One Coach at a Time.

When you enter a Beaver Patriot, you enter a world that’s built by hand, inch-by-inch. Where you’ll find the same craftsmanship we’d put into our own homes, and nothing less. And then, when you take to the road, you’ll discover a level of luxury and performance that exceeds your every expectation. All creating the kind of experience other coaches can only dream about. Want to see it for yourself? A Beaver dealer near you will be happy to show you around.

Handcrafting Superior Experiences, One By One.
This is a story of craftsmanship, pure and simple. It’s the story of a cabinet shop with over 100 years of combined experience. And it’s the story of master cabinet builders painstakingly hand-selecting and hand-crafting the finest hardwoods available. Why? Because when you’re ready to make the move to a luxury motorcoach, you’re looking for the best there is.

At Beaver, we know that quality isn’t something that can be faked or forged. It’s right there, for you to see. Like our cabinets — built from the inside out to virtually eliminate the need for holes, plugs or fillers. And our cabinetry fascia frames — constructed out of solid wood, period.

Sure, in the pages ahead, you’ll also see our commitment to advanced technologies and luxurious amenities. But first, we wanted to show you something you’ll never find in any other motorcoach. Our craftsmanship.

One Coach at a Time.
You’ll have no shortage of choices when it comes to the colors and woods in Beaver motorcoaches. Make your selection from rift white oak, tight knot walnut, rustic cherry or white maple. Then, customize your cabinetry with the inlay you want, including walnut, makori or mappa burl. The cabinets get their stunning and durable finish from a multi-step process that includes two top coats of lacquer. And the result is a coach that’s as beautiful as a piece of heirloom furniture – solid, unique and distinctly yours.
