

COUNTRY STYLE

A publication of Newmar Corporation

Stars, 1993 Model Year

Towing your new Dutch Star is a breeze. These towables are built and engineered with the same expertise as all Newmar products, but we kept weight and handling in mind for those who have never experienced pulling a camper before. They're lighter, track easier and you don't need an oversized truck to pull them. This is an economical advantage as well.

Newmar Corporation

Uncompromising work standards, ethics and service are only part of what Newmar's world-class quality is all about. An unending passion for this recreation combined with professionals who are experienced RVers themselves, work together to produce distinctive, dependable and durable products that will serve you for many years in a variety of climates. Comfort and convenience go hand-in-hand with any Newmar Product.

Our conviction to satisfy our customers is unchallenged and our aim is to maintain the highest standards in quality

American Star fifth-wheels were created for week or weekend outings. The all new floor plans for 1993 provide your family with plenty of exciting choices to tailor our RV to their exact needs.

and customer service in the industry. A nationwide dealer network is out there ready to serve you and is backed by the Newmar commitment. We are so dedicated to these philosophies that we personally invite you to visit our plant in Nappanee, Indiana (just off U.S. 6 west of town). Tours are offered weekdays at 10 a.m. and 2 p.m. E.S.T. We want our customers to see how we do things firsthand. We want to meet you and extend a welcome into the world of recreational vehicles from a company that sets the trends and standards for the industry . . . Newmar Corporation.

Scheduled plant tours Monday-Friday

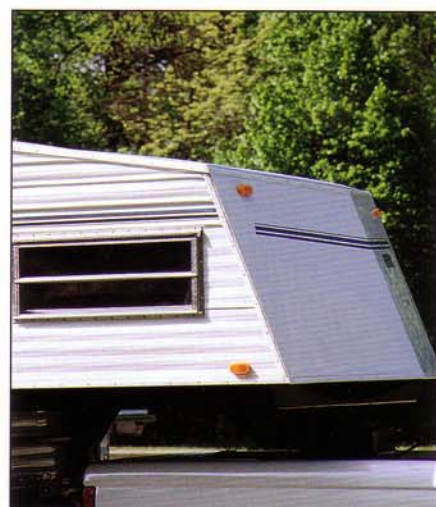

Prices and specifications are subject to change at Newmar's discretion without written notice or obligation.

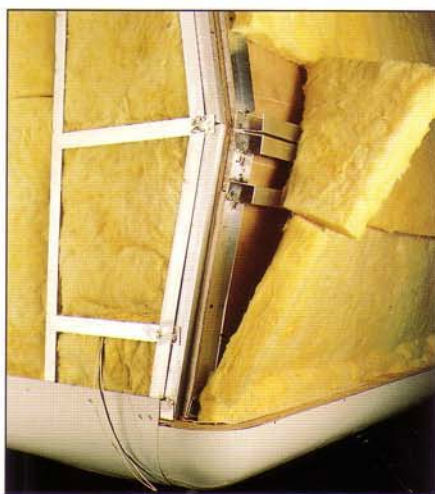

We can't say enough about the importance of storage in an RV to our customers. The optional slideout storage space shown is an added convenience in that it brings the equipment to you instead of your digging around inside. It's great for those items that are used more frequently and is one of many storage areas you'll find available on all Kountry Stars.

American Star fifth-wheels sport a low-profile design on the cabover. This reverse angle design not only creates better aerodynamics, but allows the coach to be shorter than the higher-priced fifth-wheels. This in turn produces less wind drag which makes them tow and track easier with midsize tow vehicles.

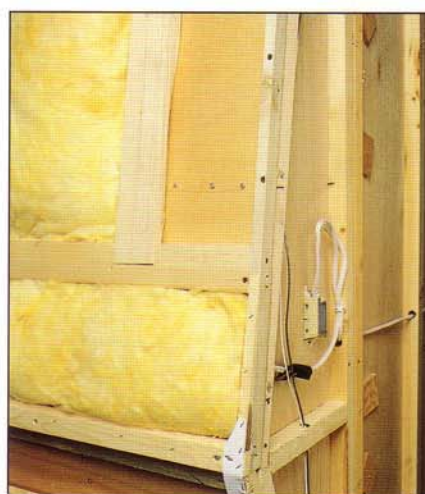

Though Dutch Star is Newmar's most economical line of RVs, we didn't forget style and design. The low profiles on the fifth-wheel cabovers are sleek, produce less wind drag and are easier to handle.

