The 2001 Sea Breeze class “A” motor home is a world apart from the “Sea of Sameness” that motor home buyers are faced with today. Sea Breeze has become a favorite for those enthusiasts who believe that a motor home shouldn’t drive like one. And the best handling class “A” available has only improved over the years. Sea Breeze now stands alone as the only high storage, low profile, luxury class “A” coach available. Once you drive one, you’ll have to own one.
