

Experience the  
True Meaning of Freedom

**Leisure**  
TRAVEL

*Leisure Travel's innovations and options provide you the opportunity to select the perfect motorhome to meet your lifestyle requirements. Our commitment to personalized service is your guarantee to make your journey the ultimate RV experience.*

# Travel More & Enjoy More with Leisure

**Celebrate with us** We at Leisure Travel Vans are proud of our heritage. Starting in the small Mennonite community of Gretna, Manitoba, Canada 25 years ago, it was the development of our Freedom Wide Body motorhome 10 years ago that truly began the trek to becoming an internationally known company. We have only begun, and are pleased to offer our most exciting product yet, with more exciting product to come.

**Comfort, space, quality, and safety** Each Freedom model is uniquely different, yet each share these four key characteristics. Through careful planning and efficient use of interior space, Leisure's engineers have been able to design a complete home on wheels in a package less than 20 feet long. Inside you'll find functional beauty, quality craftsmanship, and a host of safety features – everything you need for a great getaway.

# Built to Last

**Only the best** For 25 years, Leisure Travel has been using the Dodge Ram Van chassis that provides the greatest amount of interior space for a Class “B” motorhome. The unibody construction offers the flexibility to create the most versatile units possible, while providing the necessary framework to maintain structural integrity. Each chassis has been equipped with power operated mirrors, windows, and doors, remote keyless entry and security alarm, the premium AM/FM/Cassette/CD player with equalizer, and rear anti-lock brakes, all of which provide the convenience and quality you’d expect from a luxury motorhome.

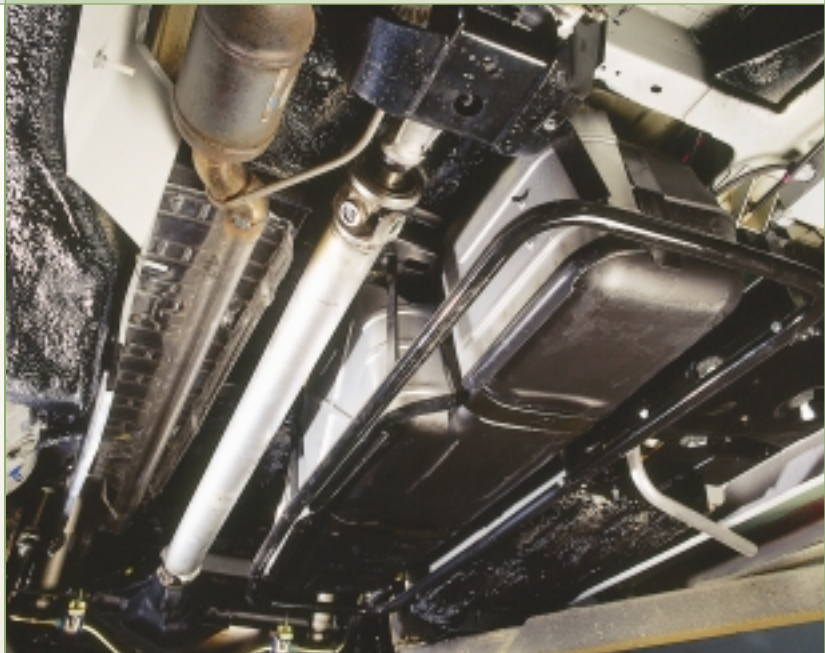

**Uncompromising detail** Consistent quality is achieved in all Leisure motorhomes through keen attention to detail – inside and out. Cabinetry, upholstery, and flooring look better and last longer because of the uncompromised materials we use. Our thermal wrapped counter tops featuring rolled edges, along with the little extras like the thermostatically controlled Fan-Tastic Vent, make the environment feel complete.

**We care about what you can't see** Under every Leisure Travel Van you'll find foam insulated holding tanks and a rubber based undercoating. Designed to protect components from the elements of the road and weather, these features also serve to give you a quieter ride. Units equipped with the dropped floor have the added advantage of a lowered center of gravity provided by the lowered fuel tank with heavy duty guard.

**Simple solutions** City hook-up connections for water, electrical, phone/internet, and cable TV are all conveniently located behind one of the exterior locking compartments. A bypass valve enables you to fill your fresh water tank without disconnecting the city water.

**Logical choice** The optional generator can be installed in the front storage area behind the driver's side door – away from the rear of the coach so you can enjoy peaceful meals and a restful night's sleep.

