Live out loud.
WE’VE BEEN EXPECTING YOU.

At Safari, we know you. You’re notorious for your independent streak. Always looking for the real deal. Sampling the local specialties. Going hours out of your way to see things others miss. You want a coach that’s adventure by day and contentment by night. The marriage of luxury and adrenaline.
THISS’LL REV YOUR ENGINE.
The 2009 Cheetah sports an all-new dash with a sophisticated Roman bronze instrumentation panel. It’s equipped for the latest bells and whistles with an in-dash driver’s message center, optional satellite radio, iPod controls and optional GPS. Adjustable brake and accelerator pedals increase safety and reduce driving fatigue, while solar sunscreens block out annoying glare. And, you’ll enjoy it all from the plush comfort of Ultraleather™ cockpit seats.
Make a bold statement with the Cheetah’s all-new graphics in deluxe, full-body paint. The coach features a sleek new front cap with newly styled headlights and fog lights. Wherever you go, the view is better through the enormous, wraparound Panaview™ 1-piece windshield with no obstructing seam. Shown at left is a side camera for the optional 3-camera rear vision system.
HAVE A LOOK AROUND.

Style and convenience come together throughout the Cheetah's living area. You'll enjoy beautiful hardwood cabinetry, polished solid surface countertops with radiused edges, an exquisite dining area with freestanding chairs, and top appliances, including an optional central vacuum system. The bedroom features a stunning new hardwood and fabric headboard, and in the bath you'll enjoy a large, round one-piece shower (neo-angled on 40SKQ).
COLORFUL CHARACTERS.

For 2009, the Cheetah continues to be one of the road’s most distinctive motorcoaches. You’ll choose from three striking color schemes with exquisite fabric combinations and stunning cabinetry styles. They’re just like you — filled with warmth, personality and just a hint of rebellion.

CHEETAH 09 FABRICS & EXTERIOR COLORS

FOR LOOKS THAT LAST.

Every Safari coach features upholstery fabric with soil repellent that’s not just added on, but applied during the manufacturing process, for superior coverage.*

*Brand and application of upholstery fabric protection may vary depending on date recreational vehicle was manufactured.
THE HEART OF A CHEETAH.

ROADMASTER R-SERIES CHASSIS

The 2009 Cheetah offers the best-in-class performance of the Roadmaster R-Series Chassis. Roadmaster is the only chassis manufacturer with a 100 percent commitment to producing only chassis for luxury motorhomes. In fact, every Roadmaster chassis is custom built for the exact model and floorplan to give you a smoother ride, superior front-to-rear balance and unbeatable strength and reliability. We encourage you to take a few minutes to learn more about the many features that put Roadmaster in a class by itself.

1. The Cushion Air Glide suspension features 8 outboard-mounted gas-charged shocks and air bags.

2. The Power of Caterpillar is at the wheel of the 2009 Cheetah. You’ll have the muscle of a Caterpillar® C7 350 HP engine — or, on the 42-foot model, the remarkable C9 400 HP. Both are compliant with 2007 EPA standards and feature ACERT™ technology for reduced emissions, powerful performance and outstanding fuel economy.

3. Allison® 3000 MH 6-Speed World Transmission with electronic shifter. Our exclusive use of synthetic transmission fluid allows for up to three-year maintenance intervals for the Allison® transmission.

4. Automatic Traction Control (ATC) eliminates wheel slippage in slick conditions and heightens control. The Anti-Lock Braking System (ABS), with front disc brakes and rear drum brakes, gives you superior stopping power, especially on steep grades. Together, these sophisticated systems offer the very best safety on the road.

5. Our exclusive raised rail design provides for larger full pass-through storage bays with flush floors.

6. Aluminum Fuel Tank is lightweight and resists corrosion, unlike steel tanks.

7. Dual Fuel Fill allows you to fill the tank from either side of the coach for greater convenience and flexibility at the pump.

8. A 10,000 lb. tow hitch rating is the highest in its class. Prewired for supplemental braking system that works with your tow vehicle.
The Cheetah’s 40-foot models (40PBQ and 40SKQ) ride on the Roadmaster RR8R-Series chassis with eight outboard-mounted air bags, which provide a wider, more stable platform for the coach.

The actual overall length of the recreational vehicle may differ from that indicated in the brochure due to variances in the manufacturing process and/or installed components. The actual length may be greater or less than that indicated. Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Safari provides a weight sticker on each unit we produce which includes that unit’s tank capacities and approximate weight. Consult your local Safari dealer for unit availability and further information. The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product design or material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name which will result in comparable performance. * Towing capacity is limited by GCWR; your vehicle’s towing capacity is the difference between the GCWR and the actual vehicle weight, including all water, fuel, passengers and cargo. Your towed vehicle should be equipped with auxiliary brakes if the weight of the towed vehicle exceeds 1,000 lbs. Consult your owner’s manual for further towing information.

** All tank capacities are estimated based upon calculations provided by the tank manufacturers and represent approximate capacities. The actual "usable capacity" may be greater or less than the estimated capacities based upon fabrication and installation of the tanks.

*** Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.
