travel & fifth wheel trailer specifications

Your SunnyBrook trailer begins with a unique, all-aluminum Superstructure design. Then we put additional support in the sidewalls and floors, create bridge-truss style roofs with a proprietary ducting system, add full-wrap Fome-Cor® insulation and more to help assure that you will get a better constructed trailer. Compare our lighter trailer weights and quality specifications and we know you'll see the SunnyBrook difference.

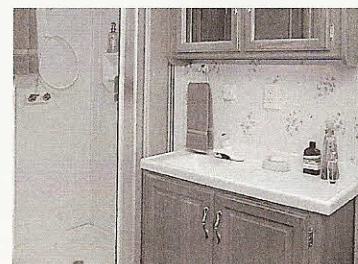

standards & options

Take along all your stuff with SunnyBrook's exclusive Sunny-Stor™ compartment system. It's easily accessible from inside or out.

Enclosed heated holding tanks are standard on some models and feature easy-access dump valves.

Large bathrooms feature plenty of shower space and our standard one-piece lavatory top design.