**Refreshing features** Flush mounted awning style coach windows feature a sturdy single knob crank-out system for improved durability and easier operation. A standard screen insert is also included to keep the bugs out.

**Unrivaled Strength** Through the utilization of a structurally reinforced roof, aluminum frame rails, and aircraft bonding agents, Leisure Travel offers you integrity and durability beyond others.

**Quality and integrity** Our composite reinforced fiberglass roofs utilize the latest technologies and manufacturing techniques to ensure we exceed safety regulations. Lower exterior bodywork features dropped step entry and storage compartments accessed through durable, reinforced doors – with 2-way stainless steel locks utilizing a master key for convenience. The Freedom features fiberglass body panels that won't dent or rust and provide superior strength characteristics.

# Space and Comfort

**Relax and enjoy the ride** Since you may be on the road for weeks or months at a time, your comfort is paramount. While driving, quality Flexsteel™ captain's chairs provide support and adjustability for hours on the go. The insulated and reinforced floors, walls, and roof, along with the smooth exterior profile featuring recessed components, serve to ensure a quiet journey.

**Come inside and move about** Our engineers have utilized every inch of usable space possible. Everywhere you look, you'll recognize there are no wasted areas. Headroom is abundant with up to 6'4" of clearance, and thanks to our front mounted entertainment console and dove-tailed roof design, our spacious center aisle way is unrivaled in the industry. There are no overhanging or protruding cabinets, just an openness that makes you wonder where all the room came from.

**Detail oriented** Our overhead cabinets have special hinges installed to permit their opening beyond 90 degrees. Attention to the small details like this makes a huge difference when accessing the storage – you'll avoid bumping your head on the doors.

**Store more** Easily accessible through the large single rear door is an open storage area, and our unique basement storage that can also be accessed through two outside doors. You're afforded enough room to store golf clubs, fishing poles, lawn chairs, your barbecue, and more.

**Convenient features** Choose the model that suits your needs. Each Leisure Travel Van has been carefully thought out to maximize available space. The cabinet space under your sink features a light plus this handy garbage holder.

**Intelligent design** Everywhere you look, witness the thoughtful design in components that provide form and function. Careful consideration has been given to maximize the space by utilizing components that fold out of the way when not in use.

**Lap of luxury** Flexsteel™ captain's chairs on swivel pedestals are standard in every Leisure unit. Our Anniversary Edition features the Ultraleather™ seating, and includes dual power adjustable seats.

**Sleep tight** In the evening, pull down the blinds and turn on the lights. Wherever you are or whatever your plans, you'll appreciate our plentiful and well placed lighting. When it's time for bed, our flexible sleeping arrangements using dual-density foam cushions will assure you a restful sleep.

# Freedom Anniversary Edition

**Set yourself apart** Share in our history, with this uniquely appointed luxury coach. The Freedom Anniversary Edition (AE) has been created to help us celebrate a tandem anniversary. Leisure Travel Vans celebrates our 25th year since the company started its operations in the small town of Gretna, Manitoba, Canada, and 10 years since the first Freedom Wide Body was born.

We have spared no detail in preparing a motorhome to distinguish it from all others. Starting with our Freedom 2A model, we have inserted a professionally designed décor that utilizes soothing tones and textures. The use of Ultraleather™ throughout, and a warm wall vinyl/interior trim matches up perfectly with the Cinnamon Maple Cabinetry. We've added virtually our entire options list to further set you apart as the one who has it all.

This unit will be released in limited numbers in the winter of 2002, so inquire today, because they won't be around long!

**Convenience in a closet** Our engineers designed the 2A bathroom to have it all in a space that didn't compromise the aisleway and cabinetry storage.

**Unrivalled flexibility** Thanks to the standard electric rear sofa/bed, each Freedom 2 sleeper model offers you the flexibility of three sleeping arrangements that can be converted in seconds. In the King bed configuration you may choose to sleep lengthwise or across the coach, or you may choose the twin bed option.

**Attention to detail** The dual power operated Flexsteel™ front seats feature lumbar support and adjustable armrests. Add to this the wooden dash and door panel inlays to create a driver's cockpit that sets you apart.

**Feel the comfort** The warm interior colors, and supple Ultraleather™ offer a truly unique environment. Entertainment options are endless with your 15" Flat Screen TV, with both DVD and Video Cassette Player.

Every Freedom uses quality 3-way Dometic Refrigerators.

