Signature 2004

FLOOR PLANS

TRIPLE E QUALITY

Unparalleled craftsmanship

Signature 2004 is located in the centre of Canada, in one of the most extreme environments in North America. Customers can thus be confident that our products have truly been put to the test in all kinds of elements.

Much of what you see in our products is built to our highest standards. In our plant you'll find an experienced, precision production facility complete with welding shop, paint shop, and finish shop, sewing department, and cabinet manufacturing department.

Signature 2004 was one of the first RV manufacturers to obtain the ISO 9002 certification. As a result of this detailed construction and high quality materials, all Triple E products are built to CSA (Canadian Standards Association) and RVIA (Recreational Vehicle Industry Association) Standards. Triple E was one of the first RV manufacturers to achieve the ISO 9002 certification.

COACH NET

Triple E is a proud partner of Coach Net, an extensive support program providing complete and fully paid roadside assistance, emergency road service, and special warranty support benefits that follow you throughout Canada and the US. Service is free for the first year of ownership and available at a nominal fee for subsequent years.

Coach Net's 24-hour Customer Care includes:
• Emergency roadside assistance - including tow vehicle
• Toll free technician hotline for operation and service support
• Toll free nationwide service appointment assistance
• Free custom trip routing and colour maps
• Warranty service at over 6,800 locations throughout North America
• Benefits such as free jump starts, tire changes, fuel delivery, and lock out service

Brochure pictures may be shown with optional equipment.

Washer/Dryer (vented)

Unlimited weight of towed vehicle, factory with full fuel, engine oil, etc., that can be carried by this motorhome. The GVWR is maximum permissible weight of this motorhome. The GVWR is equal to or greater than the sum of the NCC and the gross weight of the towed vehicle. NCC is equal to or greater than the sum of the GVWR minus UVW.
Room to Roam

More than a motorhome, the 2004 Signature is a statement about your lifestyle and your freedom.

Gleaming hardwood flooring in the galley, ultra leather captain's chairs, a shower skylight – these are a few examples of the caliber of standard features you'll find.

Other standards, new for 2004, include:
- VCR
- Water purifier faucet in galley
- Rearview camera/monitor mounted in dash

With its top quality furnishings, rich décor, and ideal usability, it's hard to believe a home of this magnitude is on wheels.

For more information on the Signature's features, visit www.tripleerv.com.

1. Standard Ultra Leather Captain's chairs make for a plush living area when off the road.
2. No need to live out of a suitcase! The bedroom features a spacious double door closet to store your wardrobe.
3. The new wood panel sliding door provides total privacy for the bath and shower area.
4. The optional refreshment centre cabinet is available in 3 or 6 bottle configurations - depending on your floor plan.
5. An oak vanity and shower skylight are just two of the features of the lavatory.
6. The Signature's baggage door makes it easy to store and retrieve large items.
You are able to customize your motorhome with one of four distinct interior design schemes. Developed by a group of professionals, our combinations skillfully coordinate upholstery, carpeting, window treatments, and exterior graphics in a manner that is both especially pleasing to the eye and of uncompromising quality.

Optional Exterior Full Body Paint Colours
- Ocean Mist (shown above)
- Champagne
- Bamboo
- Hillside Heather

Standard Paint Colours
- Charcoal Mist
- Desert Plum

For more information on the Signature’s features, visit www.tripleerv.com.

Colours may not be exactly as shown due to the printing process. Please see your dealer for specific colours.
CONSTRUCTION

The major considerations in building a top quality motorhome are long lasting beauty coupled with the ability to stand up to any weather conditions. The coach is an aluminium and steel framed structure with vacuum bonded gel coat fibreglass sidewalls and a domed Sunguard FRP Flexroof.

INTERIOR COMFORT AND EXTERIOR PROTECTION

Born of our northern heritage, Triple E’s exclusive Climate Guard® system is quite simply the best interior comfort and exterior protection package available in the recreational vehicle industry today.

The Climate Guard® system has been developed with today’s motorhome enthusiast in mind. It provides year round climate controlled comfort for passengers as well as built in protection for the motorhome itself, ensuring years of trouble free operation and enjoyment.

