FIVE STAR RATING
FOR OVER 10 YEARS

Personal Care • Quality Workmanship
Industry Leading 6 Year Structural Warranty
New Interior LED Lighting and Solar Panel Standard on Every Model
In 1989, a group of experienced RV builders, working for a major fiberglass truck camper manufacturer saw a niche in the RV market and established Northern Lite Mfg. to design and build a fiberglass truck camper to fit import trucks.

The company evolved and eventually began to produce a complete line of full sized truck campers.

In 1989, two entrepreneurs, Mac Donkin and Lloyd Gartrell, who had sold their successful businesses and decided to retire, each purchased with their wives, a Northern Lite Camper for a once in a lifetime tour across Canada and the US and after that a tour to Alaska.

After spending 7 months on the road traveling, these gentlemen were so impressed with the quality and workmanship of their Northern Lite Campers that they decided that when they returned home they would invest in this growing company. They felt that if they and their wives were so pleased with these campers, then other buyers would be impressed also.

After 4 years of being investors, Mac and Lloyd decided to buy the rest of the Company.

Putting their business experience to work, and emphasizing the importance of building a quality product, Mac and Lloyd have expanded the Company until today Northern Lite is one of the leading manufacturers and exporters of molded fiberglass truck campers in North America.

Mac Donkin continues to be actively involved in the everyday operation of this successful company.

The excellence of the Northern Lite Camper has been recognized by the RV Consumer Group who in their 2004 RV Rating Book awarded Northern Lite Campers their prestigious 5 Star Rating. This award was particularly gratifying because Northern Lite was the only truck camper manufacturer in North America to receive this honour.

In 2000, Northern Lite doubled the size of their manufacturing facility in Kelowna, B.C. and are now shipping their Truck Campers throughout Canada and into Alaska, Washington, Oregon, California and the other western states, and as far east as New Hampshire.

What is a 5-Star Rating?

According to the RV Rating Book, “To get a 5-star rating, a brand needs to have an ‘excellent’ record of performance in Value, Reliability and Highway Control, indicated by ratings of 90 or higher.”

One of the factors in the Value rating is depreciation. A high score in this indicates less depreciation on a product over the years.

Reliability is based on used RV appraisals and letters, claims, and commentaries from customers as well as owner satisfaction polls.

Highway Control rating is based on the balance and handling of the product.

Performance also includes the manufacturer’s willingness to stand behind their product.
Northern Lite Campers are built using fiberglass molds in a process similar to building a fiberglass boat.

**FACTORY TOUR**

**STEP 1**

After a layer of Gelcoat is applied to the interior of the mold, a mixture of “chopped” fiberglass strands and a plastic resin is sprayed on top of the Gelcoat to form a very rigid, strong and light weight molded shell.

**STEP 2**

Once both the top and bottom are pulled out of the molds, the top shell is placed over the bottom shell which has a plywood lip along its top.

**STEP 3**

The top is screwed onto the bottom shell through this plywood lip. Using a metal molding, a vinyl insert is then used to cover up stainless steel screws.

**STEP 4**

The camper then proceeds to the assembly line where openings for doors, windows, and exterior compartments are cut out and assembly begins.
As the camper moves down the assembly line, cupboards, cabinets and appliances are installed and the exterior is completed.

The finished camper is now ready to ship to one of our over 30 Authorized Dealers throughout North America.

At the Final Inspection station, final finishing is completed and quality and systems checks are carried out.

Air pressure testing is the final test before the camper leaves the assembly line.

Before it leaves the Northern Lite Factory, each camper is individually weighed and the actual weight is noted inside the camper.
**Special Construction Features**

1. The top shell of the Northern Lite Camper is placed over the bottom shell and overlaps 2” to eliminate any possible chance of leakage.

2. Non rusting stainless steel screws are used to attach the top to the bottom and are also used on the exterior of our campers.

3. A unique aerodynamic roof line gives extra strength to the roof and lessens wind resistance.

4. Jack brackets curve under the camper for extra support when lifting the camper. The brackets are screwed into 1” plywood backing.

5. Tie downs are welded to a 4”x6” piece of steel and mounted on 1” plywood for extra strength.

6. Cabinets are framed with strips of 3/4” plywood rather than spruce or pine, to get away from warped wood with knots, adding extra strength to cabinets.

7. Drawers are constructed using high quality Russian Birch and all drawer guides are metal roller bearing and full extension.

