A publication of Newmar Corporation

Stars, 1992 Model Year

"Inside, the trailer is homey, unpretentious and big . . . I have lived in apartments that were smaller than this rig . . . It's hard to imagine this much space in a fifth-wheel."

— Jeff Johnston
Trailer Life magazine

Newmar Corp.

Thank you for your interest in the recreational vehicles built by Newmar Corporation. We are quite proud of all the RVs we have built during the last quarter of a century.

We are confident you will be pleased and satisfied if you purchase one of our beautiful new trailers or motorhomes.

Quality, superior workmanship and practical livability are over-used terms today because they are easy to say but difficult to achieve. Newmar, however, has always been widely recognized as a manufacturer that delivers the highest standards in the RV industry.

Through our nationwide network of dealers, we sell RV products that are designed and built for many years of over-the-road use. Please spend a few minutes at one of those dealerships and examine our coaches carefully. We think you will be pleased by what you see.

Also, we invite you to visit our manufacturing facility in Nappanee, Indiana (just off U.S. Route 6 west of town). By taking one of our guided plant tours — offered weekdays at 10 a.m. and 2 p.m. Eastern Standard Time — you can get a firsthand look at how our RVs are built, and you can see for yourself the type of world-class quality that goes into each one of our products.

Newmar Corp.

1992 FLOOR PLANS

American Star | Kountry Star | Dutch Star

For 1992, large power slideouts in many of the Kountry Star fifth-wheel floor plans are the big news. Spacious 17-foot-long slideouts are standard in 40-foot rear-kitchen models, and slideouts of 13- to 16-feet are available either as standard or as options with other lengths, depending upon the floor plan selected.

Bedroom slideouts also are available in some models of Kountry Star fifth-wheels.

Freestanding dinette tables with chairs are more widely available, both in travel trailers and in fifth-wheels, for 1992.

Storage spaces, both inside and outside, have been added and enlarged in several models. Entertainment centers, where offered, have been improved.

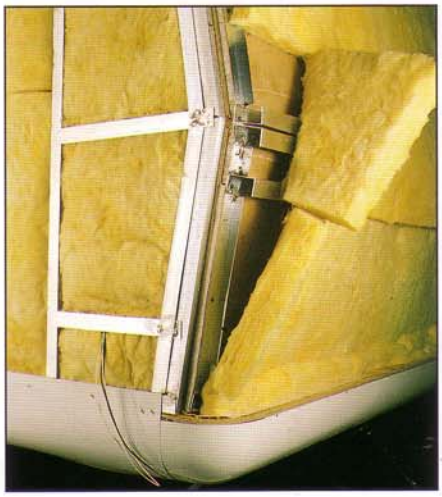
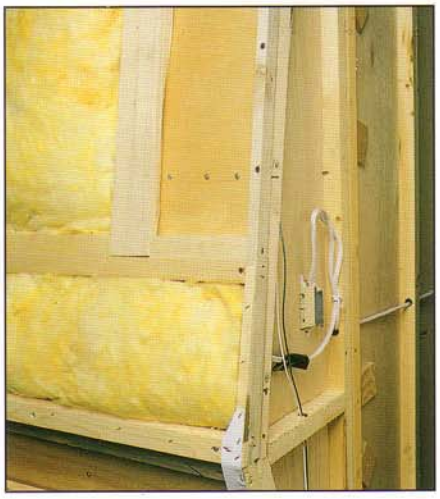
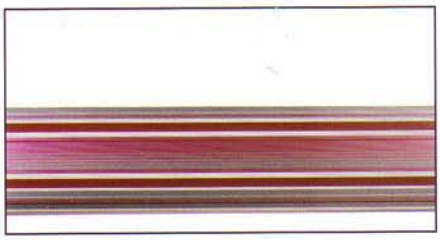
Exterior storage space is important to our customers, so it is of primary importance to us. That's why you'll find storage spaces everywhere possible in our RVs — including in the exterior of our new large slideout as shown here.



