top with additional prep area across in the slideout. Add to that a dry bath and it's easy to see why the 1050S is so popular.

FLOOR LENGTH	10'11"
OVERALL LENGTH	19'8"
DRY WEIGHT	3030 Lbs.
CENTER OF GRAVITY	48"
SLEEPING CAPACITY	Up to 4 Adults

A Classic Gets Better.

The 1181 has long been a Lance favorite. With its full-wall slideout and dinette, spacious dry bath and generous kitchen area – all bathed in natural light – it's no wonder why. If you've always admired this truck camper – now is your time.

For 2013, the 1181 gets richer wood, raised panel glazed doors, designer fabrics and all LED lighting in and out. The exterior features high gloss fiberglass and is finished off with an all-new aerodynamic nose cap. Go ahead. Your 1181 is waiting.

FLOOR LENGTH	11'6"

Fun to Go.

From end-to-end the 1191 is a families dream. In standard form, it sleeps up to five in the spacious overhead cab, "Super Slide" dinette and fold down bunk. With the optional fold-down tent bed, you've added a guest room for another couple or the best fort a couple of kids ever dreamed of.

Of course there's plenty of storage and room to cook a meal. The dry bath is welcome after a long days' adventure. Hit the road in an 1191 and you may never come back.

Eco Green

The Lance Standard for being Eco Green delivers the highest commitment to being Green possible.

The commitment began with visionary management committed to having every element of the operation contribute to the green effort. To that end, Lance began by building a state-of-the-art 141,000 square foot campus that features “smart buildings” — buildings that utilize natural light, meter heating and air conditioning office-by-office and are tied into the power grid to participate in power savings programs. Even the lighting is intelligent.

Lance searches the globe for the best materials available. Lance products feature Azdel™ which replaces wood in the structure. It's also lighter and has exceptional insulation properties saving on heating and air conditioning needs. Lite-ply™ not only makes for superior wood work, it's farmed from renewable resources to avoid deforestation.

Every glue and cleaner Lance uses meets or exceeds the highest standards possible — and that's saying a lot in California where the standards are the nations' toughest.

In production, the engineering is so advanced that computers use CNC routers to get the most out of every sheet of product for minimal waste. At the end of a production day, Lance produces less waste than just about any RV manufacturer — and most of ours is recycled.

But it doesn't stop there. Lance products have always been made better. Built since 1965, many Lance products are still in service which means they are having little impact on landfills — but rather continuing to perform their intended task...camping.

And for 2013 all Lance products are mercury-free. Yes, it costs more to provide you with a safer RV and protect the environment — but at Lance — it's how we do business. Even our literature is printed on FSC (Forest Stewardship Council) approved paper which uses recycled products protecting our forests for generations to come.

At Lance, our Eco contribution is attuned to the breath of Mother Earth — conforming to nature rather than the other way around.

The Lance Look

You've always known Lance for our engineering. Now you're going to be equally impressed by the décor of our products. We brought in a professional interior design group to create the perfect Lance for 2013. Our requirement was that it had to be

timeless, rugged and stylish.

You'll find beautiful new woods, wall treatments, and three fabric combinations so beautiful that choosing one will be a challenge. So take your pick. Whatever your choice — it's 100% Lance — designed by campers, for campers.

Environmentally Friendly **from the Ground Up.**

4 Seasons All Weather Package

Do you really want to truly get away from it all? Well you can with the Lance Four Seasons Certified option. You'll stay cooler in the heat, and remain toasty and safe down to below freezing temperatures.

When your Lance Camper is equipped with the 4 Seasons All Weather Package, you'll be "extreme weather ready". So while other campers have their RVs in storage – you'll be enjoying the wilderness all year round.

Some of the features that earn the prestigious 4 Seasons badge include:

Go ahead. Get away. Far, far away.

A dual stage 15,000 / 22,000 BTU furnace not only keeps you warm in sub-freezing temperatures – Lance is the only camper to feature this quiet-running furnace that burns less fuel by automatically selecting how much heat is needed.

Lance features an advanced ducting system for heat distribution. Unlike many other companies, Lance spends a lot of time engineering exacting routes so that you won't have hot or cold spots in your camper. Instead, the temperature is even throughout. The holding tanks are part of this system which is unique to Lance camper products.