Aluminum frame construction — optional with Kountry Star travel trailers and fifth-wheels — consists of the following sidewall components:

- Exterior sheet of aluminum or optional one-piece gel-coated fiberglass
- Aluminum U-channel rails between
- Aluminum studs on 16-inch centers
- Fiberglass insulation between studs
- Kraft paper
- Interior paneling
- 5/8-inch foam

Wood-frame construction, standard in all Star towables, consists of the following components:

- Painted aluminum exterior sheeting (fiberglass optional)
- Fiberglass insulation is available on Kountry Star
- Interior paneling
- Fome Cor is an available option for Kountry Star which can be added to increase the insulation factor

Newmar Kountry Klub

Don't forget to check out the Klub . . . the Newmar Kountry Klub, that is. All you need to be eligible is to be the proud owner of any one of the fine Newmar recreational vehicles.

Twenty-five years doesn't seem long to some, yet to others it's an eternity. The past 25 years for Newmar have been very productive, rewarding and successful. We have come a long way from tipouts to slideouts, one brand to six, and from manufacturing towables only to producing Minihomes, Class A's and Diesel Pushers as well as Travel Trailers and Fifth-Wheels. A major contender in the recreational vehicle industry, Newmar possesses the knowledge and experience needed to offer its customers the best possible products available.

In 1967, when the first Kountry Aire was being designed by Newmar, the average three-bedroom home cost about \$23,000; today it averages \$100,000. Gas was 22 cents a gallon, and a new Ford cost just over \$3,000. The first Super Bowl was played; Mickey Mantle hit his 500th career home run; the first heart transplant was success-

fully completed; Pontiac introduced the Firebird; and the Queen Mary made her last voyage. TV was dominated by family shows like *Red Skelton* and *The Andy Griffith Show*. Elvis married Priscilla; The Beatles released *Sgt. Pepper's Lonely Hearts Club Band*; and *The Graduate* won an Oscar for Best Director.

During the past quarter century, our nation put a man on the moon; computers became household items; and a new phrase was coined: "fast foods." In an ever-changing society, however, there is one thing that will stay the same: Newmar's dedication to you, our customer. We thank you for letting us serve you for 25 years, and we intend to keep serving you and providing you with the best products possible in the years to come.

Some features shown in our literature are optional. Colors and finishes are photographic representations and may appear differently when viewing actual materials. Please see your dealer for actual samples and specifications.

1993 brings you a myriad of floor plans, options, fabrics, and building materials for Newmar's complete Star line. As usual, with all the layouts, slideouts, and room

configurations offered, you can practically custom design a trailer to fit your specific needs. The increasingly popular slideouts are available on many coaches and have a synchronized power unit for a "Quiet Slide"

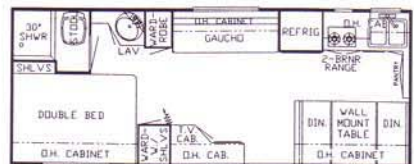

and smoother, faster operation. Newmar Corporation strives to give you every possible convenience in an RV to make your camping and traveling experiences safe and enjoyable.

C

Kids will be kids and we all know accidents happen. All carpeting and fabrics have been stain resistant treated to protect them from accidents like this, making them easy to clean and good looking for years to come.

Many entry-level trailers are so cramped and dark inside that they are not appealing to even first-timers. The opposite is true with Dutch Star. Careful attention is paid to color-coordinating all components from the oak cabinetry, plush carpeting and vinyl flooring to the stunning wall coverings and window treatments. A double porcelain sink, lots of counter space and a roomy dinette add to the cheerful complexion of these coaches in addition to Newmar's solid engineering standards.

These mid-sized Dutch Star fifth-wheels are ideal for a young family starting an RV adventure. They offer all the basic quality features and comforts you need for a great outing and with a down-to-earth price tag as well.

