

DOLPHIN

1990 CLASS A MOTORHOMES

SCULPTURED BY THE WIND, STYLE

All the freedom of the open road can soon be yours in a motorhome filled with quality and innovation.

Completely new for 1990, Dolphin's dramatically contoured Class A presents a true benchmark in design. Functional as it is beautiful, this spacious vehicle offers expansive storage capabilities and interiors of unsurpassed comfort and beauty.

Highlighting this elegant Class A are exciting contemporary colors, wide aisles of plush carpeting, soft indirect lighting, raised oak panel cabinet doors, and galleys with more than ample counter space. As a matter of fact, all Dolphin models provide a full complement of standard appointments found only on much more expensive RV's.

You'll really appreciate Dolphin's enduring value in the many happy years of traveling that lie ahead. Because, right now, the motorhome of your dreams is well within your reach.

D WITH ELEGANCE.

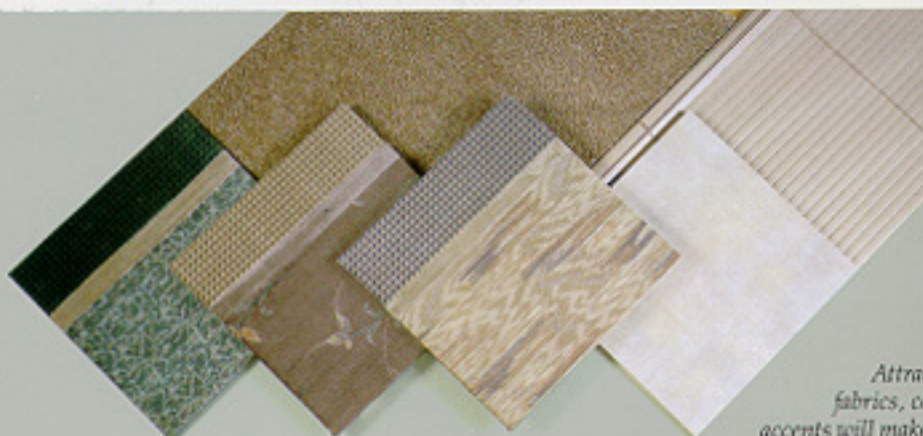

With a Dolphin, there's no need to leave the comforts of home behind you. This motorhome has the ability to carry personal belongings, a large wardrobe, sports equipment and more. Expansive exterior storage areas accommodate a wide assortment of cargo of all shapes and sizes. Secure, lockable doors open with the touch of a finger to access lighted, carpeted compartments that cater to you and your possessions.

COMFORTABLE INTERIORS WITH A T

Custom decorator interiors have long been a Dolphin hallmark. Rich, contemporary colors are executed in exquisite plush velours and luxuriously padded carpeting. Solid oak raised panel doors are fitted with antique brass hardware, complemented with well coordinated draperies and slim-line blinds.

While traditional Dolphin quality touches are evident throughout, some may escape the casual glance. For instance, those hours on the road seem to pass much faster in the comfort of the finest Flexsteel seats. At night, you'll appreciate the courtesy floor lights that guide you through the entire living area. And soft, indirect lighting — normally reserved for the most expensive motorhomes — graces each Dolphin.

TOUCH OF ELEGANCE.

Amenities galore in the generously sized bath area include a lavatory, flush toilet, lighting, power vents, and lots of room to move about. For enduring beauty, doors on the custom cabinetry feature raised oak panels.

Dolphin's large, inviting galleys bring out the best in any chef. Whether you're whipping up a quick snack or preparing a gourmet feast, you'll appreciate all that handy counter space. The convection microwave oven and four-burner cooktop save time in the kitchen, while large stainless steel sinks simplify clean-up. There's also a coffee maker at the ready — and an eight cubic foot refrigerator for your beverages and supplies.

To contribute further to pleasurable meals while on the road, our dinettes are decorated in soft colors and feature plushly padded seating. Versatile dinettes easily convert into extra sleeping accommodations, and they also provide additional storage space under the seats. (Most models)

you feel right at home.

COMMANDING VIEWS AT EVERY TURN.

On and off the road, Dolphin opens up a scenic panorama through its large wrap-around windshield and the extensive windows that surround you. A low-profile dash and engine cover contribute to the feeling of spaciousness. So does the single-level floor that extends your living quarters into the cab itself.

You'll find a lot to like in Dolphin Class A, including exceptional value. Fact is, the motorhome of your dreams may cost far less than you'd anticipate. See your Dolphin dealer for details.

ELEGANT BEDROOMS

Whether you're pulling off the road for a nap under a majestic oak or tucking yourself in for the night, you'll always rest in the lap of luxury in your Dolphin master suite. Bedroom choices include . . .

Twin Beds Standard in models 2750/3150/3450. Between the beds is a night stand with storage below, and there's a shirt wardrobe at the end of each bed. For privacy and light control, windows are fitted with color-coordinated miniblinds.

Island Beds A queen island bed is standard on the 3400 and 3140. Walk-around design simplifies access and bed making. There are twin night stands with storage below, plus overhead closets on each side.

Bedroom Storage You certainly won't be lacking storage areas in your master suite! There's ample drawer, overhead cabinet and wardrobe space. And there's also flip-up underbed storage in all models other than twin beds.

REFINEMENTS

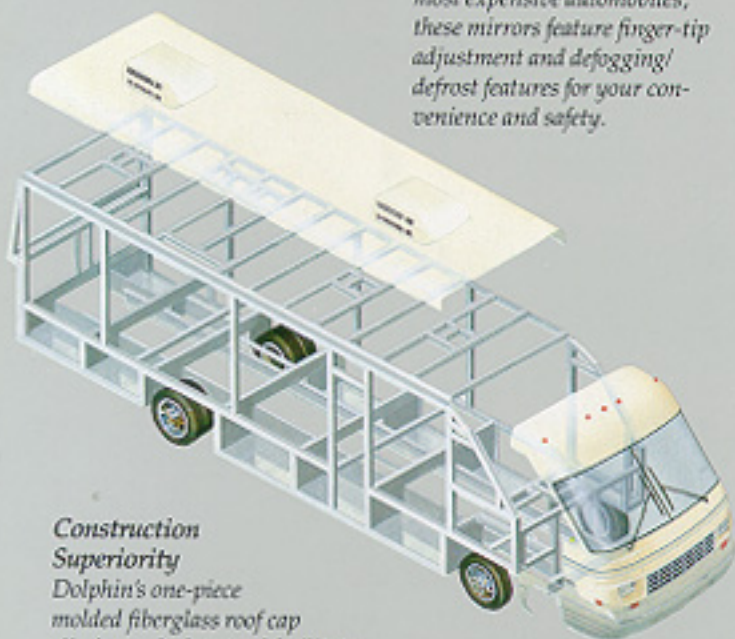

1. Rear End Storage Easy-lift door opens to reveal extra storage for those last-minute items.

2. Hydraulic Jacks Optional jacks let you level your RV from the comfort of the driver's seat.

3. Command Center Monitors propane quantities, battery status, inside/outside temperatures, levels and temperatures in water and holding tanks. An alarm sounds when freezing temperatures approach.

4. Heated Power Mirrors Otherwise found only on the most expensive automobiles, these mirrors feature finger-tip adjustment and defogging/defrost features for your convenience and safety.

Construction Superiority

Dolphin's one-piece molded fiberglass roof cap eliminates leakage and facilitates drainage. An additional highlight is steel roll cage construction with sturdy structural members in the floor, sidewalls and ceiling.