8. No particle board or chip board anywhere!

9. All wood paneling is “real” sapele veneer, not a paper or vinyl overlay.
**10’2” CD SPECIAL EDITION**

**DISTINCTIVE FEATURES OF THIS SPECIAL EDITION**
- Upgraded Dometic thermal pane acrylic windows
- 10’ Side awning
- Additional battery box
- Battery disconnect switch
- Sliding propane tray
- Rear bumper c/w step
- Electric jacks
- Removable carpet
- Stereo CD/DVD player
- LCD television c/w antenna
- Dometic thermal skylight
- Dometic microwave (in cupboard)
- Privacy drape
- Bedspread
- Roof air conditioner
- Promo package
- 95 Watt solar panel c/w digital regulator
- Fantastic fan
- Queen size bed
- 7’ Power rear awning
- LED interior lighting
- 3 Stage battery charger

**10’2” CD Special Edition**
With face to face dinette  Fits full size long box trucks
Dry weight only 2980 lbs

**SHOWN WITH OPTIONAL BUMPER PATIO**

- Dometic Acrylic Thermal Pane Windows are 50% lighter than conventional Thermal Pane Windows.
- Battery disconnect switch.
- Standard solar panel.

**Interior of 10’2 Special Edition showing Dometic Skylight and LCD TV in bunk area and Dometic Acrylic Thermal pane Window in kitchen area.**

- New larger bunk windows

OPTIONAL U-DINETTE SEATING

8'11" Q Classic Series SE
With face to face dinette Fits full size short box trucks

8'11" Q Classic Series SE
With optional u-dinette
The new 9’6” Queen Classic Northern Lite Camper (for long box trucks) is the latest addition to our lineup of luxurious lightweight campers. Even though we have increased the width of this camper (now 8’2” wide) and increased the length of the bed (now 60”x80”), the weight still comes in at a surprisingly light 2150 lbs. Even with our Promotion Package and a few other convenient options, the new camper still weighs less than 2400 lbs.

We’ve patterned this camper after our very successful 8’11” Camper (for short box trucks) and lightened the new camper by using Dometic Acrylic Thermal Pane Windows (half the weight of conventional Thermal Pane Windows), aluminum jack brackets, a Full Queen sized mattress and other proven weight-saving measures that do not affect the structural integrity of the camper.
The Ten 2000 Series features a full 14" basement with heated and enclosed tanks. Units in this Series offer a 60 x 80 Queen sized north/south bed.
STANDARD EQUIPMENT
• Two piece molded fiberglass
• 1” R6 block foam insulated walls, floor, roof
• 6.3 cu ft 3 way fridge – 2 door
• 18,000 BTU auto light furnace
• Power range hood
• 3 Burner stove top
• 2x20lb Propane cylinders
• 45 Amp converter c/w 3 stage battery charger
• 6 Gal. hot water tank
• Bathroom c/w shower
• Fresh water toilet c/w holding tank
• Sapele doors and trim packages
• Sapele veneer paneling
• Venetian blinds
• Marine headliner
• Bedspread package
• Large radius tinted windows
• Screen door
• Quartz clock
• Heki thermal skylight
• 30 Amp power cord
• Mechanical jacks – white
• 95 Watt solar panel c/w regulator
• LED interior lighting
• Folding assist handle
• Face to face dinette
• Generator compartment

OPTIONAL EQUIPMENT
• Air conditioner
• Auto changeover L.P.G. *
• 8’ or 10’ Side awning
• 7’ Rear power awning
• Bathroom vent – 12V *
• Battery disconnect switch *
• Boat rack and ladder
• Cable ready *
• Dry bath (RR only)
• Dually swing out brackets
• Electric jacks
• Fantastic fan
• Rear bumper patio
• Generator ready *
• Hot water heater – DSI *
• Monitor panel *
• Microwave
• Outside shower *
• Oven *
• Pre-wire for generator *
• Privacy drape

• “Slide out” propane tray
• Rear bumper c/w steps *
• Rear view window c/w lens *
• Removable carpet
• Acrylic thermal pane windows
• Stereo c/w speakers – CD/DVD player
• Stove top cover *
• Third vent
• LCD TV
• TV antenna

* The Promo package is an option package designed to save you $$. See your dealer for details.
The new 8’11 Northern Lite Camper (for short box trucks) is one of the lightest 8’11 campers in the market. We’ve lightened this camper by using Dometic Acrylic Thermal Pane windows (half the weight of conventional Thermal Pane windows), aluminum jack brackets, a Full Queen sized mattress and by seeking out as many weight saving measures as we could find without affecting the structural integrity of the camper. The result is a base weight of 2050 lbs and a weight when nicely equipped of approximately 2240lbs.
8'11" Q Classic Series
With face to face dinette  Fits full size short box trucks

STANDARD EQUIPMENT
• Battery disconnect switch
• Monitor panel
• Ladder
• Outside shower
• Propane auto changeover
• 12 volt Bathroom vent