### Freedom Anniversary Edition

*Shown in Pewter with Cinnamon Maple cabinetry.*

# Imagine the Freedom

**Live life to the fullest** The Freedom 2A is our most popular floorplan, and it's no wonder why. It's designed to provide a large unobstructed sleeping/dining arrangement in the rear with maximum kitchen cabinetry and storage areas. By incorporating a dropped floor, this unit offers 6'4" of headroom, and an aisle shower for the most usable shower space in a Class "B" motorhome. Enjoy the room afforded by the carefully constructed cabinetry including a large wardrobe closet, slide-out pantry, and easily accessible overhead shelves.

Although designed to sleep two people, the standard electric rear sofa offers you the convenience of carrying three additional passengers thanks to the forward mounted seat belt positions offered. This same sofa conveniently and quickly converts to a bed, or can be reclined to relax while watching TV or reading that favorite book.

**Convenient features** The Freedom 2A offers the greatest amount of cabinet space – including the option of a microwave or convection oven, as well as providing ample dish storage, a large utensil drawer, and a convenient pantry below.

**Unobstructed sleeping area** There are no worries about bumping your head in the King Sized sleeping area of your Freedom. When sleeping across the coach, you get a maximum of 80" of bed length.

**Company coming?** Invite them in, there is room for everyone. The rear dining/sleeping area comfortably seats four adults for a meal or evening of socializing.

**Endless storage** Another example of how our engineers find more storage is this unique storage bin inside the rear of our dove tailed roof.

**Your complete kitchen** Plenty of counter space and well-placed amenities make food preparation easy. Consider the optional coffee maker and microwave to complete your kitchen.

## Freedom 2A

*Shown in Sage with European cabinetry.*

# Embrace the Freedom

**Discover the difference** Fashioned after the 2A model, the 2B shares the design concept of creating a large unobstructed sleeping/dining arrangement in the rear with maximum kitchen cabinetry and storage areas. To set them apart, we have created a larger private bathroom. By turning the bathroom sideways and coming partially into the aisle, the 2B provides a wet bath, while enabling the aisle-way to remain open.

The 2B still retains the King Sized sleeping area, as well as the same kitchen conveniences, a large wardrobe closet, and a slide-out pantry. Combine this with the flexible entertainment options available in all Freedom models, and you will get lost in comfort for days on end.

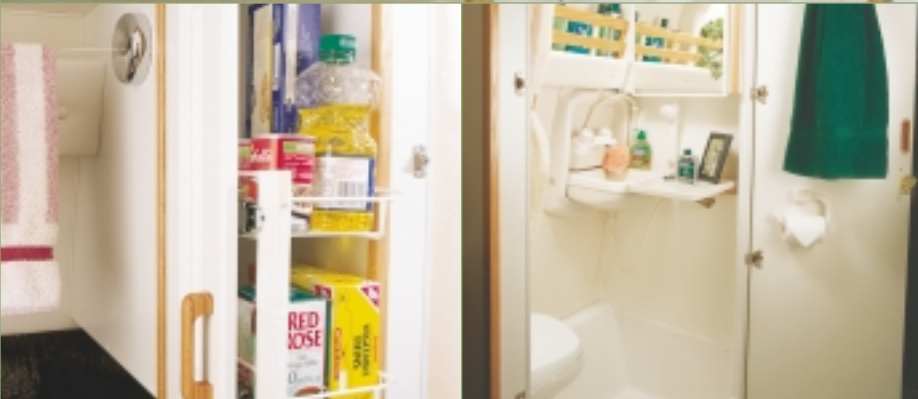

**Room to spare** Unique to all Freedom models is this large basement storage compartment that is accessible through the single rear door, or side entry compartments.

Like other Freedom models, the 2B offers ample wardrobe storage.

**Convenient sleeping** The flexibility of the standard rear electric sofa provides easy conversion to twin beds, without worrying about where to store the cushions. During the day, you can carry three additional passengers thanks to the seat belts and forward facing seating.

**Details, details** Plenty of counter space and well-placed amenities make food preparation easy. Slide-out pantries conveniently store your non-perishables and are within a short reach of your kitchen to make food preparation a snap. As an added feature, every Freedom comes equipped with a retractable clothes line.

**Added privacy** To maximize space in the private bath of the Freedom 2B, Leisure engineers utilized innovative ideas like a flip-down counter top and our flip-up sink. Add to this a large medicine cabinet and the upper storage railing and the room is endless.