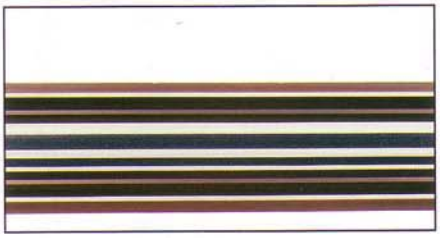
Aluminum frame construction — optional with Kountry Star travel trailers and fifth-wheels — consists of the following sidewall components: exterior sheet of .024-gauge aluminum or optional one-piece gel-coated fiberglass; .062-gauge x 1.5-inch aluminum U-channel rails between .062-gauge x 1⅜-inch aluminum studs on 16-inch centers; R-5 fiberglass insulation between studs (R-7 is optional); kraft paper; 5/8-inch bead board foam; 3.6-mil. interior paneling.



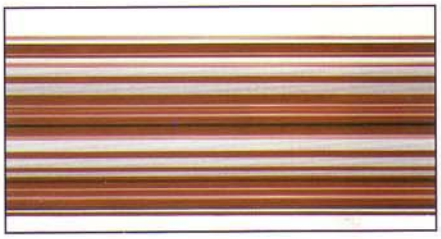
Wood-frame construction, standard in all Star towables, consists of .024-gauge painted aluminum exterior sheeting (fiberglass optional on Kountry Star); 2 x 2-inch top and bottom wood rails attached to vertical 2 x 2-inch studs; R-5 fiberglass insulation (R-7 optional); 3.6-mil. interior paneling.



Kountry Star side graphics are a rich, high-metallic burgundy and rose combination with accents of silver.



American Star side graphics are rose and raspberry with charcoal accents.



Dutch Star side graphics are burgundy with silver metallic accents.

When it comes to designing and building fifth-wheel trailers, Newmar Corporation is without equal!

Newmar's expertise in fifth-wheels is obvious in the Dutch Star line. Floor plans are selected for their broad appeal to first-time RV owners; fabrics and furniture are both attractive and practical; livability is of paramount importance.

A Dutch Star kitchen (like the one in the 28SB model shown here) has all the right ingredients demanded by any camping chef: double porcelain sink with cutting board cover; deep drawers; plenty of undersink space for pots and pans; overhead cabinets for dishes and canned goods; four-burner porcelain range with oven; large refrigerator (double-door model is optional); space and wiring for a microwave oven; range hood with light and fan; double-handle faucet; kitchen window with mini-blinds.

Excellent lighting, comfortable seating in a four-person booth dinette, good cross-ventilation and an optional systems monitor panel are all blended into the recipe that makes a Dutch Star camping experience one your family will never forget.

"Light interior colors add to a spacious feeling."
Trailer Life magazine

Dutch Star travel trailers provide a quality of living ambiance not ordinarily found in a budget-priced RV.

They are tastefully decorated in your choice of four interior color packages: Rose Mist, Harbor Blue, Spring Garden (shown here) and Teal Glow.

Dutch Star travel trailers provide versatile living space. With sofas and dinettes that convert into bunks, they are suitable for families as well as for couples.

"In spite of the lower cost, the materials are assembled with an apparent eye for quality."
Trailer Life magazine

Decorative glass cabinet doors accent the Dutch Star's decor and add a touch of elegance.

DUTCH STAR

Dutch Star recreational vehicles for 1992 combine Newmar Corporation's famous reliability with attractive pricing.

Meant for first-time RVers on a budget, Dutch Star fifth-wheels and travel trailers have standard features that our customers **need** but do not want to pay extra to **get**!