Dual pane windows are proven in their insulating properties. Not only do they increase the "R" value, they look great and offer more sound proofing over standard windows. The dark tint also repels heat and protects interior fabrics.

The water heater features a bypass and winterizing valve to make storing of your camper easy. This feature protects your system for optimal performance and longer-life.

Further improving insulation is the use of Azdel™ which is a Thermoplastic Composite product that eliminates wood from Lance camper walls. As a result, rot, mold and mildew are all but eliminated while simultaneously increasing the "R" value and sound proofing.

Selected Standard+Optional Features

Remote Control jacks and slide room control make set-up and loading a breeze

Insulated Hatch Covers snap in place to block weather as part of the 4 Seasons package

Slide-Out Pantry allows easy access to stored goods with adjustable baskets

Back Up Camera is your electronic rear view mirror making your journey safer

Roof Rack System is frame mounted to carry more gear with optional components such as a storage pod

Cargo Net doubles your storage space while making the bunk bed kid-safe

Aerodynamic Nose Cap for 2013 is made of TPO – the same material used for bumpers on automobiles. Its high gloss finish is resilient and resistant to the abuses of the road. And it's slick surface makes it easier to clean. (Selected Models)

Enclosed Insulated & Heated holding tanks are standard on all Lance Truck Campers

Exterior BBQ Hook-Up makes grilling fast, safe and easy at the campground

Heki Skylight is dual pane with sun-screen and privacy shade for ventilation or escape

Propane Generator for charging your batteries, running the A/C or other 110 volt devices

True 3-Way Refrigerator allows operation from 12 volt, propane or 110 volt sources

LED Lighting reduces power usage saving battery power and is eco friendly

Battery Separator lets your truck charge your camper batteries while driving

Black Tank Flush is a sprayer hookup for thoroughly cleaning your holding tank

iPod Connector allows your Apple™ devices to connect with your RV stereo system

A Satellite Dish keeps you connected. Choose the one that suits your needs

Skylights with retractable shades create an open, light and roomy feel

Solar Power gives your batteries extended life when you're living off the grid

Tent Option adds room for 2 with the amenities of a camper and the feeling of being outdoors

Lance Design and Construction. **The Legacy of Quality Begins Here...**

The slick fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free service.

The roof is made of energy-star rated TPO with vents that clamp into place eliminating screws and potential leaks. Integrated rain gutters and drip spouts keep the sides of your coach cleaner and prevent streaking.

Lance uses more expensive Azdel™ in place of Luan wood virtually eliminating mold and mildew. It's also lighter and has a better "R" value for superior insulation.

With an aluminum framed superstructure, the entire camper fits together like a perfect puzzle.

"LanceLock™" features interlocking aluminum extrusions to connect all exterior panels.

All seals use an anti-wicking material to prevent moisture from transferring into the laminate walls.

Interiors are constructed of Lite-Ply™ which Lance imports from Europe. This superior product is lighter and stronger providing both beauty and durability.

Rigid block foam insulation fits tight to resist sagging and promotes structural strength.

Beautiful and aerodynamic, the all-new nose cap for 2013 is made of TPO, the same material used for bumpers on automobiles. Its high gloss finish is resilient and resistant to the abuses of the road. And it's slick surface makes it easier to clean. (Selected Models)

3D advanced CAD engineering creates precise plans that run CNC machinery. The result is that every part is perfect every time.

Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

...and goes on the road with you.

Dealer+Installed+Support Equipment

Lance recommends Reese towing products.

When not towing loads that require an extended hitch Reese's Tow Beast system includes a **Reducer Sleeve**, which you use to reconnect the hitch ball and draw bar to the receiver hitch

The 48-inch Reese Tow Beast Class V Hitch Box Extension ("tow bar") is constructed with a heavy steel tube inside another steel tube – welded together – to dramatically increase strength and towing capacity

2

Wireless Rear-View camera/monitor maximizes safety

8

Lance-Exclusive Cabover Shocks ("cabover struts") have quick-release stainless steel connectors

5

Within Air Lift's Super Duty Air Springs ("air bags") are the Lance-exclusive internal jounce bumpers – which gradually cushion the suspension of the air springs as they approach the end of their jounce travel

4

Happijac Qwik-Load Turnbuckle Upgrades make anchoring your camper a snap.

