

MONACO®

DRIVING YOUR DREAM.

MONARCH®

 | 07

MONARCH®

VALUE IN MOTION.

Well, what do you know. Moving up to Monaco quality is easier than you thought. Step into the affordable new 2007 Monarch or Monarch SVE. These value-priced beauties are your ticket to the good life — with top quality furnishings, gorgeous woodwork with raised panels, seven-foot ceilings, and even our spectacular new full-wall slides. How's *that* for value?

GALLEY. Storage abounds in this well-designed galley, including adjustable cabinet shelves and a pantry with roll-outs and drawers. A microwave oven, double-door refrigerator, and three-burner cooktop complete the culinary quarters.

BEDROOM. Relax and put your feet up. All Monarch bedrooms feature a queen bed, nightstands, and blackout day/night pleated shades. You can also opt for the 20" color TV shown here.

FULL-WALL SLIDE

▼ PANASuite™

ENJOY LIFE TO THE FULLEST.

Here's a big idea. What if, instead of having two slides side-by-side, you had one luxurious long one? Introducing PanaSuite™, the new full-wall slide from Monaco Coach Corporation. Just imagine it. Wide open aisles. No obstructions or tight corners. And more livability at every turn. Ahhh yes, we *thought* you'd like that.

PanaSuite™ is standard on the new 33SFS (shown here) and 30SFS floorplans.

QUALITY. INNOVATION. HAPPY TRAVELERS. IT ALL SAYS MONACO.

INTERIOR

Wherever you travel across America, it's easy to spot the Monaco owners. They're the ones with the smug, happy grins on their faces. And who could blame them? When you own a Monaco, you own the best. The best in quality, performance, safety, technology and comfort. It's all here. And it's all yours for the taking. Come on, freedom lovers. Make your move to Monaco quality. After all, you already know how to grin.

MONARCH®

30PDD | CHAMPAGNE SELECT | SAND DUNE

READY, SET, GO MONACO.

Climb aboard. It's all waiting for you. The soft touch vinyl captain's chair. The tilt wheel and cruise control. The easy-to-read gauges. We know what you like. The Monarch is also prepped for an optional rear vision system with audio. And this year, you can tune in to optional Sirius satellite radio for coast-to-coast music, news and sports programming.

COCKPIT. There's plenty of seating onboard, including a barrel chair that swivels *and* glides, a jackknife sofa, and of course, the comfy captain's chairs that double as recliners. For your entertainment, we've included a 24" color TV and a CD player/radio with DVD player.

EXTERIOR CD PLAYER/RADIO. Listen to the ballgame or your favorite tunes while relaxing on the patio. The optional exterior entertainment center features a CD player, radio and two speakers (N/A on Monarch SVE).

SIDE-SWING BAGGAGE DOORS. Our baggage doors open from the side — not the top — for easier loading and a clearer view of what's inside. The Monarch also features pass-through storage and one-piece slide-out boxes for easy washdowns.

NO SEAMS. ADDED SAFETY.

When you're driving, you need to see everything in front of you — pedestrians, potholes, possums scurrying across the road. With our exclusive Panaview™ 1-Piece Windshield, you can. There's no annoying black rubber seam running down the middle of your windshield. It's the largest unobstructed view in the industry. That's big!

 **PANAVIEW™**

1-PIECE WINDSHIELD

MONARCH®

SMARTSTRUCTURE II

SmartStructure II adapts the principles of our diesel chassis technology for use with a gas chassis. While other motorhomes use outriggers to hang the walls and storage compartments, our exclusive truss system is

integrated with the chassis rails to provide a solid platform. The floor and storage bays are all one piece, and the truss system works with the chassis rails to channel weight toward the center of the motorhome. Greater strength. Better weight distribution. A solid foundation. That's SmartStructure II.

SLIDE-OUT CONSTRUCTION:

When you purchase a Monaco coach, you can be sure the slide-out boxes are some of the strongest and most reliable you'll find anywhere. They feature our exclusive multi-layer construction to give you maximum insulation and to reduce the chance of warping, twisting or shifting.