## Freedom 2B

*Shown in Moonstone with European cabinetry.*

# Experience the Freedom

**Every destination is yours** The Freedom 4M is the most universal “wide body” motorhome in the Leisure line-up. Its impressive spaciousness and modular design concept translates to the most comfortable getaway from the everyday.

With seating for seven and sleeping arrangements to accommodate as many as four people, this is the ultimate SUV. For a short day trip to a ball game, or for taking everyone on a shopping trip, this package has everything you need. Just pop in a movie and entertain as you go.

For longer excursions, you can choose how you appoint your Freedom 4M as modular alternate cabinets have been designed to interchange with the mid-ship seats. You also have the ability to custom tailor your unit at time of order to match your respective sleeping and storage requirements.

**Well-planned** Ingenuity shows itself through an aisle shower with sliding privacy doors that double as bedroom partitions at night and a flip-up sink.

**Strength and versatility** The electric rear sofa and mid-ship lounge seats/beds all feature sturdy steel frames and seat belts meeting the Federal Motor Vehicle Safety Standards. Designed with a bed spring support and finished with dual density foam and a high quality fabric, these seats are both comfortable and versatile for your seating and sleeping requirements.

**Room for the whole family** With the push of a button, the electric rear sofa quickly becomes a double bed. Considering the twin beds up front, there is room for everyone.

**Experience the room** There is plenty of Freedom to move about thanks to our roof design and front overhead console.

**More options than ever** Order alternate cabinets in lieu of the mid-ship seats, or as an extra option that provides you a modular approach to traveling with the Freedom 4M. The kitchen extension provides the flip-up counter and the use of a double door for exterior access, and the large armoire with double drawers is available for the driver's side.

# All in a Day's Work

**We work hard for you** At Leisure Travel we recognize how hard you have worked to achieve the opportunity to invest in one of our motorhomes. Every detail from start to finish is checked and double checked to insure your motorhome will give you years of lasting enjoyment. That means you deserve uncompromised quality, and this is something that our employees strive for every day. Everyone takes pride in their workmanship, with the attitude that you deserve the best!

**Come see us** Our plant is located in beautiful Morden, Manitoba, Canada, home of the Corn and Apple Festival the last weekend of August every year. Come whenever, we are open for plant tours Monday through Friday (except Canadian Holidays), at 10:30 AM and 2:30 PM. We will give you as much time as you desire to get to know us and our products better, but we ask that you call ahead so we can be sure to accommodate you.

# Happy Trails

Maintaining a connection with owners is a key element in Leisure's program to continue improving our vehicles – to make sure we remain a step above in terms of quality and features.

**In working to keep in touch with owners, Leisure became more than a company, we developed a community.** Over the years, we've come up with some great ideas on how to help people get the most out of their purchase. In the process, we've had a hand in the formation of new friendships.

Once a year, we organize an owner's rally – a fun way for Leisure motorhome owners to meet and learn more about the possibilities of travel. Over a weekend, we hold seminars to better familiarize you with operations and maintenance of your motorhome, offer information on

trip planning, invite you to tour our factory, and provide some great family entertainment. For those who have the time to truly embrace the RV lifestyle, Leisure offers guided caravan tours in conjunction with recognized caravan operators. Travel in a group and explore different regions together. Trips vary in length and destination.

Leisure's popularity has also resulted in the organization of regional chapters. It's your chance to share travel stories with neighboring Leisure customers. You'll be surprised to discover how many Leisure owners there are out there – just like you.

# Take Leisure Further

Leisure is committed to providing you uncompromising value for your investment. Along with our warranty, we are always searching for ways to further improve upon our motorhomes – whether it be adding additional features or pursuing new innovations to help make life on the road even easier.

**Leisure Travel Warranty** Leisure Travel Vans offer a three-year or 36,000 mile or 60,000 km limited warranty covering all craftsmanship entailed in the manufacturing of the motorhome only. This does not include the chassis or appliances.

**Appliances** Appliances are covered by the individual warranties offered by their respective manufacturers.

**Chrysler Warranty** Basic warranty coverage spans three years or 36,000 miles or 60,000 km. Roadside Assistance is included for three years or 36,000 miles or 60,000 km. Rust-through Corrosion Coverage extends seven years or 100,000 miles or 160,000 km. For complete warranty coverage please refer to DaimlerChrysler warranty handbook.

This combination of labels assures the purchaser that the manufacturer has met or surpassed RVIA-CRVA-CSA standards covering electrical services, gas services, and vehicular safety.