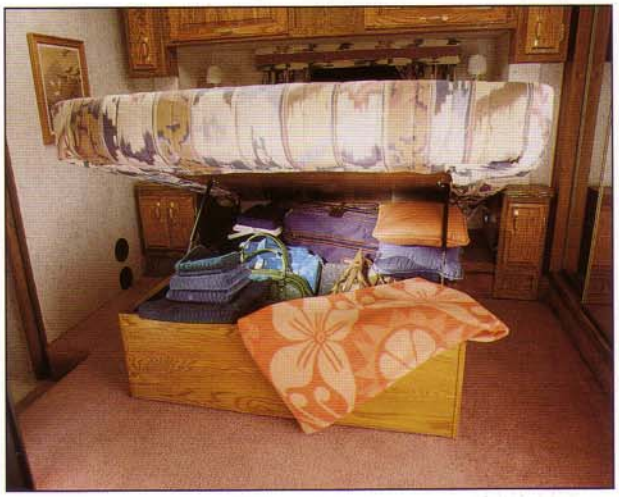
Compare Dutch Star's standards with those of the competition, and you will quickly see that other RVs don't measure up. Check out our double porcelain sink, in-floor ducted heating, oak cabinetry with hardwood frame doors, designer fabrics, one-piece aluminum roof, padded living room carpeting, and radius torque windows.

All Dutch Star towables (such as the 28SB fifth-wheel above) are created by the same team of engineers and craftsmen who build the world-famous Kountry Aire and London Aire recreational vehicles.

In this optional "Honeymoon Suite" layout of an American Star bedroom, nightstands flank the bed, and overhead cabinets provide excellent storage space. The bedspread and matching shams shown are optional.

After tow-testing a 26-foot American Star travel trailer recently, *Trailer Life's* Jeff Johnston wrote:

"The 26 RBT packs a lot of living space and convenience into a relatively small package. It also offers plenty of storage volume and enough weight-carrying capacity to take advantage of it."



In all Newmar-built RVs, careful consideration is given to how your American Star will be used. We know you want as much interior and exterior storage space as you can get. That's why our bed frames can be hinged and equipped with optional struts for easy access to under-bed storage areas.

This comfortable swivel rocker is a popular option in American Stars. The mid-size chair is fully upholstered.

Beveled, etched mirrors are accent features of American Stars, with locations varying according to floor plan.

"Visually, the furniture adds a touch of genuine residential-style ambiance."

— Jeff Johnston
Trailer Life magazine

A versatile sleeper sofa serves double duty in American Star travel trailers and fifth-wheels. As a sofa (see previous page), it is the central feature of a coach's living area. At night, it can expand your family's sleeping space. The sofa sleeper is plushly upholstered and quite comfortable no matter how you use it.

Fifth-wheel trailers bearing the American Star nameplate offer RV buyers the type of comfort and visual elegance expected from a Newmar product, but at a surprisingly low price.

Trailer Life magazine said it best several months ago when it tow-tested an American Star: "As a lower-cost product, American Star trailers are built with standard wood-frame construction, but it seems to be done with the same care and attention to detail lavished on the company's premium-priced units . . . American Star is a fine first or trade-up trailer, and it looks like a safe bet for those shopping in the sometimes chancy lower-cost RV range."

Above is a rearward view of the 35WD American Star fifth-wheel. Note its beautiful decorative glass cabinet doors and its optional living room slideout section.

All-new fabrics are offered in four colors — Rose Mist (shown above), Harbor Blue, Spring Garden and Teal Glow.

"The American Star is a vivid example of how an RV can be built economically without compromising high quality standards and superior workmanship."

— Jeff Johnston
Trailer Life magazine

AMERICAN STAR

American Star travel trailers and fifth-wheels combine all the best aspects of good design, livability, practicality and affordable price.

Furnishings include oak cabinets with hardwood frame doors and a long list of standard features that are extra-cost options in many competitive RVs.

The American Star is available in a wide selection of sizes and floor plans and has the versatility of being equipped either for young first-time camping families or for veteran RV travelers.

Here, you see our popular 31FKD front-kitchen travel trailer with optional two-door refrigerator, free-standing dinette (a booth dinette is standard), oven and range, and spacious countertop meal preparation area.