"In spite of the lower cost, the materials are assembled with an apparent eye for quality."

Trailer Life magazine

Cabinetry and storage space are an optimum in the Dutch Star towables. Every inch of room is utilized efficiently for those first time RVers, allowing them to take along everything, including the kitchen sink. We realize that until you get some experience in camping, your family is unsure what to take with them and we've provided you with plenty of space for all those incidentals.

DUTCH STAR

Dutch Star is Newmar's most economical line of towables. Low price manufacturers always brag about the appearance of their units because that's normally all they have to sell. Not true with Dutch Star! Not only do you get travel trailers and fifth-wheels that are tastefully designed inside and out, you also get the Newmar quality, craftsmanship and dependability that you've come to expect.

Just because this line was created for the first-time buyer or those wanting to move up from fold downs or pickup campers with a budget in mind, doesn't mean that we cut corners on construction, materials and safety. So many of the same methods, features, floor plans and options

carry over into these coaches that it's almost like buying a high-line unit from Newmar. Sure, we can't give you gold for the price of silver, but we're very proud of the quality and rich appearance that we offer in the Dutch Star towables coupled with a surprisingly low price tag.

The living area above is a good reflection of the time and care taken in the selection of every material and component that comes together to produce a Dutch Star. Etched glass, oak cabinetry, brass accents, contemporary fabrics, plush carpet and vinyl floor coverings all merge to make this the best value available in the low-end price range today.

This available queen size bed makes nighttime a restful experience, yet there is room to walk freely around the bed when dressing, cleaning, packing or changing bed linens.

***"Best Buys in Travel Trailers . . .
American Star . . . an excellent
choice."***

Consumer Digest

The American Star living area provides ample counter space with large storage areas below the TV. Before retiring to the bedroom you can enjoy your favorite shows in the comfort of your living room.

Enough can't be said about the comfort and freedom provided with a freestanding dinette and chairs. Not everyone is the same size or stature, and the flexibility offered by this feature allows for that difference. Whether discussing plans for your next trip, playing a board game, or enjoying pizza and soft drinks, the freestanding dinette is made for the occasion.

With so many coaches out there with built-in seating, it is a welcome change to find a movable, swivel rocker that's not only a good looking piece of furniture, but can be moved to suit **your** needs. You're not locked into a permanent arrangement.

"The American Star is a vivid example of how an RV can be built economically without compromising high quality standards and superior workmanship."

— Jeff Johnston
Trailer Life magazine

Slideouts are available this year on many American Star floor plans. The aerodynamics and sharp, tasteful graphics of these exteriors give American Stars a unique and appealing appearance.

Luxury and economy team up in the 1993 American Star towables. The spacious slideout comes into play again in this fifth-wheel living area. Imagine your family, after a long day of play, settling down to popcorn and TV in

this beautiful room. Or, leave the TV to the kids and enjoy a friendly game at the spacious freestanding dinette and chairs with your guests. Room is not a problem, nor is comfort when you go camping in

an American Star. It's like being in your own living room with all the conveniences of home, plus added features like decorative glass, plush carpeting, and traditional-style window treatments.

or chef. These roomy, home style galleys rival the finest custom country kitchens in homes today. Whether it's hors d'oeuvres for guests or a full blown family meal,

Kountry Star Galleys offer the space and tools you need to satisfy the heartiest appetites and clean up is a snap.

It's the little touches that make Kountry Stars so practical and inviting. No matter how much time you spend in an RV, there are always special items that you want on display to personalize your home-away-from-home. This mini hutch provides a beautiful way to show off your collectibles.

The cabinetry accented by handsome, yet durable laminate countertops and contemporary appliances are eye catching to the most design-oriented homemaker

When overnight guests drop in, you won't be caught unprepared with Kountry Star's cozy sofa/bed. It's an attractive, comfortable sofa during entertaining, but when it's lights out, you can offer your guests a pleasant place to stretch out and rest up for tomorrow's activities. The convenient optional storage compartment behind the sofa offers a perfect place to keep bedding too.

"We owned an Arabian by Newmar, then a Dutch Star, and now we're trading for a new and larger Kountry Star. We like the quality of construction, and Newmar is making the changes that we want."

