CLASS A
MOTORHOMES

ELEGANCE AND VALUE, TOGETHER AT LAST

On first approaching a Dolphin Class A motorhome, you'll be drawn to its distinctive design. Shaped by the wind, the aerodynamic lines flow from a specially contoured front end cap, across a panoramic windscreen and over a one-piece fiberglass roof, ending in a rear cap with continental spare tire enclosure. Yes, this fine motorhome stands apart from all others, whether in a wilderness setting or comfortably parked at the country club.

Equally impressive is the custom, decorator-designed interior. Rich, contemporary colors are executed in exquisite plush velours and luxuriously padded carpeting. Solid oak raised panel doors are fitted with antique brass hardware, complemented with well coordinated draperies and slimline blinds. Further, these interiors are as spacious as they are elegant, contributing to your comfort on the road and in your favorite recreational setting.

While traditional Dolphin quality touches are evident throughout, some may escape the casual glance. For example, laminated fiberglass sidewalls provide enduring good looks, easy maintenance, and superior insulating properties. Clearly, Dolphin is the hallmark in Class A motorhomes. And in value as well.

Compare features, and you'll see why. Dolphin's Class A is thoroughly equipped as standard with everything you'll want and need. Other motorhomes have a long list of extra-cost options, which can add considerably to their price. In contrast, Dolphin's short option list consists exclusively of special purpose items — never the features you'd expect in a luxury motorhome.

For a precise match with your travel plans, Dolphin offers a choice of seven models in an array of attractive and functional floorplans.

These fine motorhomes invite comparison — and your closest inspection. Distinctive styling, extensive standard features, superior design, and uncompromising craftsmanship put this Class A in a class by itself. Truly, no other motorhome offers such exceptional value for your RV buying dollar.

SIT DOWN VANITY

A special illuminated pop-up vanity graces your master suite away from home. Yet another touch of elegance is the mirrored shirt wardrobe alongside the bed. Both are standard equipment, exclusively on model 2760.

MOD

While the economy are boast la

MODEL 3140

MODEL 2740/3140/3150

Our mid-size Class A's are highlighted by an exceptional galley that features plenty of counter space. These models are also equipped with a swivel chair, a sofa and separate dinette that both convert into comfortable beds.

MODEL 3400

Dolphin's largest and finest Class A has a complete sit-down dinette in its own separate area. Expanses of windows open up the interior. Three beds are standard — island queen at the rear, convertible sofa and convertible dinette.

OUTSIDE STORAGE

Large and bulky items can be stored outside, easily and securely out of the way in this lockable storage area. (NOTE: When the dinette option is selected on Models 2750 and 2760, outside storage is reduced in size.)

TWIN BEDS

Standard in models 2750/3150/3450. Between the beds is a night stand with storage below and a shirt wardrobe at the end of each bed. For privacy and light control, windows are fitted with color-coordinated valanced draperies, plus sheers.

ISLAND BEDS

A queen island bed is standard on the 3400 and 3140. Walk-around design simplifies access and bed making. There are twin night stands with storage below.

CLASS A 2740/2750/2760

The spacious models are our most popular. Like all Dolphins, kitchens are easy-care stainless steel double sinks, an 8 cubic foot Dometic refrigerator, and ample storage. A highlight of Model 2760 is a pop-up illuminated mirrored vanity.

FULL BATHROOMS

The spacious bath area includes a lavatory, flush toilet, lighting, power vents, and plenty of room to move about. Doors on the custom cabinetry have oak raised panels.