INTERIOR COMFORT

- Dometic® roof air conditioners, ducted front to rear, control the temperature throughout the coach.
- High output chassis air conditioner provides travelling comfort.
- Electronic ignition furnace designed to maintain requested interior temperatures through extreme exterior temperatures.
- High output chassis heater for quick windshield defrost.
- A rear auxiliary automotive heater - complete with electric valve - makes travel comfortable while heating the fresh water and holding tank compartments.
- Vacuum bonded, aluminium framed, insulated sidewall and roof construction provides high strength and maintained warmth throughout the coach.
- Coach windows are designed with a dual pane construction - impeding the transfer of cold to make the interior of the window warmer and less subject to condensation.
- Optional insulated vent covers provide superior insulation for the fantastic fans and roof vents.

EXTERIOR PROTECTION

- Scratch and hail resistant gel coat fibreglass sidewalls with all weather exterior finish are easy to maintain and will not rust or pit.
- An insulated, Filon embossed Sunguard flexroof promotes quick water run off and reduces the noise of outside elements.
- Urethane undercoating protects against dust and moisture and reduces stone and road noise.
- Steel enclosed, fibreglass insulated and heated fresh water and holding tanks assure extreme cold climate performance for your plumbing system. Tanks are heated from two different sources: the motorhome’s ducted furnace while parked and the rear auxiliary heater when travelling.
- Winterization system complete with potable antifreeze pickup kit allows you to easily drain tanks and fill water lines with potable antifreeze.
- Steel, insulated, and sealed firewall protects the driver and passengers from the outside elements.
- Additional 1/2” thermal break insulation beyond the standard 1” Styrofoam block insulation separates the climate controlled interior from the outside elements.

Visit Triple E online at www.tripleerv.com.

**Floor** [Exterior to Interior]

1. One Piece Woven Polypropylene Underbelly
2. 3/8” Plywood

### Notes

- Built into the stylish front entertainment center is a trickling water system for the console and sink. Available in oak or maple.
- For added storage and flexibility, opt for the stand-alone table and chairs instead of the fixed dinette.
- Available in oak or maple.
COME HOME TO FREEDOM

Inspiration is everywhere across this great land. All you have to do is find it!
Unparalleled craftsmanship

Signature Motorhomes are the very epitome of luxury and style. Each and every component is designed and manufactured to the highest quality standards. All materials are selected for their durability and capability to stand up to the rigors of the road.

Signature Motorhomes are built to the highest possible standard. We are proud to offer a 2 YEAR LIMITED WARRANTY on structure as well as most major components. Please ask your dealer for further details.

Signature Motorhomes exceed 96 inches in width. In some states, 96 inches is the maximum width of vehicles travelling some or all state roads. It is the responsibility of the owner to be familiar with the road usage laws of the states in which you travel.

COACH NET

Triple E is a proud partner of Coach Net, an extensive support program providing complete and fully paid roadside assistance, emergency road service, and special warranty support benefits that follow you throughout Canada and the US. Service is free for the first year of ownership and available at a nominal fee for subsequent years.

Coach Net’s 24-hour Customer Care includes:

• Emergency roadside assistance - including tow vehicle
• Toll free technician hotline for operation and service support
• Toll free nationwide service appointment assistance
• Free custom trip routing and colour maps
• Warranty service at over 6,800 locations throughout North America
• Benefits such as free jump starts, tire changes, fuel delivery, and lock out service

Brochure pictures may be shown with optional equipment.

• Benefits such as free jump starts, tire changes, fuel delivery, and lock out service

Brochure pictures may be shown with optional equipment. Full of possibilities. Full of life. View the entire family of Triple E products at www.tripleerv.com.

Unparalleled craftsmanship
Triple E is located in the centre of Canada - in one of the most extreme environments in North America. Conditions can be harsh, but we control the variables that are out of our control. Most of your Triple E products include or are to our highest standards in our plant such as for an expression, precision production facility complete with welding shop, paint shop, trim shop and upholstery department, and cabinet manufacturing department.

Structural integrity and durability are critical in every aspect of production - in the welding of frames, for example. Cobaltite is constructed with copper lined rigid tubing. It is the little things that make a big difference. All Triple E products are built to CSA (Canadian Standards Association) and RVIA (Recreational Vehicles Industry Association) standards. Triple E was one of the first RV manufacturers to obtain the ISO 9002 certification, which assures your assurance of the craftsmanship and high quality materials that are part and parcel of every Triple E unit.