Donald and Ethel Yucks
Ewing, Missouri

If it's too cool for the air conditioning, yet not cold enough for the furnace to be on, the popular ceiling fan option is ideal. It is an attractive addition to the room and creates good air circulation throughout the coach.

This 15-foot-long power slideout in conjunction with an already spacious floor plan, produces a home-like great room effect. The cabinetry in the slideout manifests itself into a natural room divider

without sacrificing valuable floor space. It is incomparable design like this that makes all Newmar RVs unique in the industry. A rich marriage of woods and stunning fabrics highlighted by professionally appointed

details such as the decorative glass, brass fixtures and domestic style window treatments give Kountry Star fifth-wheels and travel trailers a reputation of affordable elegance.

KOUNTRY STAR

Kountry Star towables are a unique line of recreational vehicles produced by Newmar Corporation. They are unique because they offer the customer a wide range of floor plans and options, a choice of construction and materials and exquisite standard features usually found only in the high-end product lines. Since its inception, Kountry Star has been regarded as a high-end product at a mid-price range. Discriminating customers keep returning to Kountry Star because they know they're going to buy a coach that maintains impeccable standards in craftsmanship, appearance and durability.

Every room in a Kountry Star towable is meticulously and practically laid out to make careful use of all space. The 1993 Honeymoon Suite (picture above) is no exception. Newmar originally created this concept for two reasons, one of which was the ever-present problem of offering a comfortable bedroom in the overhead on a fifth-wheel allowing free movement around the bed and a private dressing area with plenty of wardrobe and storage space. The Honeymoon Suite, after long hours of design and redesign, is the perfect solution to these problems. The use of large mirrors on the sliding wardrobe doors is not only functional, but gives the room a much larger feeling.

Newmar is proud of this fast growing family of RVs and diligently guards it against the ever-rising costs inherent in today's market. As with all Newmar products, space and innovation are top priorities. Spacious slideout rooms, practical use of storage areas, wide frames and many floor plans to choose from enable the customer to satisfy his need to stretch out in comfort. Unique designs, convenient operation and accessible appliances and furnishings create a plush, yet homey, livable atmosphere and for 1993 they're available with large slideouts. Combine all these advantages with an affordable price tag, and it's easy to understand why Kountry Star is Newmar's best selling line of recreational vehicles.

Newmar Corporation has been helping America relax in style for 25 years. Our tradition of elegance began when the first Kountry Aire was designed in 1967. Since then, we've grown from tipouts to slideouts, from one brand to six, and from manufacturing only towables to producing Minihomes, Class A's and Diesel Pushers as well as Travel Trailers and Fifth-Wheels.

As our life has changed over a quarter century, so has America . . . in 25 years, our nation has grown from households with one TV set (often black and white) to full-blown color screens complete with VCR's and satellite dishes. We've watched a man walk on the moon. Technology has advanced to the point that computers have become household mainstays. And our lives have become so fast-paced that we've replaced personal banking with automatic teller machines, and homemade chicken soup with microwave boiling bags.

At Newmar, we've used technology to the fullest. Our innovations, such as perfecting the large slideout, have earned us industry-wide recognition as a manufacturer delivering the highest standards in the RV industry.

And while it's important to us to stay on the cutting edge of technology, some things at Newmar will always stay the same. Things like our traditions of elegance, comfort and quality. Newmar still constructs each recreational vehicle with the old-world craftsmanship and attention to detail that has become our hallmark.

At Newmar, we're proud of the past 25 years and our sincere dedication to our customers. As we celebrate, we intend to keep serving you and providing you with the best products possible. Afterall, you're the reason we're in the business.

Kountry Star — *2 Year Limited Warranty on Superstructure

Newmar Corporation warrants the Superstructure which includes the following: Frame, Sidewalls and Roof. If any part of the Superstructure fails to perform properly because of faulty workmanship or materials supplied by Newmar, during the ownership of the original buyer, it will be repaired without charge for either parts or labor by Newmar providing the proper claim procedures are followed. All other items excluding the Superstructure are covered under the standard Newmar 1 Year Limited Warranty. See Owner's Manual for details.