- 1 **Reese® Tow Beast™ Class V Hitch/Extension System** increases your towing capabilities over your truck's factory-stock hitch
- 2 **Wireless Rear-View Camera/Microphone and 7-Inch In-Cab LCD Monitor** lets you see – and hear – what's behind you
- 3 **Happijac® Frame-Mount Anchoring System and Front-Mounted Centering Guides** assist with center alignment within the truck bed
- 4 **Happijac Qwik-Load™ Front and Rear Turnbuckles** safely and securely attach and anchor the camper to your truck
- 5 **Air Lift® Super Duty™ Air Springs** ("air bags") increase stability and levels the rig by transferring rear axle load forward
- 6 **Rancho® RS-9000X™ Front and Rear Shocks** greatly improve ride in all weather and road conditions
- 7 **Air Lift Wireless Air™ In-Cab Remote Control** controls the air compressor and pressure for the air springs ("air bags")
- 8 **Lance Custom Design™ Cabover Shocks** ("cabover struts") reduce the impact of up-and-down motion from irregular roads
- 9 **Rear-Mounted Centering Guides** assist in positioning your camper within the truck bed, and are available for most truck models

WEIGHT CARRYING/ TONGUE WEIGHT		WEIGHT DISTRIBUTION/ TONGUE WEIGHT	
TOW CAPACITIES (IN POUNDS) FOR THE LANCE MODEL REQUIRING ONLY A REESE TOW BEAST CLASS V RECEIVER HITCH			
Lance 850	12,000/1200	14,000/1400	
TOW CAPACITIES (IN POUNDS) FOR LANCE MODELS REQUIRING BOTH A REESE TOW BEAST CLASS V RECEIVER HITCH AND HITCH BOX EXTENSION			
Dealer modifications required. Consult your Factory Authorized Lance Dealer for professional technical advice and proper equipment installation. A universal heavy-duty 34" or 48" factory-stock Reese extension is cut down by a technical service professional to fit your particular application.			LENGTH OF CUT EXTENSION
Lance 825 Lance 855 Lance 855S Lance 865 Lance 950S Lance 992	6000/600	8000/800	34" extension cut to 24"
Lance 1050S Lance 1172 Lance 1181 Lance 1191	5000/500	7500/750	48" extension cut to 41"

All above weights, dimensions and capacities are approximate values – and subject to change without notice. All measurements are based on an 8.75-inch standard drop ball mount. Some capacities may vary depending on vehicle application. **Be safe – always consult with your Factory Authorized Lance Dealer beforehand.**

When towing items behind larger Lance camper models, extending the hitch from the truck rearward to the camper bumper is necessary. (See chart at left for towing capacities of all models.) The method Lance recommends involves a truck-mounted Class V receiver hitch and hitch box extension. A draw bar with hitch ball is inserted into the hitch box extension, the same way it would be inserted into the receiver hitch itself.

Reese manufactures the Tow Beast Class V receiver hitch and hitch box extension specifically for truck camper applications. It replaces standard truck factory-stock receivers to allow for greater towing capacity over factory-stock hitch systems. The other important benefit is that Reese Tow Beast Class V systems don't require you to attach the receiver hitch or box extension to the camper.

Always observe your truck's tow ratings. Follow the advice of your Factory Authorized Lance Dealer. Their service teams have the knowledge, experience and skill to outfit your rig correctly.

Truck+Camper Compatibility Guide

These are general guidelines to use when matching a Lance camper to your truck and assumes standard equipment on both the truck and camper. Whether any camper can be used with your truck is dependent on your truck configuration (2WD vs. 4WD, standard cab vs. extended cab, etc.) and its capacities for carrying and /or towing – how much optional equipment is added to the camper – what you tow – and the weight of passengers and all other items you carry in your truck and camper. And because we're unfamiliar with your specific truck and how you intend to use it, Lance makes no warranties or representation – express or implied – as to performance or reliability of your truck with a Lance camper. For professional guidance, always consult with your Factory Authorized Lance Dealer. They're trained in properly calculating truck/camper rigs.
