2

Kitchen clean-up is faster and easier thanks to the optional built-in dishwasher.

Holiday in style.

Empress Elite is the cream of the crop of Triple E's deluxe recreation vehicles, boasting unparalleled design quality, deluxe comfort, distinctive furnishings and spacious floor plans. Powered by a mighty Cummins ISL 400 HP Diesel Engine on a robust Freightliner Chassis with independent front suspension, this model provides the driver with worry-free handling while passengers savour a quiet, smooth ride. With Empress Elite, don't be surprised if you enjoy the journey just as much or more than your destination.

The optional Danish Walnut cabinetry's classic rich finish adds warmth to your living space. Egyptian Sands Décor shown.

Turn out the light and sleep tight in this residential quality queen-sized bed, completely furnished with a decorative bedspread, matching throw pillows and a stylish, wood-accented headboard.

Make a reservation tonight at that cozy out-of-the-way place! The dining area's extendable solid surface table is complemented by wood-accented window treatments and pleated day/night shades.

- Danish walnut cabinetry
- Adjustable gas and brake pedals
- Rear view and side-turn cameras
- Keyless entry front entrance door
- Onan 8 KW quiet diesel generator with auto start system

Empress Elite is where casual elegance meets modern-day convenience. The generous living space and open-design galley area is as impressive as it is inviting, enhanced by optional natural cherry cabinetry. Egyptian Sands Décor shown.

The wraparound cockpit is designed to give the driver comfort, convenience and total control behind the wheel.

The traveling gourmet has plenty of room to cook in this spacious galley, featuring a solid surface countertop, slide-out counter extension, heated tile flooring and a 12-cubic foot stainless steel fridge with ice maker.

Subtle sophistication is evident in such accents as the galley's oil-rubbed bronze fixtures, stainless steel sink and solid surface countertop.

Restful and stylish, the master bedroom offers a large, cedar-lined wardrobe closet, plenty of drawer storage and a 20" LCD TV for your enjoyment.

Entertain outdoors with the optional exterior stereo and 20" LCD TV – on an extendable/swing-out mount in the extra-large exterior storage compartment.

The optional, space-saving washer/dryer combo is neatly tucked into the master bedroom.

6

www.tripleev.com

With a quick swivel of the sumptuous captain's chairs, the cockpit easily converts into a homey living area suitable for entertaining guests or for enjoying some quality relaxation.

The Empress bathroom is just as thoughtfully designed as the larger living areas, with its spacious medicine cabinet, oil-rubbed bronze fixtures, solid surface countertop and basin.

INTERIOR COMFORT AND EXTERIOR PROTECTION

Born of our northern heritage, Triple E's exclusive Climate Guard® system is quite simply the best interior comfort and exterior protection package available in the recreational vehicle industry today. The Climate Guard® system has been developed with today's motorhome enthusiast in mind. It provides year round climate controlled comfort for passengers as well as built in protection for the motorhome itself, ensuring years of trouble free operation and enjoyment.

The major considerations in building a top quality motorhome are long lasting beauty coupled with the ability to stand up to all weather conditions. The coach is an aluminium and steel framed structure with vacuum bonded gel coat fibreglass sidewalls and a domed roof finished with a seamless FRP Flexroof.

INTERIOR

- Dometic® roof air conditioners, ducted front to rear, control the temperature throughout the coach.
- High output chassis air conditioner provides travelling comfort.
- Electronic ignition furnaces designed to maintain requested interior temperatures through extreme exterior temperatures.
- High output chassis heater for quick windshield defrost.
- A rear auxiliary automotive heater – dashboard control switch – makes travel comfortable while heating the fresh water and holding tank compartments.
- Vacuum bonded, aluminium framed, insulated sidewall and roof construction provides structural strength and maintains warmth throughout the coach.
- Coach windows are designed with a dual pane construction – impeding the transfer of cold to make the interior of the window warmer and less subject to condensation.
- Optional insulated vent covers provide superior insulation for the fantastic fans and roof vents.

Floor

- 1 One Piece Woven Poly-Propylene Underbelly
- 2 Plywood (3/8")
- 3 Tubular Steel Framing (Welded)
- 4 Styrofoam Filled Wall Support Plates
- 5 Block Styrofoam Insulation (1")
- 6 Plywood (1/2")
- 7 Carpet Underlay
- 8 Carpeting (Floor covering)

Sidewalls

- 1 Seamless Gelcoat Fibreglass Exterior
- 2 Luan Structural Backer
- 3 Aluminium Framing (Welded)
- 4 Styrofoam Filled Floor and Roof Plate
- 5 Block Styrofoam Insulation (1")
- 6 Styrofoam Thermal Break Insulation (1/2")
- 7 Interior Decorative Luan Wall Panels

Roof

- 1 One Piece FRP Flexroof
- 2 Luan Backer
- 3 Aluminium Roof Truss
- 4 Block Styrofoam Insulation (1 1/2")
- 5 Enclosed/Insulated Climate Control Ducting
- 6 Block Styrofoam Thermal Break Insulation (2")
- 7 Plywood (3/8")
- 8 Padded Vinyl Headliner

EXTERIOR

- Scratch and hail resistant gel coat fibreglass sidewalls with all weather exterior finish are easy to maintain and will not rust, pit, or fade.
- A domed, seamless, insulated, one piece FRP Flexroof promotes quick water run off and minimizes exterior maintenance.
- Durable undercoating protects against dust and moisture and reduces stone and road noise.
- Steel enclosed, fibreglass insulated and heated fresh water and holding tanks assure extreme cold climate performance for your plumbing system. Tanks are heated from two different sources – the motorhome's ducted furnace while parked and the rear auxiliary automotive heater when travelling.
- Winterization system complete with potable antifreeze tank allows you to easily drain tanks and fill water lines with potable antifreeze.
- Steel, insulated, and sealed firewall protects the driver and passengers from the outside elements.
- Additional 1/2" thermal break insulation beyond the standard 1" Styrofoam block insulation separates the climate controlled interior from the outside elements.

GVWR (GROSS VEHICLE WEIGHT RATING)

The maximum permissible weight of this motorhome. The GVWR is equal to or greater than the sum of the unloaded vehicle weight (UVW) plus the net carrying capacity (NCC).

UVW (UNLOADED VEHICLE WEIGHT)

The weight of the motorhome as built at the factory with full fuel, engine oil, and coolants. The UVW does not include cargo, fresh water, LP gas, occupants, factory or dealer installed accessories.

NCC (NET CARRYING CAPACITY)

The maximum weight of all occupants, including the driver, personal belongings, food, fresh water, LP gas, tools, tongue weight of towed vehicle, factory and dealer installed accessories, etc., that can be carried by this motorhome. (NCC is equal to or less than GVWR minus UVW.) Please see your dealer for weights of factory installed options.
