Surf Side

LIVING SPACE

Surf Side provides features and amenities far beyond what its modest price would suggest. A 6' 10" interior height and a variety of spacious floor plans provide big-coach livability in lengths ranging from 29 to 34 feet!

The large 30" wide entry door permits easy entry, even when carrying a load of groceries for an extended stay. Thoughtful touches such as easy-to-clean, full vinyl flooring in high traffic areas, smart storage solutions and high quality fabrics and materials make Surf Side the perfect RV for younger families and new motor home enthusiasts.

Built for Adventure

EXPERIENCE THE NATIONAL RV ADVANTAGE!

Genuine Corian Counter Top: Like all National RV motor homes, Surf Side features an expansive kitchen counter topped with genuine, ½" thick residential grade Corian® solid surface. No counter surface beats Corian® for durability and lasting beauty.

Kustom-Fit® Seating: Cold-poured seat foam retains its shape and integrity better than glued foam blocks in competitors' seats, and carries a ten year warranty. Welded tubular steel seat frames carry a lifetime warranty.

One-Piece Fiberglass Shower: The strengthening ribs inlaid into the fiberglass shower provide an unyielding, firm shower floor. One-piece design has no seams for moisture to penetrate.

I N N O V A T I O N

Vacationing together creates memories that families will treasure forever. That's why Surf Side provides comfortable accommodations for the whole family. Model DE34E (shown here) boasts two separate bedrooms. The "bunk house" can even be equipped with the optional dual-LCD screen DVD entertainment system for the kids (also shown). Other models feature split bathrooms, side aisles and several combinations of room-expanding slide-outs. Like every National RV, Surf Side features a residential quality one-piece fiberglass shower, genuine Corian® kitchen counter top and comfortable, durable Kustom-Fit cockpit seating.

Family Matters

Main: DE34E • Baycliff • Natural Cherry
Left: DS32C • Carlsbad • Natural Maple

Surf Side's patented DuraFrame® Chassis System and rigid tubular steel coach body framework provide strength and integrity that will last for years. Side-opening, formed aluminum compartment doors provide easy access to the huge basement storage bays. Custom partial paint exterior graphics in a choice of two color schemes stylishly set Surf Side apart from its "entry level" competition.

Built to Last

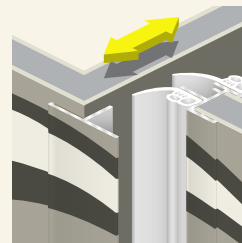

EXPERIENCE THE NATIONAL RV ADVANTAGE!

DuraFrame®: A patented chassis system engineered to provide most of the necessary coach strength below the floor line, relieving stresses from the coach body components and contributing to a lower center of gravity.

Coach Body Construction: Roof, sidewalls and floors constructed of durable tubular steel frames with sturdy block foam insulation, vacuum-laminated to form a permanently bonded, extremely rigid coach body.

DuraSlide®: Flush-wall slide-out seals are a testament to the coach rigidity provided by the DuraFrame®. Double bulb wiper seals provide an insulating layer of dead air as well as a tight moisture seal to keep drafts and water outside whether the slide is in or out.

SPECIFICATIONS

S = Standard Equipment
O = Optional Equipment

COACH BODY CONSTRUCTION

Duraframe® patented steel sub floor construction	S
Steel framed laminated floor	S
Steel framed crowned laminated fiberglass roof	S
Steel framed laminated fiberglass high gloss sidewalls	S
Front and rear molded high gloss fiberglass caps and integrated bumper assembly	S
Electric slide-out room(s)	S
Aluminum exterior storage compartment doors with gas struts, side-hinged for easy access on most applications	S
Steel framed exterior storage compartments with insulated floors	S

Black aluminum rear ladder	S
Awning rail with integrated rain gutter and drip spouts	S
Automotive undercoating	S
Steel insulated front bulkhead	S
Custom partial body paint with deluxe vinyl graphics in two color schemes	S
Protective film front mask	O
6' 10" interior height	S
Fuel fill door in rear bumper	S
Rear ladder	O
