Empress 2009 Let the Good Times Roll
Exult in the freedom of the open road in the awe-inspiring Empress. Our flagship coach is a true tour de force, an exhilarating fusion of superlative interior luxury, inspired design and outstanding drivability. The powerful Cummins ISL-425 HP diesel engine, mounted on a solid Freightliner chassis, will spirit you comfortably away to your next destination while you enjoy the abundant amenities, spacious interior and distinctive furnishings inside. And it’s all protected by Triple E’s exclusive Climate Guard® system, the best interior comfort and exterior protection package available in the recreational vehicle industry. So go and pursue happiness, wherever it may be, and enjoy the ride.

Completely redesigned for 2009, the Empress’s elegant galley is every chef’s dream, featuring all-new curved, finely detailed cherry cabinetry with rope inlay. While the 4-door 12 cu. ft. refrigerator with icemaker, water dispenser, and ignition lock, as well as the micro/convection oven feature a sleek stainless steel finish, the optional dishwasher features a cherry wood front. Halogen lights add ambiance to the luxurious living space.
Sleep in royal comfort in the massive residential style, premium quality optional king size bed (new option for 2009), complete with wood-framed, upholstered headboard. The decorative bedspread and matching throw pillows come in four distinctive décors which can be enhanced by adjustable intensity halogen lighting.

The ultra-leather upholstered Super Lounge, with its Karadon table and love seat, is cozy and versatile. During the day it serves as a dinette or coffee table with abundant seating. Come the evening, it folds down into an Easy Bed, perfect for watching the 42-inch LCD HD TV in the entertainment center.

Images on this page are of the A4005Q in Cole Harbour Décor with standard Natural Cherry wood finish.

A dual pane skylight brightens the new rounded shower enclosure with glass doors and the entire tastefully detailed residential style lavatory, which features curved cabinetry with rope inlay.
Ah, the finer things! Sit back and relax with the 42-inch LCD HD TV and home theater system in the new contoured entertainment center, accented by Karadon shelving. Also new for 2009, residential thermal pane solarium windows in the hallway bathe the entire living area in soul-satisfying natural light.

Here's all the creative atmosphere to let your good times roll. The fully equipped galley offers first-class functionality while the optional Washington Cherry solid wood cabinets with rope inlay and built-in halogen lighting deliver understated opulence.

5
New amenities lend the exquisitely appointed dining area a 5-star atmosphere. New for 2009, a heated floor covered in high-gloss porcelain tile with granite inlay. The tasteful, cantilevered wall mount table is complemented by 2 solid and 2 folding chairs. (Shown with additional optional solid chairs.)

In the galley, the oil-rubbed bronze fixtures (a deluxe single lever faucet with sprayer) accentuate the granite-look Karadon countertops.

Adding to the Empress’s self-containment, the bedroom features a pull-out laundry hamper next to the optional combination washer/dryer.

Comfort and Protection

Born of our northern heritage, Triple E’s exclusive Climate Guard® system is quite simply the best interior comfort and exterior protection package available in the recreational vehicle industry today. The Climate Guard® system has been developed with today’s motorhome enthusiast in mind. It provides year round climate controlled comfort for passengers as well as built in protection for the motorhome itself, ensuring years of trouble free operation and enjoyment.

The major considerations in building a top quality motorhome are long lasting beauty coupled with the ability to stand up to all weather conditions. The coach is an aluminium and steel framed structure with vacuum bonded GelCoat fibreglass sidewalls and a domed roof finished with a seamless FRP Flexroof.

INTERIOR
• Dometic® roof air conditioners, ducted front to rear, control the temperature throughout the coach.
• High output chassis air conditioner provides travelling comfort.
• Electronic ignition furnaces designed to maintain requested interior temperatures through extreme exterior temperatures.
• High output chassis heater for quick windshield defrost.
• A rear auxiliary automotive heater – dashboard control switch – makes travel comfortable while heating the fresh water and holding tank compartments.
• Vacuum bonded, aluminum framed, insulated sidewall and roof construction provides structural strength and maintains warmth throughout the coach.
• Coach windows are designed with a dual pane construction – impeding the transfer of cold to make the interior of the window warmer and less subject to condensation.
• Insulated vent covers provide superior insulation for the fantastic fans and roof vents.

EXTERIOR
• Scratch and hail resistant gel coat fibreglass sidewalls with all weather exterior finish are easy to maintain and will not rust, pit, or fade.
• A domed, seamless, insulated, one piece FRP Flexroof promotes quick water run off and minimizes exterior maintenance.
• Durable undercoating protects against dust and moisture and reduces stone and road noise.
• Steel enclosed, fibreglass insulated and heated fresh water and holding tanks assure extreme cold climate performance for your plumbing system. Tanks are heated from two different sources – the motorhome’s ducted furnace while parked and the rear auxiliary automotive heater when travelling.
• Winterization system complete with potable antifreeze tank allows you to easily drain tanks and fill water lines with potable antifreeze.
• Steel, insulated, and sealed firewall protects the driver and passengers from the outside elements.
• Additional ½” thermal break insulation in the wall beyond the standard 1” Styrofoam block insulation separates the climate controlled interior from the outside elements.

GVWR (GROSS VEHICLE WEIGHT RATING)
The maximum permissible weight of this motorhome. The GVWR is equal to or greater than the sum of the unloaded vehicle weight (UVW) plus the net carrying capacity (NCC).

UVW (UNLOADED VEHICLE WEIGHT)
The weight of the motorhome as built at the factory. The UVW does not include cargo, fresh water, LP gas, factory or dealer installed accessories.

NCC (NET CARRYING CAPACITY)
The maximum weight of personal belongings, food, fresh water, LP gas, tools, tongue weight of towed vehicle, factory and dealer installed accessories, etc., that can be carried by this motorhome. (NCC is equal to or less than GVWR minus UVW.) Please see your dealer for weights of factory installed options.
