Looking for a great value in a diesel coach? The 2005 Knight is packed with more features and upgrades than ever before. Perhaps the most impressive highlight is the custom-built Roadmaster RR8R chassis, with eight shocks and eight outboard-mounted air bags, for the best ride and handling in its class. Pair that with a gutsy Cummins® ISC 330 engine, and you’ll breeze through those steep mountain climbs. Other exciting new features are the side-hinged baggage doors and pass-through storage bays — allowing you to bring along more of your favorite things and making it easier to pack and unpack than ever before. Cap it all off with optional deluxe full-body paint, and you’ll have a head-turning coach that’ll keep its showroom looks for years to come.

**DRIVING YOUR DREAM.**

Dreams. They’re the way we write the story of our lives. Some are serious. Like raising kids or building a business. Others are pure fun. Like the dream you have early on a summer morning, sipping coffee and working on your life’s next chapter. It’s about making big plans and changing them on a whim. Or even better, following your heart without any plans at all. Yes, it’s the dream of a lifetime. And with Monaco’s legendary quality, reliability and innovation, we can make it all come true.
This year, the Knight takes spaciousness to new heights — 81 inches, in fact. And with its soft touch vinyl ceiling and kitchen skylight, you have an interior that's brighter and roomier than ever before. You’ll also notice the warm, residential feel, thanks to a remarkable combination of stylish details, including raised panel hardwood cabinet doors, antique brass hardware, decorative slide-out fascia and accent crown molding. You’ll enjoy mealtimes at the cozy booth dinette with storage drawers — or the optional freestanding dinette and chairs with full-length wall cabinet, shown here. Depending on your floorplan, you’ll have a long list of optional furnishings from which to choose, including selections in plush, attractive OptimaLeather™, designed to stand up to the wear and tear of life on the road.
Each year, our designers create color and fabric combinations that lead the industry in warmth and style. This year, we’re offering five beautiful decors and three stunning cabinet finishes.

Manufactured in, not added on. For added protection against stains, DuPont Teflon® soil repellant is applied to virtually all upholstery fabric during the finishing process for superior coverage.*

* Brand and application of upholstery fabric protection may vary depending on date recreational vehicle was manufactured.

Colors depicted are a reasonable representation so they may not be an exact match of the actual colors due to variances in process and production. See your dealer for actual fabric and paint chip samples.
As you choose your favorite style of woodwork, you can be confident that each selection is crafted to the highest standards. The Knight's cabinets feature solid wood raised panel doors with antique brass hardware and hardwood end panels in the living room. The drawer boxes are also made of wood, and as you open and close the drawers, you’ll feel the quality of the heavy-duty ball bearing guides.
No other manufacturer gives you as many innovative floorplan choices as Monaco. The 2005 Knight offers double, triple and quad slide-out models in lengths that range from 34’ to 40’.

1. Towing capacity is limited by GCWR; your vehicle’s towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner’s manual for further towing information.

2. Variances in the fabrication and installation of the tanks may cause the actual “usable capacity” to be greater or less than the capacities designated above.

3. Actual filled LP capacity is 80% of listing due to safety shut-off required on tank. The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Monaco Coach provides a weight sticker on each unit we produce which includes that unit’s tank capacities and approximate weight. Consult your local Monaco Coach dealer for unit availability and further information. The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name which will result in comparable performance. All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may show props or decorations that are not standard equipment on Monaco Coach models. Monaco Coach, the Monaco logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders. While the color of the motorhome’s exterior and the interior fabrics depicted in this sales brochure are fair and reasonable depictions, the colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and variances caused by inserting the photographs within the sales brochure. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer prior to submitting your order.
## Body Construction

- Alumiframe® Superstructure
- Steel Cage Cockpit Construction
- Peaked Aluminum Roof with Fiberglass Insulation
- Smooth Gel Coat Fiberglass Exterior Walls
- Front and Rear Molded Fiberglass Caps