More luxurious than ever before, this 31CBD Kountry Star travel trailer offers plush fabrics and carpeting, wood cabinets with optional raised-panel oak doors, and name-brand appliances — all at an affordable price — because that's what our customers want!

"We owned an Arabian by Newmar, then a Dutch Star, and now we're trading for a new and larger Kountry Star. We like the quality of construction, and Newmar is making the changes that we want."

Donald and Ethel Yucks
Ewing, Missouri

Spacious bathrooms with large tubs or showers, huge closets and complete privacy are a hallmark of Kountry Star fifth-wheels.

Oak doors and home-style wood cabinetry are standard features in all Kountry Stars.

Rear kitchens, as shown here with the 40WRKD model, are among the most popular floor plans offered.

Sinks, drawers, ranges, refrigerators, microwave ovens and other accessories are positioned for convenience.

Spacious, color-coordinated countertops with backsplashes provide practical space for meal preparation, and they are easy to keep clean.

All dinette areas in Kountry Stars are illuminated with polished brass, Tiffany-style ceiling lights that are both attractive and practical.

Faux leaded glass cabinet doors with brass accents complement the other decorative accessories inside each Kountry Star, helping lend a home-style atmosphere that RV travelers appreciate.

"A 17-foot slideout room makes Newmar's already spacious trailer a top choice for extended travel."

Headline in **Trailer Life** magazine

Soft shade blinds with drapes, tiebacks and cornices are now standard features in all Kountry Star towables. When fully raised, the shades are concealed under home-style cornice boards.

Among the most popular of the options available in Kountry Star fifth-wheels, this ceiling fan helps with air circulation and adds to the coach's cozy, homelike atmosphere.

slideout system that is still a mystery to most of its competitors! That system also is available in Kountry Star products for 1992.

Spacious 17-foot-long slideouts (like the one above) are standard in 40-foot Kountry Star fifth-wheels, and slideouts of 13- to 16-feet are available either as standard or as options with other lengths.

Each of those slideouts is furnished with a freestanding dinette table and chairs and a home-style sofa/bed. The largest of the slideouts also features a room divider and overhead cabinet with decorative glass doors between the sofa and dinette.

A small roadside slideout in the bedroom is available with some fifth-wheel floor plans. That slideout blends quite nicely into the "Honeymoon Suite" concept.

KOUNTRY STAR

Kountry Star fifth-wheels and travel trailers are in a class by themselves — for several reasons.

First, they are the only mid-priced RV products in America that are a part of the famous Kountry Aire family of recreational vehicles. As members of that family, they are designed by the same engineers and built by the same experienced craftsmen that created Newmar Corporation's Kountry Aire and London Aire lines.

Secondly, they can be equipped to meet many needs and most budgets. A long list of standard features can be supplemented with a wide range of optional features — all at a surprisingly low cost.

And now for 1992, you can choose the type of construction you want. All Kountry Star towables may be ordered built either with Newmar's optional lightweight aluminum framing or with strong but price-competitive screw-and-glue wood framing. No other RV manufacturer offers that choice!

In addition, all Kountry Stars are designed and built to provide comfortable living in a variety of climates and in a wide range of environments. They're well insulated for use in either hot or cold temperatures and tastefully decorated with furniture and fabrics that are both homey and practical. Because Newmar's managers are all veteran RVers themselves, they know the importance of building trailers to meet the everyday demands of the RV lifestyle.

Newmar Corporation is widely known for its innovative designs and features, and those innovations are part of the Kountry Star lineup for 1992.

For example, the company pioneered the distinctive "Honeymoon Suite" bedroom layout in its fifth-wheels (see photo above), and Kountry Star coaches in several lengths are available with "Honeymoon Suites" in 1992.

Newmar is, of course, regarded as the RV industry's slideout specialists because we perfected a type of power