THE STRENGTH IS IN THE CONSTRUCTION.

Thanks to our Alumaframe® Superstructure, your Monaco coach is built to take on anything the road can dish out. We revolutionized the industry by replacing outdated wood and tubular aluminum construction with our exclusive system of aluminum C-Channel

crossmembers. These run the full length of the coach, with double-welded intersections for superior strength. This makes your Monaco lighter and sturdier than other coaches and gives you reliability you can count on down the road.

Alumaframe®
(C-Channel)

VORTEC™ 8100 ENGINE:

This Workhorse chassis, 8.1L V-8 engine features 340 HP and 455 lbs./ft. torque. The Ford chassis comes standard with a 6.8L 3-valve V-10 engine with 362 HP and 457 lbs./ft. torque.

CONSTRUCTION

9-LAYER ROOF CONSTRUCTION: (top to bottom)

- One-piece peaked fiberglass roof
- Luaun backing
- Thick, tapered bead foam insulation
- Aluminum double I-beam superstructure filled with fiberglass insulation
- Vapor barrier
- Structure foam: thermal insulative barrier
- 1/2" bead foam insulation
- Foam padding for extra insulation
- Padded vinyl ceiling

5-LAYER SIDEWALL CONSTRUCTION: (left to right)

- Smooth gel coat fiberglass (Smooth aluminum on Monarch SVE)
- Interlocking C-Channel filled with 1-1/2" fiberglass insulation bonded in place so it doesn't sag or leave spaces uninsulated
- Vapor barrier
- Bead foam adds comfort, saves energy and provides a thermal insulative barrier
- Interior paneling

4-LAYER FLOOR CONSTRUCTION: (top to bottom)

- Structurwood™
- Blue foam insulation
- 1-1/2" aluminum tube
- Three-ply poly underbelly

¹Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

²All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

³Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Monaco Coach provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. Consult your local Monaco Coach dealer for unit availability and further information. The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This

includes the substitution of components of a different brand or trade name which will result in comparable performance. All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may show props or decorations that are not standard equipment on Monaco Coach models. Monaco Coach, the Monaco logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders. While the color of the motorhome's exterior and the interior fabrics depicted in this sales brochure are fair and reasonable depictions, the colors depicted may not be an exact match of the actual colors because of the variances in photo-processing and variances caused by inserting the

photographs within the sales brochure. Due to product improvements, changes during the model year and/or transcription errors that may occur, information represented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer prior to submitting your order. Component part and appliance manufacturers issue limited warranties covering those portions of the recreational vehicle not covered by the Limited Warranties issued by Monaco Coach Corporation. To learn which specific component parts and appliances are excluded from the Limited Warranties issued by Monaco Coach Corporation, please contact your selling dealership or Monaco Coach Corporation directly, or review the warranty packet inside the recreational vehicle.

MONARCH® SVE

SMALLER SIZE. BIGGER VALUE.

NEW VINTAGE OAK

NEWPORT CHERRY

CHAMPAGNE SELECT

Folks loved our shorter 30PDD floorplan so much last year, we decided to add to the lineup. Introducing the Monarch SVE series. It's a whole new line of shorter coaches with a special value edition price. But even though it's priced for smaller budgets, the SVE is still loaded with Monaco quality. There's even a PanaSuite™ full-wall slide on the 30SFS.

30PBS

TILE CARPET

30SFS

30PDD

33PBD

The Monarch SVE is everything you love about the Monarch, but with extra savings thrown in. It boasts the same exclusive Panaview™ 1-Piece Windshield, side-hinged baggage doors, and one-piece peaked fiberglass roof as our larger models. And on the inside, it's a quality Monaco coach all the way.

¹Towing capacity is limited by GCWR; your vehicle's towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner's manual for further towing information.

²All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

³Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

BODY CONSTRUCTION

- › Alumaframe® Superstructure
- › Steel Cage Cockpit Construction
- › Peaked One-Piece Fiberglass Roof with Fiberglass Insulation
- › Smooth Aluminum Exterior Walls
