MAXXFORCE® POWER

The MaxxForce® 10 is built on the same proven I-6 platform as Navistar’s legendary and industry-leading DT engine. This I-6 design grew from a big idea: bring to the mid-range diesel market traditional big bore features like wet-sleeve design and in-chassis rebuild capability. This model, which brings increased 9.3-liter displacement by longer stroke, meets the requirements of more demanding applications.

MaxxForce diesel engines deliver powerful, smooth, and reliable operation without the added hassle of complicated emissions technology. All backed by the largest network of service locations.

Due to continuous product improvements, please visit us online at monacocoach.com for the latest in standards, options, specifications and technical data.

¹ Towing capacity is limited by GCWR; your vehicle’s towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. consult your owner’s manual for further towing information.

² All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual “usable capacity” may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

³ Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

Due to the large variety of options and floorplan arrangements available to our customers, actual weights and GCWR may differ significantly. Monaco provides a weight sticker on each unit which includes that unit’s tank capacities and approximate weight. Consult your local Monaco dealer for unit availability and further information. The information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may depict a floorplan option that has been discontinued or is no longer available at the time of your purchase. Photographs may show props or decorations that are not standard equipment. The colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and printing. Due to product improvements, changes during the model year and transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer. Component part and appliance manufacturers issue limited warranties covering portions of the recreational vehicle not covered under the Limited Warranties issued by Monaco RV, LLC. To learn specific details regarding warranty coverage, please contact your selling dealership or review the warranty packet inside the recreational vehicle.
